of Considerably Leas.

O'MAIM, July 31, 1812.

The buils in wheat were pleased because of the poor response by farmers and interior elevator men to the build and experience were resorted and the state of the poor response by farmers and interior elevator men to the build and the acceptances were resorted that the territory tributary to Chicago cash concerns in answering the question and the state of Nebraska. The fact that the territory tributary to Chicago in which market purchases are confined and the state of Nebraska. The fact that the mailer call for each wheat on experience were resorted and the state of Nebraska. The fact that the mailer call for each wheat one should be a sample of the country. There were the sample of the country tributary to Chicago in which market purchases are confined and the state of Nebraska. The fact that the sample call for each wheat one should be a sample of the country. There were the sample of the country. There were the sample of the country. The sample of the country is the sample of the country is the sample of the country. The sample of the country is the sample of the country is the sample of the country is the sample of the country. The sample of the country is the sample

CHICAGO, July 18.—Spreading of the black rust infection had considerable to do today with railing the wheat market after an early decline. Closing prices were steady at an advance of 160% to 160% to 160% of the leading staples also made gains—corn, 160% of cots, 160% c and provisions to 160% to cots, 160% c and provisions to 160% to 160% of states reporting black rust in the wheat fields. This news meant that the plague was now present to some extent

wheat needs. This news meant that the plague was now present to some exten in every state in the spring crop belt, a well as across the Canadian border Bulls received help, too, from a deciderally in coarse grain and from export business accompanied by gossip of renewed tension between Austria and Russia.

Predictions of larger world shipmen caused an opening dip in wheat prices and there was also a little setback near the end of the session. Longs taking profits were responsible for the fact that the final transactions showed only a mod-

the final transactions showed only a mod-erate degree of strength.

Scattered rains in Nebraska and Kan-sas gave corn a down turn at the start, but prices raillied sharply after a prom-inent expert had stated that the crop-outlook was poor over a large part of fillinois. There seemed to be no end to bullish dispatches from the west and outhwest.
Oats were affected a good deal by advices from Iowa telling of damage from

heat.

In provisions shorts covered freely. The incentive came from higher prices for hogs and from the bulge in coarse grain.

NEW YORK STOCK MARKET

Vigor After Interruption.

TRADING ON MUCH LARGER SCALE

Course of New Haven Watched Closely, Owing to Announcement of Mellen's Resignation-Shares Rise, Then Fall.

NEW YORK, July 18.—The forward movement in stocks was resumed today with vigor, following the interruption yesterday of the advance, which began several days ago. Trading was on a considerably larger scale and the rise was the most comprehensive of several weeks. Steel, Union Pacific, Reading, Canadian Pacific, Smelting, Harvester and various stocks mounted two points or more, with lesser gains for most of the remainder of the list, While the close was below the best prices in some cases, owing to realizing sales, no serious inroads were made on the day's gains. More than one-fourth of the trading was in Steel, the keen demand for which apparently was due in large part to forced covering.

The course of the market illustrated the close connection now existing between conditions here and in foreign centers. London was a buyer of stocks here and Paris and Berlin also made purchases on direct orders. Brokers estimated foreign buying at 20,000 or more shares, principally of Canadian Pacific, Union Pacific, Steel and Almagated. There were no important developments at home and the foreign influence was, perhaps the most important developments at home and the foreign influence was, perhaps the most important factor.

Movements of stocks here during the last few days have followed the European markets. Prices rose abroad on Wednesday and today and an advance here followed. Yesterday's reaction in London was followed by a reaction here. In addition to the foreign buying, brokers said that there was a bester demand for investment stocks here today than had been the case for some time.

The course of New Haven was watched closely, owing to the announcement overnight of President Melien's resignation. Traders who viewed this development as builish bought the stock, marking up the price? Points Bubsequently it fell off sharply, cloning at a loss on the day of 21%. New Haven 6s lost 1%.

Honds were firm. Total sales, par value, 81,655,000. Panama 3s, registered and coupon, declined % on call.

Dry Goods Market.

NEW YORK, July 18.—DRY GOODS—
Buyers of wash goods are applying themselves principally to noveltles for spring.
Percales are being sold to the cutting
trades for spring delivery. Jobbers report a good house trade on printed
crepes and ratines. Local wool markets
are very quiet. Silk buyers find merchandise very scarce.

Evaporated Apples and Dried Fruits NEW YORK, July 18.—EVAPORATED APPLES—Steady, DRIED FRUITS—Prunes, firm. Apricots, dull and easy. Peaches, steady, Raisins, firm.

SHEEP-Values on both ambs continued to decline was only fairly notive at the Conditions in the general trade at nearly all live stock centers were also of a bearish nature and prices had a lower trend. Locally, buyers were out in good season and apparently held good orders, provided they could induce the sellers to make a few concessions. After the usual dickering during the first hour or so, the bulk of the best killing grades of both sheep and lambs began to move at figures at least 155735 lower on lambs and 19715c lower on wethers. The number of ewes and yearlings offered was not large enough to make any noticeable thange, but what few were on sale were a little off, in sympathy with wothers. Though none of the offerings were disposed of any too readily, the bulk of the killing stock was picked up at a reasonable hour. nditions in the general trade at near ble hour. Best lambs on sale, among which were

become of Miss Marie Hart, Galesburg's 227-pound school girl? This question wor-

police force searched all night for her. It is believed that the girl was spirited way by show people, who wanted her

The trend of business is still in the right direction, even though progress is slow, in the great crop producing regions optimism is general, nwing to the prospect of another prospectus year on the farms. The financial markets of the east recently have been confronted with an unusual array of adverse influences, yet it is significant that these largely have been ignored and for a time this week succrities advanced in an impressive manner. Sentiment responded to the agreement to arbitrate the rallway labor contraversy and the offering of foreign funds at this center, both of which tended to offset the developments in the Maxican situation. Changes in strictly commercial and industrial conditions are mainly favorable, with improvement in some instances being quite pronounced. Wholesale distribution continues restricted—as usual at this period—but warm weather has stimulated the retail demand for scaronable clothing and footwear.

Midsummer shutdowns of the steel mills were of brief duration and pressure for deliveries continues and new orders are in well maintained volume. More activity is apparent in pig iron, the buying movement broadening under the stimulus of lower quotations. Traffic returns indicate a continued gain in railroad gross earnings over last year—the increase during the first week of July being 44 per cent—but bank exchange this week decilined 53 per cent, owlns mainly to the duffices in speculative channels. There was, however, a alight improvement of a per cent as compared with Bill.

Commercial failures this week in the Turited Stries were 172, against 12 thirty-seven last year—the increase furning capada number thirty-six, against 12 thirty-seven last year.

BRADSTREET'S TRADE REVIEW

BRADSTREET'S TRADE REVIEW

Trade Quiet as a Whole-Labor Well Employed. NEW YORK, July 18.—Bradstreet's State of Trade tomorrow will say:

NEW YORK, July 18—Bradstreet's State of Trade tomorrow will say:

Trade is quiet as a whole, a condition of usual at this season, but despite tariff the certainty, which has tended to deepen the late, and high rates of money, the needs of nearly 100,000,000 people from day to be day with necessary provision for short distances ahead, make for a very fair volume in the aggregate. Best reports as to activity come from the agricultural sections, while idustrial centers and parasit tioularly the east, return relatively the sistement and in the part of the missing of the trade in the part of the missing of the missing of the trade preparation of the trade in the agricultural sections and buying in these sections are no longer than assual. Crop prospects in some sections are notably the northwest and southwest, are to lassed as good, if not in all cases better in a season of the trade preparations and buying in these sections are classed as good, if not in all cases better than a year ago. Textiles are still the ocurrence of the tariff storm, but even here there is a lack of uniformity in trade preparations divisions of that trade.

Whest, including flour exports from the United States and Canada, for week and in 1,984,464 this week last year. Corn exports for the week are 225,612 bushels, against 3,885 bushels last week and 44.504 bushels in 1932.

Business failures for the week coding July 17, aggregate 3,509,406 bushels, against 3,885 bushels last week and 44.504 bushels in Canada number 34, compared with 22 the corresponding week last year. 22

feet and the other severely injured by a jump of thirty feet.

Neither crew or, pilot was on board the air craft, which was at anchor on the military parade grounds, its mooring chains buried six and a half feet in the earth, when a gust caused it to break away. The sentries tried to hold it down.

Girl is Kidnaped

NETW YORK, July 17.—Hugo Meisner, he a young helper in a Brooklyn ice plant, was found today frozen to death in a compartment which he had entered to young helper in a Brooklyn ice plant, and to young helper in a Brooklyn ice plant, and today frozen to death in a compartment which he had entered to young helper in a Brooklyn ice plant, and young found today frozen to death in a compartment which he had entered to young found in the plant in the plant

ried Galesburg police and relatives of the girl today. Although hard to believe, information developed by today's investigation leads the police to think that she was kidnaped.

Marie left home last night, teiling her folks she was going te the "movies."
She was not home by midnight and so her relatives, neighbors and the local

LEGAL NOTICES.

It is believed that the girl was spirited away by show people, who wanted her for exhibition purposes. She is only 16 years of age.

MILITANT OUT ON "STRIKE" RUN IN ON NEW CHARGE

LONDON, July 18—Miss Rachael Barrett, assistant editor of the Suffragette, who was sentenced to nine months imprisonment on a conspiracy charge June 7 and has been released on license several times, was restrested tonight after addressing a militant meeting. Suffragettes attempted to rescue her, but were held in check by a large force of police while Miss Barrett was bundled into a motor car and driven to Holloway jail.
