# Guards Sing the Marseillaise in Front of Vatican

the vatican was in a veritable state of singe. This was the outcome of the mutiny of the Swiss guards, whose demands, in the form of a memorial relating their grievances and setting forth the conditions on which they would remain in the service, flatly were rejected

Three leaders in the movement were ex pelled from the vatican. Four others left tonight and twelve have requested leave to depart for their homes in October. Those who left were accompanied to the gates of the vatican by their comrades. At the moment of separation they cried, 'Viva Garibaldi!" Some of them joined in singing the Marselliaise. Never before was such a scene witnessed in front of

Yesterday the guards were relieved of their cartridges, and today even their rifles were taken from them, as it was discovered that they had succeeded in concealing cartridges.

himer, oass with a gain of ye to ye and provisions varying from 50 decline to an advance of 2%c. Rural offerings of wheat proved to be next to nothing. It was said that big owners at leading terminal points had largely disposed of holdings and had taken for granted that plenty would be for sale when wanted. Farmers, how-ever, appeared to have decided in great majority that a waiting policy was ad-visable for the time being. Wheat prices, which at first showed a tendency to sag on account of favorable crop advices from the northwest, hard-ened gradually as the day wore on. A notable failing off in export demand, though, brought about a feeling of cau-tion on the part of the buils, so that the market kept within narrow limits throughout. Corn traders evinced doubt as to the sufficiency of the moisture supply. After an early advance the market became casier, one of the reasons for the reac-tion was a report that Kansas damage had been exaggerated. The outs crowds devoted themselves en-tirely to following the action of corn. Provision business was in the main lo-cal and indecisive. Offerings were mod-erate and there was no urgent demand. PARIS, July 24 .- In referring to the proposed treaty between the United States and Nicaragua the Temps today recalls that Secretary of State Bryan toid a member of its staff in 1908 that the United States ought to evacuate the Philippines, that the United States was big enough and that it did not want either colonies nor a navy.
