Brandeis Stores

ANNOUNCEMENT of especial interest concerning our purchase of the stocks of the HENRY SIEGEL STOCK

As previously announced, we secured a great number of the departments from the Siegel stocks at enormous concessions, but were unsuccessful in securing other departments, as they brought higher prices in the auction than we felt warranted in paying.

But in order to make this a sale which should embrace every department in this store and fill every want of every home we gave these instructions to our New York office:

Go into the market and secure the biggest bargains you possibly can. Do not hesitate to buy any quantity however large, as long as the merchandise is right and the prices low enough.

The result of these instructions are showing up now. A late season and other unfavorable circumstances made it necessary for a great many high grade manufacturers to unload their overstocks. In many instances it was a question with them how to get cash quickly. They, therefore, were eager to dispose of their stocks at a great sacrifice to the Brandeis Stores, knowing that they would get their money immediately instead of having to wait for it 60 or 90 days, as is customary with most mercantile establishments.

We cannot yet announce the details, but from the general descriptions we have received, the bargains secured are so great that from the basement to the top of this establishment we should be able to offer our customers the greatest values in the history of this city. Among other messages received is one from our cloak and suit buyer telling us of a number of sample lines bought at a fraction of their regular prices. The details of this purchase will be announced later.

When these goods are ready we will announce a series of bargain sales without precedent. Watch for them! Watch the papers!
