Rebel Loss Heavy. JUARZ, Mex., March 20.—An official message from the front tonight states that fighting is still going on for the posses-

sion of Torreon. The telegram says the rebels now hold all positions except the main barracks and two smaller barracks. In the last twenty-four hours it is reported that

General Villa took Cerro de la Cruz and the Torreon foundry. Another telegram admits a rebel loss in the last six days of 900 killed and wounded, and places the federal loss at 2,000. As there are already at Chihuahua

500 wounded, the report of rebel losses is thought to have been minimized. Among the rebel wounded is General Tomas It is said that private soldiers taken

prisoners are being received into the rebel ranks, but their officers are executed, unless they take the oath of alare executed upon capture.

Fighting Since Friday. The attack on Torreon began last Friday, and up to last night rebel advices, Monclovia Herrera had taken some of the most important points in the city.

There have been no news dispatches dealing with this attack, and the aimilarity of this situation with that at Gomez Palacio is pointed out as significant. When Villa was successful there he permitted the pewspaper men to send their dispatches, but when he was repulsed, as he was twice, press measages auddenly ceased.

In Juarez it was confidently expressed that news of the capture of the city would that the fate of the city was still in the balance today.

344 Woods Ave., Newark, Ohio .- "When our baby boy was one year old he began to get what looked like hives at first mostly on his feet and body. They itched and when he would scratch them or his clothes touched them it made blisters. They broke and would form a deep sore. He fretted and tossed all night. They said it was teething eczema and that it looked hadly enough for small pox. It looked so badly I hated to have anyone see him.

"I got a wash and a salve but it got no better. One day the doctor came in and he said, 'You try Cuticurs Soap and Ointment I bathed him with warm water and put plenty of Cuticura Soap in and dried it the hest I could, then took my finger and put Cuticura Ointment on each place several times a day. I used one cake of Cuticura Soap and two boxes of Cutieura Cintment besides the sample. In a week the blister were dried up and in ten days more he was cured." (Signed) Mrs. A. Breech, Sept. 3, 13.
