Expected Improvement in Conditions Has Not Yet Materialized

REPORTS LACK UNIFORMITY Somewhat Backward Spring Has Militated Against a Normal

Distribution of Merchandter.

NEW YORK, March 3:-Dun's Review will say tomorrow:

Expected improvement in trade conditions has not as yet mazerialized and, while indications of progress are manifest in certain directions, there is still a lack of uniformity in reports from the leading centers. A somewhat backward apring has militated against a normal distribution of seasonable merchandlae. The country's agricultural outlook constitutes a highly important factor, and it is extremely gratifying that prospects for the winter wheat crop leave little to be desired. Similarly cotton is centering upon the new year under favorable auspicas, on the whole and prices of the great southern staple have latterly shown somewhat less firmness.

News from the Iron and steel industry—the foremost business barometer—reflects a waiting attitude upon the part of consumers, and new bookings this month will not equal those of February.

Fallures this week in the United Stales are 342 against 248 the coresponding week last year. Fallures in Canada & against 55 last year.

BRADSTREET'S TRADE REVIEW

BRADSTREET'S TRADE REVIEW

Wholesale Trade, Industry, New Financial Operations Singaish. NEW YORK, March 77.-Bradstreet's tomorrow will say:

Retail trade expands, bright, warm weather prevails, and jobbers feel some this in reorders for the late spring season: but wholesale trade, industry and new financial operations go forward haitingly. Distant buying is held in check by conservatism, producers of steel, need orders to maintain operations, financial interests proceed cautiously in the matter of new financial, pending the establishment of the regional banking system, poor country roads following the thaw restrict interior movement, industrial lines as a whole are not doing better than fair and while some are working to about fair and while some are working to about full capacity, more of them are operating at only half speed, the whole investing the situation in this respect with a ragged apeparance.
For the week failures 200 against 283 last year: wheat exports 2.780.252 bushels against 207.69; bank clearings 33,1523,-572,000 an increase of 14.5 per cent over last year.

DUN'S REVIEW OF TRADE Cartoons His Way Out of California State Penitentiary

SACRAMENTO, Cat, March 27.-Even Burion Johnson, newspaper cartoonist and writer, well known on both sides of the continent, will be released from Folsom state prison Saturday morning, his sentence of four years having been commated by Governor Hiram Johnson.

Johnson, it is said, literally cartooned his way out of prison. During his incarceration of less than one year he drew at least 200 cartoons trenchantly portraying his views of penal servitude and polities, many of which reached the executive's office. Johnson did not seek publication of any of his humorous or satirical work, but some of the most powerful of his prison sketches and political cartoons have found their way to Governor Johnson's office.

During a visit to the prison Governor Johnson interviewed the cartoonist-convict and was interested enough to order an investigation which led to the commutation of the man's sentence.

Johnson pleaded guilty to cashing a

Tries Out Motorbike; His Skull Fractured, One Dead, One May Die

HAMMOND, Ind., March 21 .- John Cooper, a 20-year-old youth of East Chicago, got a new motorcycle today. The first spin he took resulted in the death of one man, probable fatal injuries to another and serious injury to himself. John Garlo and his neighbor, John Glockski, were returning home from East Chicago after a fruitless search for work. Behind them came Cooper on the new motorcycle. His unfamiliarity with the machine, Cooper asserted, prevented him from slackening his speed and he crashed into the two men. Glockski was instantly killed. Gario suffered broken bones and internal injuries and Cooper's skull was fractused. The machine was wrecked.

The properties, which are scattered throughout the country, are owned jointly by John W. Considine and the estate of Timothy D. Sullivan of New York City. Thirty-seven theaters owned outright by the Sullivan-Considine interests and 100 theaters, which the circuit books and has interests in, were involved in the

Mr. Loew announced he would combine the theaters involved in tonight's deal with the houses he now owns. This will bring the number of theaters new controlled by him up to 200.
