The prodigal spirit has imbued American cities with a contempt for thrift, according to a statement of the American Society for Thrift at Chicago last night, in which the society announced its failure to induce municipalities to compete for honors as the thriftiest city in the United States.

Colonel John A. Hall, who has been the commanding officer of the military in the coal strike zone of Vancouver island since the riots of last August, has resigned because of differences with officials of the governments at Victoria and Ottawa. His resignation was accepted by Colonel Sam Hughes, minister of militia, at Vancouver. When Colonel Hall took the field last August he made a display of military authority that the civil officials considered excessive.

INDIAN BATTLES DEPICTED

Colonel Cody Personally Presents Famous Indian War Pictures.

MOVIES ARE MOST REALISTIC

Battles of Wounded Knee, War Bonnet Creek and Several Indian Uprisings Shown at American Theater.

With Buffalo Bill, to lend a touch of realism, six reels of moving pictures of battles between Indians, frontiersmen and soldiers, and Indian uprising, and rebellions were displayed for the first time at the American theater last night before a gathering which applauded at frequent intervals whenever the flag of the United States triumphed over the devastating redmen.

The representation of the battle of Wounded Knee was the feature picture of the series. Troops were leaned by the government for the occasion as were Indians from the reservation.

The battle of Wounded Knee, fought on December 30, 1890, was unexpectedly provoked by one recalcitrant Indian, and was turned into conclusive victory by the employment of a Hotchkiss gun, which, under the command of Lieutenant Hawthorne, swept the ravine in which the redskins had been driven and wiped out Big Foot's band, men, women and children. The scene of that battle is remarkable. It is reproduced with much attention to detail, and makes a great display of the events of that day.

In the reel which shows the battle of War Bonnet Creek, Buffalo Bill is shown in his hand-to-hand conflict with Yellow Hand, the adjutant of Chief Red Cloud. Buffalo Bill is also shown acting as scout at the battle of Summit Springs.

The final film demonstrates the progress of the government with the Indians today. It shows the schools and the boys and girls learning wholesome arts and sciences to prepare themselves for the struggle for existence.

Buffalo Bill made a little speech to the audience before the battle scenes were thrown upon the screen and he expressed regret that his old pal Jim Dahlman was not at hand. Mayor Dahlman supposed to be on hand early to introduce Colonel Cody to the audience. Whereupon the mayor hopped up from his box seat much to the surprise of Buffalo Bill, who had not seen the executive enter and gave the old scout a welcome. "Ladies and—gentlemen," said the mayor, "this is Jim Dahlman introducing to you Bill Cody, the man who has been my constant pal for thirty-five years."

Many were turned away because of the lack of room to accommodate the opening night crowd. The pictures will be shown during the remainder of the week, both afternoon and evening.

SERVANT PROBLEM AND FRENCH REVOLUTION

"The servant problem today is largely due to the fact that the outward signs of lowly position still adhere, although the occupation itself has been raised to a standard satisfactory to most of those who engage in it," said Prof. F. M. Fling at the high school yesterday afternoon in the course of his lecture on a phase of the French Revolution.

"Many servants, really well situated and quite happy," he continued "are nevertheless dissatisfied that the term 'servant' should be applied to them. Other working girls whose labor is just as hard and poorly paid for, are happier because they are not classed as 'servants.'"

The professor used the servant girl idea in his lecture as an illustration of his statement that the revolutionary troubles which finally caused Louis XVI to forsake his throne and seek the tail timber, had continued after the revolution was really won, simply because some of the outward signs of the nobility still remained to inflame the people, after they had won what they fought for.

"The papacy declared against ' the French revolution and the republican tendencies of the revolutionists," said Prof. Fling, "and the papacy is still opposed to such movements today. It must be distinguished from the rank and file of the Catholic church, however. Catholics generally are not in sympathy with the pope so far as he opposes republican ideas and favors that of monarchy."

How to Make the Best Cough Remedy at Home

A Family Supply at Small Cost, and Fully Guaranteed.

Make a plain syrup by mixing one pint of granulated sugar and ½ pint of warm water and stir for 2 minutes. Put 2½ ounces of pure Pinex (fifty cents' worth) in a pint bottle, and fill it up with the Sugar Syrup. This gives you a family supply of the best cough syrup at a saving of $2. It never spoils. Take a teaspoonful every one, two or three hours.

The effectiveness of this simple remedy is surprising. It seems to take hold almost instantly, and will usually conquer an ordinary cough in 24 hours. It tones up the jaded appetite and its just laxative enough to be helpful in a cough, and has a pleasing taste. Also excellent for bronchial trouble, bronchial asthma, whooping cough and spasmodic croup.

This method of making cough remedy with Pinex and Sugar Syrup (or strained honey) is now used in more homes than any other cough syrup. This explains why it is often imitated, though never successfully. If you try it, use only genuine Pinex, which is a most valuable concentrated compound of Norway white pine extract, and is rich in guaiacol and other natural healing pine elements. Other preparations will not work in this combination.

A guaranty of absolute satisfaction, or money promptly refunded, goes with this preparation. Your druggist has Pinex, or will get it for you. If not, send to The Pinex Co., Ft. Wayne, Ind.

ACTIVITIES OF WOMAN'S CLUB

Many Demands Are Made Upon the Omaha Organization.

ELECTION OF OFFICERS SOON

George T. Morton, President of Civic League, and General Frederick A. Smith Speak on Value of City Planning.

Members of the Omaha Woman's club are torn between matters of club importance. Immediate action on the club rooms proposition is necessary, as the lease on their present quarters expires with the current year; then, election day looms into the near future, while the club's activities in connection with the Low-Cost-of-Living show are being urged strenuously.

A special meeting is called for Wednesday morning, March 25, at 10:30 to take action on the report of Mrs. L. J. Healey, chairman of the house committee. The First Congregational church, fourth floor of Hayden Bros.' store and the present rooms in the Metropolitan club are under consideration.

Election of officers for the coming year will take place April 13 and a nominating committee consisting of the chairmen of the standing committees was named to prepare the tickets. The committee will report at the next meeting.

A recommendation that the Board of Education be asked to observe May 18 in the public schools as "Peace day" was carried.

Following the business meeting an open program on "City Planning" was presented by the civic department, Mrs. F. S. King presiding. General Frederick A. Smith, retired, formerly commander of the Department of the Missouri, and George T. Morton, president of the Civic league were the speakers.

Mr. Morton briefly outlined the history, purposes and accomplishments of the Civic league and spoke of the immense saving to a city that intelligent city planning would mean. "Each year 500 acres in the city of Omaha are platted, hitherto most arbitrarily, without regard to location, surroundings or benefits to be derived. Our work is to prevent more mistakes being made, especially in the development of outlying districts. The public must be brought to realize that it is just as important and necessary that a city be well planned as it is necessary that the same be true of a home or dwelling place."

General Smith spoke of the awakening of civic consciousness in European and some American cities and suggested that Omaha might well follow the precedent. "In planning a city, the requirements of health, love of nature, possibilities of art, conservation of natural resources, conformity to topography, establishment of individuality and duty to present and future generations are among the things to be considered," he said. "Park systems are to be outlined, railroad crossings, wires and poles eliminated, public buildings grouped, the smoke nuisance abated, water supply and sewerage systems determined, paving work made adequate and outlying districts molded and filled for their particular use. This is to be done not for the purpose of improving property, but for the betterment of human life, to better social and industrial conditions and as part of our civic duty to contribute to tomorrow's efficiency."

Announcement was made of the "Mothers and Daughters Day," which will be observed by the current topics department March 24, and of the musical department's program on Omaha composers which will be presented April 9.
