STORES TO CLOSE EARLIER

Will End Day's Business at 6 O'clock on Saturdays During August.

CONTINUE SO IF SUCCESSFUL

Should the Plan Be Satisfactory the Hour Will Thereafter Be Observed by All of Leading Down Town Stores.

Omaha retail stores are going to close at 6 o'clock Saturday nights through August, and if the plan is successful it may be continued indefinitely. At a meeting of the Associated Omaha Retailers yesterday the voting was unanimous in favor of earlier Saturday night closing.

The closing time was moved up three hours, the stores having closed Saturday nights at 9 o'clock. There were twenty-three firms represented at the meeting.

Only three retail stores of size refused to join the retailers in the move for the clerks. The other retailers think they will join the ranks later if the buying public favors the earlier closing hour.

George Ryan, Fred Brodegaard and F. L. Combs told the retailers of the success the jewelers had had in closing early. All three said none of the jewelers had lost anything by closing early and there has been no decrease in the number of sales.

The decision to close the stores Saturday nights in August was made in the passage of a resolution introduced by George Laler of Beaton & Laler.

Hayden Bros. say that while the early closing will be tried during August it will be up to the public to decide whether the early closing will be continued. They report that this store is more than anxious to give the clerks the Saturday evening off for rest and that they hope the public will show its appreciation by doing its shopping early.

THREATENING FIRE IS SOON EXTINGUISHED

Fire breaking out at 10 o'clock on the first floor of the fertilizing department of the Swift & Co. packing plant at South Omaha, threatened much destruction. The blaze burned viciously, but the speedy response of the fire department soon had the flames under control and by 10:30 were out. The loss will amount to several hundred dollars.

Carpenters' Strike Extends to Fremont

Carpenters employed by Bridges & Hoys on the new high school at Fremont have gone on strike because of the firm having employed nonunion carpenters on their jobs in Omaha.

This statement is made on the authority of Business Agent H. Stroesser of the Omaha union, who says the men at Fremont did not ask for additional pay, but went out merely in sympathy with their Omaha brethren.

Mr. Stroesser also says that up to last night the places of the men on strike at Fremont had not been filled.

The school building at Fremont is a structure to cost \$200,000. It has been in process of construction since last November. The contracts for all work on the building were let long ago, before the carpenters' strike was thought of. The calling off of the men at Fremont is denounced by members of the Builders' exchange as an uncalled for strike, fomented outside the jurisdiction of the union in Omaha. The new situation has not improved the feeling between the builders and the union in Omaha.

Suction as a Milkmaid.

The extension of the vacuum cleaner principle to the milking of cows is a noteworthy advance in labor-saving devices. The winning milking machine at a contest recently held in England is built on the vacuum or suction principle. Patent celluloid tubes to the milk latch which is hung under the cow by a girl. An air pump creates a vacuum and a pulsating movement as efficient as the ancient squeeze starts the flow. City people learned to handle automobiles after a man of bicycling. Will the milking machine, in like manner, make the city man's backyard or roof convenient? Houses wired for electric lighting would require only one more plug and switch to attach such a dairy—Blood in Eagle.

Death from Blood Poison

was prevented by G. W. Cloyd, Plunk, Mo., who healed his dangerous wound with Bucklen's Arnica Salve. Only 50c. For sale by Beaton Drug Co.—Advertisement.

YOUTH FOUND WILLING TO WED THE EASTERN GIRL

Postmaster John C. Wharton has found one man in Omaha who wishes to meet the Philadelphia girl who wrote to the Omaha postmaster asking him to find her a western boy for a husband. The name of the Omaha boy, who lives in the north part of the city, would not be divulged by Mr. Wharton, but the following letter was exhibited, with the name cut off:

"While reading The Evening Bee last night I saw where a young lady in Philadelphia asks you to find her a husband. I am 27 years of age, weigh 155 pounds, black hair, good-natured, sober and earn \$100 per month. For further information address..."

Key to the Situation—See Advertisement.
