POOL OUT FOR SECRETARY

Labor Commissioner Will Make Race Again for the Place.

HUNTER AT YUTAN IS FINED

Pleads Guilty to Shooting Geese and Pays Two Hundred Dollars—Potato Rate Comes Up Soon.

(From a Staff Correspondent.) LINCOLN, April 11.—(Special.)—Charles W. Pool, chief deputy labor commissioner, filed this morning for the democratic nomination for secretary of state. Four years ago Mr. Pool tried conclusions with Secretary of State Wait in the regular election for the office and lacked ninety-two votes of landing the place.

Mr. Wait had been deputy under Secretary of State Junkin and filed for the nomination on the republican ticket. The race was a tight one, but Wait landed. Mr. Wait did considerably better in his fight for a second term, winning over J. W. (Platform) Kelley by 18,200 votes. Mr. Wait has filed for a third term.

Mr. Wait will have to fight it out with Clyde Barnard for the republican nomination. William F. Porter, who held the office of secretary of state during popular times, may file for his old job, and if so, Mr. Pool will have opposition.

Outlook is bright. H. B. Howell, secretary of the Hastings Chamber of Commerce, and R. P. Starr, formerly county attorney of Sherman county, were at the state house today. Mr. Starr had the pleasure of running for the state senate in his district against Peter Wink two years ago, and while he received a good majority in his own county, was defeated because of the greater majority given his opponent in his home county. Mr. Starr says the outlook is good for republican success in Sherman county and does not think that the third party movement is receiving any support there.

Take Up Potato Rate. Next week representatives of the State Railway commission will go to Chicago to be present at the potato rate hearing before Commissioner McKenna of the Interstate Commerce commission. An attempt is being made to make a raise in rates on tubers which will amount to about 15 per cent and the commission will endeavor to prevent the raise.

State Library Crowded. The crowded condition of the state library has compelled the department to build a double deck on top of the bookcases on the first floor of the library, in which will be kept the volumes on genealogy, which number about 1,000. The failure of the legislature to make an appropriation for the fire proof building for the state library has compelled the librarian to erect additions on top of the present cases, adding greatly to the fire hazard.

Hunter Pleads Guilty. A letter was received by State Game Warden Rutenbeck this morning from one of his deputies, S. A. Bowen at Fullerton, that a hunter whose name was not given, had been arrested for killing geese near Yutan and had pleaded guilty, and paid a fine of \$200. His case has been reported to the government authorities and the man may be prosecuted under the federal game laws.

Engage Lincoln Beachey. The board of managers of the state fair met yesterday and engaged Lincoln Beachey, the aviator, who loops the loop and does many other things in the air which other aviators try to duplicate, but seldom succeed, for the 1914 fair. He will fly upside down and will make at least three flights each day. In one of these he will make the attempt from a high altitude to turn his machine over twelve times before reaching the ground.

Instructing Demonstrators. Five farm demonstrators are receiving instructions from C. W. Fuglesy at the state farm for the work for the summer. These are V. S. Culver of Merrick, J. F. Coupe of Thurston; A. H. Beckoff of Seward, O. H. Liebner of Gage and Val Kuska of Madison. It is understood that Dawes will have a demonstrator, although not represented at this time.

Issue of Stock Sought.

Application has been made to the railway commission by the York Gas and Electric Light company for an issue of second preferred stock for \$38,451, on which a guarantee of 7 per cent is made. The company has an authorized capital of \$50,000 and has issued stock in the amount of \$17,500, for which it received the cash. The company represents that it has assets amounting to \$188,225. About \$19,315 of the new stock will be used in paying up the debts of the company incurred in acquiring its property and the balance for improvement and extensions including transmission line to McCool Junction about eight miles distant.
