OMAHA, March 10, 1914.

OMAHA, March 10, 1914. The first shipment of Argentine corn from New York. The buyers are Lewis & Edwards and the car contains 00,000 ptends. According to the junior partner of above firm, the corn is coming here in the way of a trial as chicken feed. Argentine corn is on the bargain countries of field World, but the growers of that gereal in the southern hemisphere are officting to sell the users of that grain the producers of America care to part with it. The exportable surplus of new crop in Argentines is placed at 2000 bushels and the harvesting of that grain is progressing satisfastorily in the north, and reports from Buenos area on Argentic when are ap-

that grain is progressing satisfastorily in the north, and reports from Buenos Ayers say that heavy shipments are as-stired in April, with favorable weather conditions. While the Liverpool and Broros Ayers markets failed to show any weakness yesterday because of bear-ish conditions aurrounding them, the cash situation in the United States was in invor of buyers with losses at Chicago of 'Agiliye and weatern points advise that the farmers' deliveries are increasing with a lack of demand at such points. Besides the almost entire absence of de-mand at the seaboard for wheat on for-eign account, the trade at Chicago was also small, and total transactions 35,000 bushels, with 5,000 bushels to exporters. These conditions favor the bears and when the promising crop in the winter wheat belt is considered, the shorts cer-ulary have smooth sailing ahead of them. Cash corn was unchanged to 'ye higher. From reports received from Montana yesterday the farmers of that state have already commenced to disk for this year's crop of spiring wheat, and the sender of this message says that the ground in many sections of three spring wheat states is mellowing rapidly and that the present prospects are for the earliest seed-ing ever known in that county. Those present prospects are for the earliest seed-ing ever known in that country. Those on the bear side of the market at Minnea-polis and Duluth claim there will be a much larger area seeded to wheat than last year and that flax acreage will be re-reduced.

Cash wheat was unchanged.

Liquidation was unchanged. Liquidation was popular in the provision market. The longs were willing to dispose of at least a part of their lines on the early upturn, which was brought about by strength in the hog market at Chicago as a result of the smaller run of hogs throughout the country. Cash outs were unchanged

Cash oats were unchanged. Clearances of wheat and flour were 374,-600 bushels; corn, 2,000 bushels; oats, 21,-900 hushels. At Liverpool wheat closed %@%d lower; corn, %d lower.

At home chief importance was attached to United States Steel's monthly report of untilled orders, giving an increased ton-nage of 412,00. This was fully up to the most optimistic predictions. Another con-tributing influence was the success of the bond offering of Third Avenue railroad, which was fargely over subscribed. After a strong opening the upturn was checked temporarily by renewed attacks on Cheaspeake & Ohio and Lehigh & Valley which for a time proved sensitive to pressure. Chesapeake & Ohio dropped to 50%, the lowest since 1908. A few other stocks sold off, but the general market held firm, and presently resumed its ad-vance. The strong undertone caused the shorts to retreat and covering was an important factor in the day's movement. Pitteburgh coal issues gained growing an increase of 5729,000 in net earnings. United States Express continued its spec-tactuar advance, rising to S. It sold at 54 a fortnight ago.

BETTER FEELING IS PREVAILING After Strong Opening, Upturn in Checked Temporarily by Renewed Attacks on C. & O. and NEW YORK. March 10,-Sentiment was more cheerful today and the stock market made a good showing, although the im-provement was slow. Both at home and abroad a better feeling prevailed. The London market was slimulated by the more hopeful vie wof the Unster question and prices of merican stocks there were bid up before the opening of this market. Ruropean liquidation here also abated, and London came into the market for stocks. About 15,000 shares were taken for foreign account.

The importance of the fear of invasion was shown in the fact that bodies of men were armed in fear of invaders, and in that status, looked about for a foe to conquer, even-tually inflicting their armed strength on the manors of the feudal lords, when the task of destroying the feudal lords are at the received consisted of beer steers.
