INHERITANCE TAX ON BILLION

New York State Controller's Office is Busy Place.

TWELVE MILLIONS COLLECTED

Amount on Estates of Rich Men Who Died Within Last Few Months Will Be as Much More.

NEW YORK, March 1.—With the death last week of George W. Vanderbilt, George Westinghouse and John Cadwalader, officials in the state controller's office in this city, today began a tabulation of the wealth left by the large number of prominent New York men who have died since January 1, 1912.

The state controller at Albany reports that for the year ending last September the total amount of revenue collected by the state from the inheritance tax amounted to \$12,742,336.86.

Never before in the history of this country, it is said, have so many men of wealth and power died in such a short period. Included in the list are such names as J. P. Morgan, Anthony N. Brady, Benjamin Altman, Charles E. Appleby, George A. Hearn, Henry M. Flagler and Isaac V. Brokaw.

The tax on the Brady estate, paid recently in advance on appraisal in order to get a discount on the regular percentage, was \$2,251,000, which is on an estimated valuation of \$75,000,000.

The Morgan estate has paid an advance tax of \$2,500,000 on an estimated total valuation of \$60,000,000, exclusive of works of art, which have been valued at more than \$20,000,000.

George W. Vanderbilt is supposed to have left \$50,000,000. Attorneys for the estate are working on an estimate of the fortune to be made to the state controller.

The largest inheritance tax which has been paid since the enactment of the law was that of \$1,100,000 on the \$7,000,000 estate of the late Colonel John Jacob Astor. Previous to that the estate of John S. Kennedy, valued at \$67,000,000, held the record.

Benjamin Altman, George A. Hearn, Isaac V. Brokaw and Isidor Straus, great merchants, are some of the men whose estates are now being adjusted by the state controller.

Dr. Gobat, Peace Advocate, Drops Dead at Meeting

BERNE, Switzerland, March 16.—Dr. Charles Albert Gobat, who in 1902 divided the Nobel peace prize with E. Doccommun, another Swiss, died of apoplexy here today while presiding over a peace conference.

Born in 1842, Dr. Gobat studied law and afterwards turned to politics, becoming a member of the National council. He was devoted himself to the cause of international peace. In October, 1904, he sent a formal request to the United States to intervene in the Russo-Japanese war. In 1911 he brought about a sharp controversy by his criticism at the International Peace congress of Germany's attitude in Morocco.

For some time Dr. Gobat was director of the department of public instruction of Switzerland.

PIRATES LOOT NORWEGIAN STEAMER OFF HONG KONG

HONG KONG, March 15.—Pirates today boarded and looted the Norwegian steamer Chidlar off this port, carrying off booty to the value of \$30,000 after overpowering, binding and gagging the six Europeans on board. The steamer was carrying fifty native passengers, and, as it was lying outside, the armed desperadoes sprang over the bulwarks, seized the officers and began their search for loot. The interior of the vessel was badly damaged by the band before they disappeared over the sides and escaped up the river in junks. The pirates wore uniforms of white cotton as badges, something like those carried by the revolutionaries in the recent rebellion. FLEE BEFORE NORTH WIND

Kelley's Army Disintegrates When Chilly Blast Strikes It.

HUNGER ALSO IS A FEATURE

Fewer Than Three Hundred Remain in Camp on Yolo River Just Across from City of Sacramento.

SACRAMENTO, Cal., March 15.—A strong north wind last night did more to solve the problem presented by "General" Kelley's army of unemployed than any human agency has yet been able to accomplish.

Camped on the Yolo levee across the Sacramento river from this city with no protection from the wind-driven sands, the army disintegrated rapidly during the night and it was estimated today that not more than 300 remained of the 1,500 that came to Sacramento a week ago.

Hunger also had much to do with the desertion. Now that the novelty of the army's presence has worn off, food contributions have almost ceased and the men are hungry. It is believed the march to Washington will be abandoned and that the remainder of the army will scatter in various directions.

A hunger strike was threatened by the army today. A few loaves of bread was all the food sent across the river up to noon and the more determined among the men said they would starve until they had to be taken to hospital.

Meat Cause of Kidney Trouble

Take Salts to flush Kidneys if Back Hurts or Bladder bothers.

If you must have your meat every day, eat it, but flush your kidneys with salts occasionally, says a noted authority who tells us that meat fosters uric acid, which almost paralyzes the kidneys in their efforts to expel it from the blood. They become sluggish and weaker, then you suffer with a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sour, tongue is coated and when the weather is bad you have rheumatic twinges. The urine gets cloudy, full of sediment, the channels often get sore and irritated, obliging you to seek relief two or three times during the night.

To neutralize these irritating acids, to cleanse the kidneys and flush out the body's urinous waste get four ounces of Jad Salts from any pharmacy here; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with bicarbonate and has been used for generations to flush and stimulate sluggish kidneys, also to neutralize the acids in urine, so it no longer irritates, thus ending bladder weakness. Jad Salts is inexpensive; cannot injure, and makes a delightful effervescent lithia-water drink.—Advertisement.

Editor of Figaro Shot by Woman

PARIS, March 16.—Gaston Calmette, editor of Figaro, was shot and severely wounded today while in the office of the Figaro, by Madame Callaux, wife of Joseph Callaux, French minister of finance. The reason for the crime is said to be anger against M. Calmette, who had been waging a campaign characterized with great bitterness and animosity against the minister of finance.

Early in January M. Calmette accused M. Callaux of attempting to extort money from various persons for electoral purposes and the incident gave rise to a heated debate, in which the charges were categorically denied by M. Callaux, but the editor of the Figaro persisted in his assertion.

At the time of the shooting M. Calmette was preparing to leave the office when Madame Callaux entered, bent on seeing the editor. On finding M. Calmette she advanced toward him and, without uttering a word, drew a revolver and fired several shots, one of which lodged in M. Calmette's chest. He fell groaning to the ground.

Taft Will Spend a Week in Twin Cities

MINNEAPOLIS, Minn., March 15.—Five days of activities were begun here by former President Taft on his arrival this morning. The former president was welcomed by a committee on his arrival and escorted to a private breakfast, attended by a number of professional and business men. At noon he was the guest of the University club.

This afternoon he attended the funeral of Charles A. Willard, who died Friday night. Mr. Taft and Judge Willard were warm personal friends, having served together in the Philippines, the former as governor-general and the latter as justice of the islands' supreme court.

Doctor Knocks Down Suffragette Who Hit Him With Whip

GLASGOW, Scotland, March 16.—Dr. James Devon, prison commissioner for Scotland, when attacked today by an irate militant suffragette armed with a dog whip, took the law in his own hands and knocked his assailant down with a well aimed left-hand blow.

The woman, whose identity was not learned, met the prison commissioner at the entrance to the Duke street prison and belabored him over the head and shoulders with her whip.

Mr. Devon, who is an advocate of forcible feeding and is bitterly opposed to what he considers the farcical release of suffragettes because they are suffering from the effects of "hunger strikes," promptly knocked her down. The woman was picked up by a policeman and placed under arrest, but Dr. Devon refused to prosecute her and she was released.
