POSTMASTER WHARTON

Early to work and often to gym Gives the postmaster vigor and vim." Acting on this poetle (7) Inspiration Postmaster John C. Wharton walks down to work every morning and shows up at the postoffice almost before the doors are open for business. Seven o'clock is his usual hour for arriving at his office. Every other day at noon he goes to the Young Men's Christian association gymnasium, plays hand ball and takes a cold plunge in the swimming pool. When mentioning the name of the association. he always puts emphasis on the word 'young." "He says that exercise and health are the keys to happiness and success.

Governor Will Attend Irrigation

DENVER, Colo., March 34 - Announce net increase of but \$362,000,000 in ment of a tentative program for the ir- stuffs and raw materials exported, comrigation conference, called by Secretary pared with an increase of \$534,000,000 in of the Interior Lane for April 9 in Denver, was made today. The chief object 2,503 of the conference is to devise a basis for federal and state co-operation that will put irrigation development in the west on a business footing, which in turn will attract funds from money centers to carry through these projects and eventually bring settlers to the lands reclaimed. The topics suggested for discussion follow:

Co-operation between state and nation. Cary act projects. Irrigation districts. Administration and operation of the Settlement of irrigation lands, crops, markets, finances. Ways and means of financing future 2365 work.
To insure a thorough discussion of these and other phases of irrigation, it is proposed to divide the conference into soc-

> The sessions will open in the state cap itol, Thursday, April 9, and probably will continue through Friday and Saturday The conference will be open to any person interested in the general subjects to be discussed and will be attended by governors present at the conference of western governors, to be held here April 7 and 8. In the event Secretary Lane is unable to attend he will be represented by Andreas A. Jones, first assistant secretary of the interior. Other department officials who will attend include: Frederick H. Newell, director of the reclamation service; Clay Talman, commission of the general land office; J. D. Yalverton, chief of the field service of the general land office; F. R. Dudley, chief of the right-of-way service of the

mation service bureau the following: Arthur P. Davis, chief engineer; I. D. O'Donnell, supervisor of irrigation; Will R. King, chief consul.

FOND OF GYMNASIUM Foreign Commerce of the United States Makes New Record

WASHINGTON, D. C., March 24 .- Ac- been \$420,000,000, and in manufactures exording to the Department of Commerce, the foreign commerce of the United States made its highest record in the fiscal year 1913. Imports, both free and dutiable, were larger than ever before, and exports, both domestic and foreign, were also the largest on record. Imports were \$1,813,000,000, against 1,664,000,000 in the fiscal year 1912, and exports were 2,466,000,000, against 2,204,000,000 in 1912. The changing character of our foreign

mmerce is illustrated by a comparison of the figures of 1913 with those of earlier years. Imports show in recent years a more rapid gain than exports. While imports increased but 27 per cent in the twenty-year period from 1880 to 1900, they increased 113 per cent in the shorter period from 1900 to 1913. On the other hand, exports, which increased 67 per cent in the twenty-year period from 1880 to 1900, gained only 77 per cent in the period from 1900 to 1913. Imports formed in 1900, 37.8 per cent, and in 1913, ing for the match every day and will 42.4 per cent of the total foreign commerce. Foodstuffs imported in 1900 aggregated \$261,000,000 and in 1913 \$406,000,000; manufacturers' raw materials imported increased during the same time from \$276,000,000 to \$535,000,000, an increase of \$534,000,000 in the value of foodstuffs and raw materials imported during this period. On the other hand, foodstuffs ex-Meeting in Denver ported during the period under consideratice show a decline of \$44,000,000 and raw materials an increase of \$406,000,000,

foodstuffs and raw materials imported. In manufacturers, however, the growth in exports has exceeded that in imports. Imports of manufacturers for further use in manufacturing increased from \$134, 000,600 in 1900 to \$349,000,000 in 1913, and finished manufactures from \$308,000,000 in 1900 to \$408,000,000 in 1913; while on the export side manufactures for further in manufacturing increased from \$153,000,000 in 1900 to \$400,000,000 in 1913, and finisherd manufactures from \$332,000,000 to \$778,000,000, an increase in manufacimported during the period having
