LUMBER EXPORTS IMMENSE

More Than Hundred Million Dollars Worth Sent Abroad.

OUTPUT OF FORESTS ENORMOUS

Bureau of Commerce Makes Report on Trade, Showing Figures that Indicate Growth of the Industry.

WASHINGTON, July 16.—More than \$100,000,000 worth of products of the forests of the United States was sent out of the country in the fiscal year just ended, against less than half that sum in 1901, a decade ago, according to official figures of the Bureau of Foreign and Domestic Commerce.

Pine and Oak Lead. Pine and oak are the principal classes of timber being sent out of the country. Of the approximately \$120,000,000 worth of wood and manufactures thereof, exported in the year just ended, \$7,000,000 worth was pine timber and lumber, and approximately \$15,000,000 worth was oak.

The whole world seems to be demanding the products of the American forests. The oak lumber exported in 1912, for which full details are available, was distributed to a dozen countries in Europe; about twenty countries in North and South America, and in smaller quantities to Asia, Oceania and Africa.

Where Supply Goes. Shooks and staves ready for use in making boxes or barrels find a wide distribution, and aggregate about \$13,000,000 value in the exports of 1912. Box shooks go in large quantities to the countries and islands of North America and in considerable quantities to South America, Asia and Oceania; while Europe was by far the largest purchaser of the approximately \$6,000,000 worth of staves exported.

HALF MILLION USED EACH YEAR TO DEFEAT PENDING MEASURES

ing "how the senator stood" among business men in and about Cincinnati. He did not testify whether the report was favorable. Foraker wanted to know if he would stand a chance to be re-elected to the senate and was still thinking about a presidential boom.

Mulhall got back to Baltimore politics and pushed forward two years to January, 1910. On a letter to I. H. Eaton of the Builders exchange of Baltimore, he wrote:

"The situation in Baltimore politics is the rottenest in the United States. Tammany Hall in New York has never played such politics as are played in Baltimore, for Tammany does encourage an active, pushing, fighting democrat, but on the other hand, if there is any clean republican who attempts to come to the front in Baltimore the gang that calls itself the Union league of Baltimore immediately gets busy and attempts to destroy his reputation as well as his usefulness to the republican party.

Mulhall identified a letter from C. A. Carville to H. E. Miles, chairman of the tariff committee of the Association of Manufacturers urging the candidacy of Hon. Charles W. Miller of Goshen, Ind., for governor against Watson.

Another Mulhall letter about a campaign against Congressman John J. Gardner of the Second New Jersey district, said in part:

"Defeating a man like Gardner will have more effect on radical congressmen than all the letters we could write in a year."

On March 10, 1908, Mulhall wrote Schwedtmann that Chairman Sherman of the republican congressional committee (later vice president) had "distinctly told him" that every effort should be made to defeat Gardner. He added that he learned from Barthold, Sherman and others that the Littlefield bill in which the manufacturers were interested could be passed if Littlefield would "let up" on his prohibition bill.

GERMAN AVIATOR DIES FROM EFFECTS OF FALL

JUETERBOG, Germany, July 16.—Lieutenant Stoll, an army aviator, died today from the effects of injuries suffered last evening in an aeroplane accident on the military aerodrome here. While landing with a passenger Lieutenant Stoll's machine struck the top of a tree, overturned and threw the occupants to the ground. The passenger was not injured.

III. Our Home Rule Charter—Official Salaries

What is in it—what is not in it—what it means.

It should be fully understood that the salary schedule provided in the new home rule charter for Omaha adheres closely to the present level. Excepting the civil service board, it fixes salaries only for elective offices.

No change is made in the commissioner's pay, which remains at \$4,500, nor in the mayor's, which remains at \$5,000.

The health commissioner's salary is fixed at \$3,500—on the surface a raise of \$500, but, in fact, a reduction of more than \$1,000 because that officer has been drawing out of the county treasury, in addition to his \$3,000 salary, registration fees amounting to \$1,700, which, after the adoption of the charter, will have to be turned into the city strong box.

The salary of the auditor is fixed at \$3,000, which is not excessive for the duties and responsibilities.

The salary of the police judge remains at \$2,400. The salary attaching to the combined office of city and county treasurer is made to equal that of a city commissioner, namely, \$4,500, taking into consideration the increased amount of money he must handle, and for which he will be held accountable.

Other salaries are not altered, but where they are fixed by the council the amount must be definitely set forth, and no additions or bonuses are permitted, nor may any city appointee take private employment while drawing a public salary unless express permission is given and prompt report made of all private employment accepted. In this respect the charter is intended to require every person drawing a public salary from the city calling for his whole service, to give the city his entire time and undivided attention, something which has never heretofore been done.

More Spring Wheat Planted This Year

(From a Staff Correspondent.) LINCOLN, July 16.—(Special.)—With twenty-two counties of the state making the 1913 spring wheat acreage shows an increase of 5.1 per cent over the record for 1912.

Reports to the State Board of Agriculture for seventy counties follow:

Table with columns: County, Acreage, 1912, Acreage, 1913. Lists counties from Adams to Wheeler with their respective acreages for 1912 and 1913.

Totals 283,215 306,608 Increase of 23,393 acres over 1912, or 8.3 per cent.

Sixteen Caught in Mine by Flood

DULUTH, July 16.—A special to the Herald from Eveleth, Minn., says: "Sixteen men are imprisoned in the No. 1 spruce mine here as a result of an inrush of water following a terrific rain this morning. Over 200 who were in the workings escaped. The mine belongs to the Oliver Iron Mining company, a subsidiary of the United States Steel corporation."

The water is now said to be slowly receding. It is not known yet whether the sixteen imprisoned men drowned, but they have about once chance in 1,000. They are caught in an upper level, it is said, and it is barely possible the water did not reach them. A large force of men are heading to prevent the water from flowing into the mine, while the pumps are working.

The sixteen imprisoned men are all married and the police are having difficulty in keeping back a grief-stricken crowd of women and children.

Atlantic City Hotel Burned. ATLANTIC CITY, N. J., July 16.—Fire early today destroyed the Deansmore hotel at Leaning, near here. The hotel was partially filled with guests, and as the fire made slow headway, all were

NEWLY ELECTED MEMBER OF THE OMAHA WATER BOARD.

W. J. COAD.

able to leave safely. Many of the guests, however, lost their personal property. The loss is estimated at \$50,000.

AMBASSADOR CALLED HOME

(Continued from Page One.) recognition of Provisional President Huerta. The protest was to be presented by the constitutionalist diplomatic agent to officials in Washington.

Carranza contends that the majority of Mexicans favor him and that if he were granted belligerent rights, he soon could get control of the government. MEXICO CITY, July 16.—Ambassador Henry Lane Wilson leaves here for Washington tonight in response to orders from the State department.

Secretary of State Bryan, in communicating with Ambassador Wilson, said President Wilson wished him to make a personal report on the conditions in Mexico. Nelson O'Shaughnessy, secretary of the embassy, will be left in charge. Germany Makes Threats. MOBILE, Ala., July 16.—Buyers on the Mobile Cotton exchange, representing German firms, said today that they had received code messages from Germany stating that the Berlin government had made representations to the United States concerning the Mexican situation.

The messages were said to state that if the United States did not move to restore peace in Mexico, Germany would take some initiative to that end.

Inexpensive Oatmeal Shampoo Easily Made

(The Woman Beautiful.) Those who have been seeking a shampoo which will really make the hair soft and lustrous, will be glad to know of a truly beneficial oatmeal shampoo which they can prepare themselves. A teaspoonful of certified oatmeal compound put into a cup of hot water and stirred well, makes the most cleansing and healthful shampoo to be had. It is of a creamy consistency, slightly foamy, but very unlike the copious lather of preparations, and soaps heavily laden with alkalies.

Alkalies borax and ammonia may aid in cleansing the hair, but they also affect its color and health. Nothing makes the hair fluffier and glossier than the oatmeal shampoo, without making it harsh, brittle or irritating. It doesn't take away the natural oils or make the scalp scaly and itchy. Many who use it report they are never troubled with dandruff nor splitting, breaking or falling hair. Fifty cents will buy a good quantity of the certified oatmeal compound at any drug store.—Advertisement.

Jury of Women Will Pass on Fit of Dress CHICAGO, July 16.—Chicago women will taste the first fruits of their suffrage victory when a female jury will be impaneled to decide a case in the municipal court next week. The case arises from a dispute between two women as to the merits of a bill for dressmaking, in which the hang and style of a gown will be the most important evidence, "something a man knows little about," explained counsel for Mrs. R. L. Davenport, the plaintiff.

FRUIT GROWERS IN PROTEST

Discrimination by Railroads Against Central Iowa Resented.

STANDARD MEASURES ADOPTED

State Board of Health Expected to Issue Order to Close Friedmann Tuberculosis Institute at Colfax.

(From a Staff Correspondent.) DES MOINES, Ia., July 16.—(Special Telegram.)—At a meeting of the Iowa Fruit Growers' association held here today strong resolutions were adopted to be presented to the railroads in western Iowa, also representatives of the cities of Iowa and others in regard to the relative value of different classes of property.

It is expected that the new State Board of Health which meets tomorrow, will order closed the new Friedmann tuberculosis institute at Colfax. The secretary will present the matter to the board and the fact that the institute is being operated despite the protests of the local board of health in that city.

Show Value of Railroads. It is expected that before the hearing on rail rates before the state executive council is closed, Clifford Thorne of the railroad commission, on request of property owners in the state, will present to the council some significant facts regarding the actual value of railroad property in the state. He will present the result of some investigation as to the actual values as shown by the computation on stock values in the markets. This remainder of the hearing will be in the nature of a controversy as between the different classes of property; as the railroads in their presentation of the case have sought to show that as compared with land their property is assessed too high and others will show exactly the contrary.

IOWA GROWERS EXPECT BUMPER APPLE CROP

AMES, Ia., July 16.—(Special.)—Southwestern Iowa apple growers will have no trouble in disposing of their bumper apple crop at good prices if the plans of the extension department of Iowa State college carry through. A clearing house for apple growers, through which the buyers and growers will be brought in direct touch with each other, will be established by this department. The extension department will not buy or handle it in any way, but will collect the names and addresses of apple growers and hand them over to reputable dealers, together with their methods of grading and sorting. This year's apple crop is reported to look the largest since 1909 and every effort will be made to find a good market for all of it.

MAKER OF GRAPE HIGHBALLS FORGETS TO GET LICENSE

SIOUX FALLS, S. D., July 16.—(Special.)—Forest Mader of Davis has become involved in difficulty with Uncle Sam by selling what he termed "grape highball," and which was composed of grape juice mixed with alcohol. This concoction he dispensed among his thirty friends. Federal officials heard of the setting of the new drink and arrested Mader on the charge of selling liquor without first procuring a government license. As the result of his hearing before United States Commissioner Conway of Sioux Falls, he was held for appearance before the next federal grand jury.

DEATH RECORD

Jackson Tinker. WASHINGTON, July 16.—Jackson Tinker, one of the veterans of the corps of Washington correspondents, died here early today, after an operation for appendicitis. He was 64 years old.

Two Iowa Boys Face Court-Martial. IOWA CITY, Ia., July 16.—(Special.)—Court-martial cases Robert Brumit and Ralph Baldwin of company I, Fifty-fourth regiment, Iowa National Guards, of Iowa City, as a result of their failure to accompany their comrades to the encampment at Washington, Ia., yesterday. Captain J. B. Howell has ordered their arrest, and Brumit has already been taken into custody by the sheriff. Baldwin has not yet been found.
