Contest a Duel of Pitchers Between Scott and Foster-Three Pitchers on Hand for Visitors In Second Battle.

BOSTON, July 39.-Boston made a clean gwee pof the four-game series with Chicago by winning a double-header from the visitors today, the first game, 2 to 0. and the second, 5 to 2

The first contest was a pitchers' battle between Scott and Foster. The latter twirler held Chicago to four scattered hits. Boston scored in the fourth inning SCOTIA TAKES TWO GAMES on Gardner's single and Engle's triple and in the sixth the home team's other run was made on a double by Hooper and Speaker's zingle.

In the second game Chicago used three pitchers, but all of Boston's runs were scored off O'Brien, who until a few weeks ago was a member of the local team. O'Brien's wildness and numerous errors by Chicago infielders were responsible for the most of the five runs made by Boston.

Head of Treasury Department Advises Such Paper Be Not Let Go of Beenuse of Fear of Adverse Legislation.

WASHINGTON, July 29 .- Secretary Mc-Adoo issued a statement tonight flatly per cent bongs to 254 a new low recrd-was due "almost wholly to what apder to nelp them in their efforts to de- the 2 per cent bonds. feat the currency bill."

Banks throughout the country own alcost entirely \$730,882,130 of the 2 per cent Saturday and Sunday, the former by a approximately \$30,000,000 less than when rancy bill shall pass and government descore of 9 to 3 and the latter by a score the banks bought them. Almost all the posits are put in the federal reserve of 4 to 2. St. Edward threw up the entire issue is used as security for na-

Discrepancy Covered. At the present price, however, the disrepancy between the market value and the issues of notes against the bonds is covered by what is known as the 5 per their own umpire from home, but were cent redemption fund, deposited by the banks with the treasury to care for reurements of national bank notes,

Secretary McAdoo announced it was not his intention to require the banks to home run and driving in the other run charge off the present depreciation bewith a hit. He made three of the four fow par, but that the banks might conhits garnered by St. Edward off Dan tinue to put in the bonds at par in their Sautter, who was working in fine form, statements to the comptroller of the currency, at least "until some material for Scotia. Score, first game: R.H.E. change in conditions should compel the adoption of another course." In his statement Secretary McAdoo de-clared the 2 per cents were worth par,

otwithstanding their decline in the New York market, and continued;

Terms it Unfounded. "The idea seems to be that the country banks, which hold about two-thirds of the 2 per cent bonds, and use them as the basis for their circulating notes, may be induced to unite with the New City banks in opposition to the bill if they can be made to believe that the currency measure is going to injure these bonds and cause losses to the banks. This is, of course, unfounded.

"Meanting it is folly for any bank to sell government 2 per cents at a sacrifice because of any apprehended legislation adverse to government bonds, as no such legislation will result. In the 124 years of its existence the government has kept faith scrupulously with its creditors and it is not going to change its honorable character now. If the necessities of any bank oblige it to sell bonds at depressed prices, that, of course, is another matter -a matter solely for the bank to de-

"The secretary said that not only had

nothing occurred to impair the value of the 2 per cent bonds, but that the amendment already adopted by the bankng and currency committee of the house nhances their intrinsic worth;

"First-Because the banks and all ther holders of 2 per cent bonds are given a privilege, not now possessed, of exchanging the Ts for Ts, without the troulation rights, at the rate of 5 per cent per annum of their holdings, present or hereafter acquired; so long as they do not make the exchange, they may retain or sell and buy the 2 per cent bonds and exercise the circulation privilege attached thereto.

"Second-At the end of twenty years charging that the decline of government the government will pay at par and interest all I per cent bonds which at that time remain outstanding. In view of the peared to be a campaign waged with fact that the 2s have no due date and very indication of concerted action on are payable after 1930, only at the option the part of a number of influential New of the government, the definite promise York City banks to cause apprehension of payment at the end of twenty years and uncasiness about these bonds in or-

Amused by Statements.

"The secretary spoke with amusement of the grave statements sent out from bonds. Their market value today was New York to the effect that if the curbanks, the 2 per cent bonds now used to secure deposits will be thrown on the market and their value thereby impaired. As only \$13,900,000 of the 2s out of a total of \$730,882,130 are used to secure govern ment deposits, it can be readily seen how trivial this is. If these bonds are not used to secure deposits they can be used

for additional circulation. 'Nearly all of the 2s are owned by the banks. If the price is marked down, it is because the banks themselves are putting pressure on the market and depressirg the value of their securities. The fault is their own. It would seem the part of good sense and good business not to do it. The secretary expressed the hope that the process, if continued, will not be carried to a point where the department will have to take action.

Always Narrow Market.

"There is and always has been a narw market for the 2 per cent bonds, just as there is for many tnactive although high-grade corporation bonds and every ne knows how easy it is to put up m lown the quotations for such bonds, espe cially when a favoring state of mind has been skilfully created.

"The department, because of its relation to the banks and its necessarily important part in the financial affairs of the country, has a deep interest in the welfare of the banks, in the stability of the financial situation and in a continuance of the prosperity now attaching to agricultural and industrial enterprises and general business.

'For these reasons the secretary said that he hoped that the banks would not consider a suggestion from him importinent. In many quarters there is a disposition on the part of the banks to restrict legitimate credits. There is nothing in the situation to warrant such a The banks should not put unSir, we satisfy your discriminating taste---

lue restraints on business.

Should any unusual stringency appear, the secretary said that it could easily be met through resort to the \$500,000,000 emergency currency now held in reserve which can be issued if the banks need it or by use of the resources of the Treas-

ury department, or both. 'In conclusion the secretary said, with emphasis, that there is not going to be any financial trouble and that the large crops now in prospect are going to be moved without difficulty, and that the powers of the department will be exercised in their greatest amplitude for the protection of the business interests of the country."

CAUCUS TO GET MONEY BILL

Democrats of Committee Allow

Themselves Two Weeks.
WASHINGTON, July 25.—Democrats of the house banking and currency committee agreed today to allow themselves two weeks more of wrangling over the administration currency bill. Two weeks from today a democratic house caucus will receive the measure.

The democratic committee members voted to authorise the chairman to "ask for a caucus of the party to be called on August 11, to act upon such a report on the pending currency bill as will then be made." Further than this, the members directed the chairman to make public no details of what took place at the meeting.
