The buying power was absent, sawe at prices where the buyers were unaile to secure a profit.

A feature of wheat market yesprday was the appearance in the pit of ames A Patten and other big men, wh sold grain personally. A Boston mesange said that exporters report cables as discouraging and that there are re-sellers of wheat abroad at it cheaper than can be made from the eastern seaboard. Cash wheat was 1401c lower.

Corn suffered losses of 140%c, the buying power geting more and more in the wane. The speculators, however, who be lieve in lower prices are cautious about putting out short lines. Trading Thus Far This Year No Heavier Than in 1913, Despite Hopes Earlier In Season. NEW YORK, March 81.—The extent to which the speculative situation is bound up in the freight rates case was indicated by the course of the stock market today. The action of the interstate Commerce commission in expediting the rates case foreshadowed an early decision, and, as the financial community expects that the decision will be favorable to the railroads, the news was construed as distinctly bulkan. The market responded strongly. London Stock Market.

SHEEP—The interest in ewes and lambs was not as great as yesterday, though a fairly liberal supply of each sold generally stendy to a shade higher. As often is the case, packers took the best offerings first, and bought the balance later in the forenoon, the last to sell being heavy and medium grades. While a strong undertone seemed to feature the early market the movement scaleward was rather slow, which may have been due to the wet condition of the fleeces as a result of the rain early this morning. The improvement in values was on the better class of killers and, while prices on the less desirable grades were largely steady, in some instances they had an easier tendency. A clearance took place at a reasonable hour.

Mexican offerings were again scarce, led western lambs moved anywhere from 8.40 to 33.10. with some shorm kinds going. SHEEP-The interest in ewes and lambs
