The men will send in their Spring suits for altering, repairing, cleaning and pressing; their silk cravats for a cleaning and their last year's straw and soft hats for a complete reblocking and cleaning. Not to forget the hundreds upon hundreds of rugs, blankets, comforters, etc., that will be handled in the Dresher department devoted to that purpose. Better get in line. It's time for a Spring cleaning NOW! Dreshers pay express one way on out-of-town orders of \$3 or over, or will send a man to your residence in a few minutes if you live in the city. Nebraska EPPERSON HAS SUGGESTION

Both Committees Will Meet in Lincoln March 30. SUBMITS PLAN FOR SELECTION Proposes Rate for Choice of Congressional and Legislative District Committees to Be Discussed During Session.

(From a Staff Correspondent.) LINCOLN, March 14.—(Special.)—The committees of both factions of the republican party have been called to meet in Lincoln on Monday, March 30, at 1 o'clock at the Lindell hotel. The meeting will be a union affair and covering the matters to be discussed Chairman Epperson has instructed the secretary to notify members of the committee as follows: Because our statutes provide that the state committee shall choose the manner of selecting congressional and legislative district committees, and as the committee never has adopted any rules for such selections, I submit the following amendments to be considered at the next meeting of the committee: RULE VIII. Section 1. Republican congressional district committees shall consist of members chosen by the different county delegate conventions, bi-annually, in numbers equal to one committee man for each 1,000 votes cast at the last preceding election for the republican candidate for United States representative in congress. The chairman of said committee may be chosen by the candidate nominated at the primary election, subject to confirmation by the committee. The first meeting of the committee organized under this rule shall be called by the candidate nominated in 1914. Provided that each county shall have at least one committee man. Sec. 2. Legislative district committee in districts consisting of but one county shall consist of the county committee, respectively. In districts consisting of two or more counties such committees shall consist of members elected by the county delegate conventions, five from each county, and in addition thereto one committee man for each 500 votes or majority fraction thereof, cast for the republican candidate for governor at the last preceding election. The chairman of each committee in districts of more than one county shall be nominated by the candidates or candidates and elected by the committee. The first meeting of such committee to be called by the candidate or candidates. If two districts, a senatorial representative are co-extensive, one committee shall be elected for both districts. Sec. 3. If the county convention neglects to name such committee men bi-annually the same shall be named by the county central committee. Sec. 4. The state committee shall be the United States senatorial district committee.

FARMING WITH BRAINS PAYS SCOTTS BLUFF MAN

SCOTT'S BLUFF, Neb., March 14.—(Special.)—F. F. Everett, living two miles east of this city, had his potatoes hauled out just as they were starting to bloom. He "thought" by breaking off the bruised and battered vines whatever strength the plants might have would go to producing tubers instead of sustaining worthless, crippled tops. He plowed the tops under, using a common cultivator, then with a hayrake broke off the ragged vines, the dirt holding down the ends. The stubs left, two to six inches high, took on new foliage and he raised 300 bushels of good potatoes per acre, while his neighbor, who let his go when the hailstorm passed, raised none. The salvage proved a good average crop, just because the man used his brains and a little industry.

News Notes of Ord.

ORD, Neb., March 14.—(Special.)—Last year's program of holding one caucus to nominate a citizens' ticket was pursued again this year and a complete ticket was named last night. Mayor J. C. Work was re-nominated, Irl D. Tolen was named for treasurer, M. C. Stacy for clerk, H. Gudmundsen for police magistrate, and L. D. Milliken for city engineer. Horace M. Davis and Dr. G. W. Taylor were named for three-year terms on the school board. I. Q. Bammer was re-nominated for councilman from the First ward, S. F. Dworkan from the Second ward, and J. C. Hoffman from the Third ward. A. J. Firkins was nominated to succeed himself as a member of the park board. Of greater interest to the townpeople than the regular spring election is the special bond election that has been called for Tuesday, April 14. The citizens will be called upon to express themselves on the question of issuing \$18,000 bonds for water works extension, \$6,000 for an electric plant in connection with the city pumping station and \$7,000 for a new city hall. At the regular spring election the question of issuing saloon licenses will be submitted in accordance with the Lever-Stebbins bill. Pool hall licensing will also be submitted and money base ball will be tried out. Last year the voters expressed themselves against saloon licenses, but were favorable to Sunday ball playing. Ord has been "dry" for two consecutive years.

Buffalo Bill Comes to Open Pictures of Indian Fights

Colonel W. F. Cody, the original Buffalo Bill hasn't forgotten that he was once a boy himself, and he knows just how interested the youngsters are in Indians and the lore of the old wild west. That is why, when he comes to Omaha this week with his moving pictures of Indian battles, Colonel Cody will entertain a host of newboys at the American theater Tuesday night. On Monday evening a number of army officers here and city officials will be the guests of Colonel Cody at the opening performance. One of the features of the moving pictures of Indian battles is the address given by Colonel Cody at the opening of the performance. Following the pictures Buffalo Bill, in his war regalia, suddenly appears on the stage, mounted on his old charger, "Isaham," appearing just as though he had returned from the battle which is shown in the pictures. Colonel Cody is more than myth to Nebraska people, for he is most closely identified with the troublesome days when the depredations of the Indians through the plains country was checked in the Cornhusker state by the veteran warrior, and his band of scouts.

State Officials Willing to Get in Limelight Long Enough for the Camera Man to "Shoot" Them.

(From a Staff Correspondent.) LINCOLN, March 14.—(Special.)—The woman suffragists of Nebraska this morning filed with the secretary of state a monster petition containing 42,523 names asking that the proposition of giving women the ballot be presented to the voters at the coming convention. Filing the petition was carried out with considerable ceremony, the women marching to the state house, where they posed before the motion picture camera on the outside and then, with the wheels still going around, they marched inside and presented the petitions to the secretary of state, who with Governor Morehead stood in the office of the former waiting to receive them. Mrs. Draper Smith of Omaha president of the organization made a short speech, in which she reviewed the work of getting the names on the petition, which was all done by women without a cent of expense. The large tin box containing the petitions was brought in by Mrs. Hardy and Mrs. Barkley of Lincoln and deposited on the table in the private office of Secretary of State Wait, and the act of receiving and opening the same was gone through under the eye of the motion picture machine. York county had the honor of being the county taken from the box in the process of getting in the movies. Douglas Has Most Names. The county containing the largest number of names is Douglas, with 11,306, or about 40 per cent of the voting population. Lancaster county stood second with 6,221, about 44 per cent of its vote. Brown county had 29 per cent of its vote. According to Mrs. Smith the petition is the largest ever presented to the state asking for a referendum vote, being 4,500 more names than is required.

Body of Nebraska Pioneer Brought Home for Burial

TECUMSEH, Neb., March 14.—(Special.)—The body of John Pettinger, a Nebraska pioneer, who died in Morris, Okl., was brought here for burial. Three sons, J. M. Pettinger, John Pettinger, Jr., and N. S. Pettinger, accompanied the body to Tecumseh, reaching here Thursday afternoon. The funeral was at St. Andrew's Catholic church, of which deceased had long been a member, Friday morning at 10 o'clock and was conducted by Rev. Thomas Harden. John Pettinger was born in Plaxweller, Luxembourg, Belgium, eighty-four years ago. His final sickness was of but a few days' duration, though he had been in failing health for several months. At the age of 24 years Mr. Pettinger came to the United States, locating at Mineral Point, Wis., where he remained for about three years. He then came to Nebraska and located in Pawnee county, near Steinauer. This was before the passage of the homestead law. Upon the acceptance of that measure Mr. Pettinger was one of the first to secure a Nebraska claim, for, after being in line at the old land office in Brownsville the most of one day and all of one night, he secured claim No. 2. He proved up on this property, which was in Pawnee county. He secured this claim in 1856. Mr. Pettinger was married to Miss Helen Hemming of Pawnee county in Nebraska City, September 23, 1862. Eleven children were born to this union, three dying in infancy. The family came to Johnson county in 1865 and located on a farm five miles northwest of town. Mr. Pettinger died here January 2, 1901. In 1906 the family moved to Oklahoma.

MR. P. NAUSCHUETZ

Peruna the Best Remedy I Ever Found for Coughs and Colds.

Mr. P. Nauschuetz, No. 221 Shaver St., San Antonio, Texas, writes: "About a year ago I was troubled with catarrh and could hardly find help until I took Peruna, which soon brought me relief. 'Peruna is the best remedy for colds I ever found. I recommend it to any one suffering with catarrh.' The first thing to accomplish in the treatment of a cold is to eliminate the accumulated poisons in the system. The excretory ducts and glands should be stimulated. This the laxative element of Peruna will accomplish. The next thing is to raise the tone of the nerve centers, and assist the powers of Nature to resist the effects of the cold. The tonic element in Peruna is intended to meet this demand. It gives the necessary temporary strength to throw off the depression that the cold brings. A tonic laxative is a quick and efficient weapon to meet a cold at all points.
