Activity of Bears Advances the Price of Cash Wheat.

CORN ADVANCES WITH OATS Speculators Who Are Long on Market Believe Advances Will Hold

Because of Small Stocks

Left on Hand.

OMAHA, March 11, 1914.

There are many bears in the wheat market at Chicago who are of the opinion There are many bears in the wheat market at Chicago who are of the opinion that when prices are weak and declining the matter of a reaction and advance is out of the question. Traders of that stripe were in complete control of the situation during yesterday morning and they sold wheat to a standstill, never dreaming that they would be forced to reckon with the buils before the close of the day. The hour of reckoning arrived, however, toward the close of the session, and the shorts were falling over earn other in an endeavor to regain the wheat thrown into the pit during the morning. In addition to an oversold situation, there were messages from Johnson county, Kansas, which is in the castern portion of that state, saying that the soft wheat plant there is dead—frozen out—and that the reports come from growers and are generally credited. Kansas City bought some wheat here yesterday which was believed to be a reflection of belief in the southwest of probable crop deterioration.

FLUCTUATIONS ARE IRREGULAR

Attempts at Outset to Extend Rise

NEW YORK, March 11.-The strong otte of the preceding session was lacking in the stock market today and fluctua-lons were irregular. Attempts at the out-et to extend the rise were checked by arge selling of American Sugar and the Sugar fell to the lowest point since 1907.
Reading, New Haven and New York Central developed heaviness. The whole list softened.
Pressure diminished in the latter part

65c; Michigan, Minnesota and Wisconsin

Pressure diminished in the latter part of the day and among the industrials there were numerous points of strength. Railroad shares, however, exhibited further weakness. Book leland common at \$\frac{1}{2}\text{ and the preferred at \$7\frac{1}{2}\text{ and the collaterals at \$6\$ touched new low records. Western Pacific 5s dropped \$6\$ points to a low record at \$5\$.

The improvement among the industrials was helped on by good reports from the iron and steel trade. Low priced copper shares were bought on indications of an increased demand for the metal.

Steels annual report showed an increased of \$1,238,000 in gross profits. Sloss-Sheffield's yearly statement gave a gain in net of \$143,000. The weekly reviews of trade authorities, however, said that current business in finished steel was slow. American Sugar's recent decline was explained by the sharp decrease in earnings shown in the annual report. Gross profits for 1613 were \$3,300,000 under the preceding year. Gossip of a possible cut in New York Central's dividend rate at this time was ended by the declaration of the regular dividend, on which the stock rallied sharply after an early slump London cables reported a cheerful feeling in the English market. Bonds were irregular. Total sales. \$2,00,000. United States 2s, registered, declined 4s on call. Number of sales and leading quotations on stocks were as follows:

the single exception of three weeks ago. As compared with a year ago the receipts for the three days are a few hundred fair head smaller.

Beef steers were in good demand this morning and the murket around 10c higher than yesterday so far as better grades of cattle at least were concerned. The trade was fairly active and the big list bulk of all the cattle changed hands in good season. As high as \$8.50 was paid for choice fat yearlings.

Cows and helfers also were more active than yesterday and strong to 10c higher.

Cows and helfers also were more active than yesterday and strong to 10c higher. As was the case with beef steers the bulk of the offerings changed hands early in the morning. Veal calves have been slumping this week, being now fully 50c lower than last week's close.

Stock cattle and feeders were in good demand and sold at firm prices. Stockers were especially strong.

The market on beef steers closed slow with all the advance of the morning lost. Cows and helfers also closed slow and easier, but practically all the early arrivals had been disposed of before the market broke.

HOGIS—Receipts were very liberal again this morning, something like 202 cars, or 14,000 head being reported in. For the three days the run totals in the neighborhood of 20,505 head, being slightly larger than last week, but almost 2,000 smaller than for the same days last year. Considering the fact that other markets were reported weak, the local trade opened in fairly satisfactory shape. Shipperra and speculators bought freely from the start, at prices that were very nearly steady. Packers early bids looked to be be lower, but hardly amything was nearly steady. Packers' early bids looked to be 5c lower, but hardly anything was sold on this basis, and prices soon strengthened up, so that by the time the bulk of the supply started to move prices were no more than a shade lower. That is, sales ranged from steady to 5c lower, but the average looked just a shade lower than yesterday. During the early rounds trade was rather slow, but as the average looked just a shade lower than yesterday. During the early rounds trade was rather slow, but as the morning advanced competition became keen and the market closed active and strong at the early prices. at the earluy prices, Representative sal 5h.

SHEEP—An average run of sheep and lambs found a good outlet at prices fully steady on the best grades of lambs, steady to easier on the medium kinds and steady to strong on anything in the line of aged sheep. Early messages from other markets indicated slow trade, with a weak tendency to prices. While the packers apparently needed some good killing lambs this morning weighing from seventy to eighty pounds, any lambs over that weight were slow to move and in some cases were a drag on the market. The medium grades were reported as sluggish on most all markets. The better feeling in aged sheep was due mainly to the limited supply on hand, consequently what ewes, wethers and yearlings were on hand were soon disposed of on the basis as already noted.

Fed western lambs constituted by far the buik of the receipts and sold largely at a range of \$7.20\$7.75. The better kinds moved from \$4.50\$7.75, and the inbetween kinds anywhere from \$7.20\$7.46. Mexican lambs fed in Nebraska sold around \$7.50\$7.76, the latter figure being top for the day and identical with yesterday's high price.
