## HOLDING REUNION Family Cat Blown Away from Owner is Welcomed Back

"Tibbie." a striped Maltese cat belongng to the young son of Mr. and Mrs. W. J. Wylle, 1817 North Thirty-third street, was blown away in the tornado last Easter, but has returned home, a little less than a year after the storm which visited Omaha. "Tibble," besides being the family pet, is just a few days older than Walter, the 6-year-old son of Mr. and Mrs. Wylle, and the little fellow mourned the loss of the cat for many months.

The proverbial "nine lives" of the cat. however, served to care for the feline during the tornado, and though the Wylle family had mourned Tibbie as dead, the cat majestically walked up to the front door the other day and mewed for admission. "Tibbie" was greeted with shouts of delight by little Walter and welcomed back with open arms, in spite of the fact that his Maltese coat was ragged and ruffled, from months of wan-

Little Walter, though uninjured in the storm last Easter Sunday, has had more than his share of misfortune as a result of the fernado. Not only did his pet, the faithful "Tibbie" disappear, but the little lad had the misfortune to fall into the cellar of a house next door which was wrecked by the storm, and his head was severely bruised. However, with the wounds healed, and his pet, Tibbie, home once more, it will be a happy anniversary for one little boy in Omaha next Monday.

"Why don't they take the whole street?" asked another.

"This makes this the most dangerous orner in town," said a policeman. The fence encloses twenty feet of the street space, in addition to the twenty foot sidewalk space, and forces all the No Heavy Freight street traffic both ways on the other side

For the contractors, it is explained, that ther new buildings have used the same amount of street space, and that the city ordnance permits it. The work of wracking the old bank building was begun Monday by the Gross Wrecking company, which has the job.

#### SMOKERS DO NOT ASK FOR NEBRASKA MADE CIGARS

That the elgar manufacturing industry is falling off in Nebraska is indicated by figures made public by Internal Revenue Collector Ross Hammond. According to Secretary Frank I. Ringer of the Nebranks Retailers' association, who discussed the matter in a recent speech, the trouble is due to the fact that Nebraska smokers do not patronise home industry the way they should.

After having an annual output of about 28,000,000 cigars for the last six or eight years, Nebraska cigar factories in 1913 dropped almost 2,000,000 in their production, according to revenue figures. Secretary Ringer declares that smokers who do not specify Nebraska-made perfectos are deliberately letting thousands of dollars go out of the state never to return, and they fall to get better goods,

# As to Crooked Lawyers

Off Color Lawyers Undesirable,

St Paul Phonograph: Omaha Bee charged some of the Douglas county attorneys with being off color, They have been after the "shady" gentlement of the Douglas county bar for some time, and The Bee can now take comfort from the fact that the grand jury has indicted a number of attorneys. When members of an honored profession turn blackmailers or aid in such nefarious work as rob widows and orphans under the guise of advising them financially, it is about time for some housecleaning, and if the bar will not do it the grand jury should.
