REGENTS TAKE MIDDLE ROAD Refuse to Adopt the Radical Course Advocated by Professors. FOR SOPHOMORE PLEDGING RULE

Adopt Greek Letter Regulation that Had Been Proposed by the Interfraternity Councils—Salaries the Same.

(From a Staff Correspondent.) LINCOLN, Neb., April 7.—(Special Telegram)—Radical changes in faculty government of departments at the state university were not approved in full this afternoon by the Board of Regents at its regular monthly meeting.

The regents thought the step a little too radical since it might result in the loss of some of the older members of the faculty, who resented the action of the younger members attempting to secure a more representative government. Under the proposed rule, the head professor could be removed by a majority vote of the members of the department.

Under the new rule for faculty representation, the board issued a lengthy statement of official positions and titles of the members of the teaching corps, with no changes in the heads of the departments.

Ask Tax Return. A voucher was filed with the state auditor today by Douglas county, to be presented to the next legislature, for a refund of state taxes erroneously paid into the state treasury by that county on account of the scavenger sales there. The law regarding the matter has been declared illegal by the district court of that county and the legislature will be asked to return the money, which amounts to \$481.10, covering a period of years running from 1865 up to and including 1909. The amounts each year are:

1865.....\$ 302 1898.....\$32.50 1866..... 28 1899..... 30.85 1867..... 28 1900..... 30.85 1868..... 1.53 1901..... 30.04 1869..... 26 1902..... 30.04 1870..... 1.54 1903..... 30.04 1871..... 46.57 1904..... 30.04 1872..... 44.91 1905..... 30.04 1873..... 39.47 1906..... 30.04 1874..... 43.23 1907..... 30.04 1875..... 38.84 1908..... 30.04

Senator Henry H. Bartling will not be a candidate for governor, but will be a candidate for re-nomination non the republican ticket to again represent the second senatorial district, comprising the counties of Otoe and Cass, which he represented in the sessions of 1911 and 1913. Senator Bartling at the last session opposed the removal of the state university from the present location to the state farm. He was also back of the appropriation which was voted for a memorial armory at Nebraska City, his home town. Since that was voted university professors have taken the initiative in the circulation of a petition to recall the appropriation for Senator Bartling's armory, and whether the senator will help the professors to keep their university where they want it remains to be seen.

Another filling also comes from Nebraska City. Joseph C. Burr wants the democratic nomination for float representative from the eighth representative district, composed of the counties of Otoe and Cass, which was represented at the last session by Charles H. Busch, democrat. Mr. Burr is a brick mason and about 35 years of age.

Fight Before Legislature. The state legislature will have another fight on its hands at the next session

The effect of Peruna on digestion is immediate—sometimes wonderful, as in Mrs. Bauer's case. Sharpens appetite, quickens digestion and stimulates the bowels. A most convenient and valuable family medicine. In tablet or liquid form as preferred.

North Platte Against Colorado's Attempt to Control Waters

NORTH PLATTE, Neb., April 7.—(Special.)—The North Platte Chamber of Commerce has gone on record in opposition to the resolution introduced in the United States senate by Mr. Thomas, which says the waters of all streams which have their source in Colorado are the property of the state and gives the state the permission to bring action against those rights. The resolution says: "Be it resolved by the Chamber of Commerce of the city of North Platte, Neb., that we, as a commercial body, interested in the welfare of western Nebraska, and its irrigation interests, are opposed to the senate joint resolution No. 117, introduced by Senator Thomas of Colorado, that we believe the resolution is opposed to the general welfare of the western states, except Colorado alone, that we request that Senators Ch. M. Hitchcock and G. N. Norris and the congressional delegation from Nebraska do all in their power to defeat this resolution, especially that part of the same that attempts to commit the congress of the United States to the Colorado side of this controversy, which is directly contrary to the laws of Riparian Rights on interstate streams as has been heretofore announced by the court."

His wife was at the barn, waiting to help stable the horses, when the riding horse came in. She went into the timber and found her husband. Colonel Maher to File as a Wet Democrat

LINCOLN, April 7.—(Special.)—Colonel John G. Maher called at the office of the secretary of state this morning, securing papers for filing for governor. Mr. Maher said he had not completed his platform but that it would surely contain two planks. One of these will open up the wet and dry fight, when he will advocate a policy against prohibition and county option. The second plank will be opposition to the policy of the national administration in its handling of the Mexican situation. Other planks will be for a more economical administration of the business of the state, and probably an endorsement of woman suffrage.

Of the latter plank, Mr. Maher said he was not quite sure. Personally he was opposed to woman suffrage, but that other candidates had recognized it as a good vote getter. This will complicate the situation in the democratic muddle and have a tendency to open up the factional conditions further. With George W. Berger and Charles Bryan as the probable advocates of the dry side, the wet fellows, since the withdrawal of Governor Morehead, have been considerably up in the air for a candidate. Fred Vohp seemed to be the only man they could bring out, and they doubted his ability to make good in a fight which would probably be strenuous.

Railroads Agree to Lumber Rate Cut

In company with other boys he was on the depot platform and playing as the afternoon train from the west came in. The boy in running away from some of the others, got in the way of the train and was struck by the beam of the engine pilot and knocked over. Fortunately he was rescued from the perilous position and as the train was not running fast, he was not dangerously injured.

Nebraska Engineers Gather Valuable Data

(From a Staff Correspondent.) LINCOLN, April 7.—(Special.)—D. H. Harding, representing a Kansas City engineering firm, said to be one of the largest in the country, called on the physical valuation department of the State Railway commission this week to secure data relative to telephone rates and other expenses controlling the firm. He said it was impossible for an engineering circle that Nebraska had the most complete and latest set of telephone cost data in the country, and after spending an entire day looking over the office, Mr. Harding said he was convinced the data and records of the physical valuation department of the Nebraska Railway commission, secured by Nebraska's engineers, was the most complete and reliable as well as valuable anywhere in the country.

The authorities have granted her six weeks in which to recover from the operation, but will extend the period if the patient's condition should render it necessary. Miss Richardson, who has served less than a month of her sentence, has promised to remain in a hospital or sanitarium until the expiration of her leave of absence.
