#### LOSS OF APPETITE IN THE SPRING

boss of appetite is accompanied by loss of vitality, vigor or tone, which is a more serious loss. It is common in the spring because at this time the blood is impure and impoverished and fails to give the digestive organs what they need for the proper performance of their functions.

Ask your druggist for Hood's Sarsaparilla. It makes the rich red blood your whole system demands. It is not simply a spring medicine-but it is the best spring medicine.
