OMAHA, April 11, 1914.

The present position of bulls in wheat is believed by many to be a questionable one. Unless there are losses of a pronounced character in the winter wheat beit the holders of cash grain in that section will, it is said, loosen their surplus and throw it on the market at the best price possible. Word has been received from several sections of the southwest that many miliers will dispose of their cash holdings before prices sell still lower. There is no demand for flour in the interior, or in any other section, for that matter, and millers who are carrying good sized lines of wheat will dispose of the grain and turn it into money, it would be a difficult matter to say as to the size of the line of May whoat held in Chicago during the last winter and this spring, some in the trade place the line as being as high as 26,000,000 bushels, while others place it at 12,000,000 bushels.

The ground in the spring wheat country is said to be in fine condition to receive the seed and those who are best posted make the assertion that in case the spring wheat goes into the ground under favorable circumstances and the winter wheat continues to grow and improve in strength a crop of over 1,000,000,000 bushels of wheat is among the probabilities. to swap for a good truck or high-grade automobile. bilities.
It is believed that Russia will offer from importing countries the amount of new wheat sold thus far on the crop by producers in the United States is the smallest in many years. This in itself looks had for the selling side of the market in America and shows that lower prices will have to be accepted unless there is something to turn up in the general conditions surrounding wheat to help out the situation, which is now pronounced bearish.

The buils in corn have experienced no great amount of trouble in taking care of their side of the market. The bears have continued to attack the stronghold of buils and they have been obliged to retreat on many occasions.

Cash corn was 'ic to ic lower.

The situation in oats is not unlike that of corn, as the market may be said to be "in the balance." On one side is the late seeding in many sections of the great belt, while on the other side are increased offerings of Canadian grown grain, and which is to come in direct competition with the oats now held in this country and which holders are anxious to realize on. 50 TOOL SHARPENERS, WHOLESALE price St apiece. Any agent can sell to farmers. Want single driving rig or team of work horses. Address S. C. 630, Bee. Corn broke sharply under selling pressure, from leading speculators. Word that Argentine corn was being sold in Okiahoma, had a depressing effect. Declines in cash prices at Kansas City and Omaha sended also to make the market heavy. A moderate bulge at the commencement of trading served only to render the weakness later more evident by contrast. Oats were unsattled, but finally displayed most sympathy for the downturn in corn. The chief contending influence was the weather hindrance to planting.

Provisions asgged throughout the day. Lack of any important buying formed the main reason. Futures closed as follows.

Total receipts.... 3 69 DISPOSITION-HEAD. Swift & Company

Cudahy Packing company...... CATTLE-Receipts of cattle this week have been very light as compared with previous weeks, as well as with a year ago. At the same time other markets have been lightly supplied and at none of the great markets have receipts been at all liberal. Still the demand for meat products has been so moderate that the buying demand has not been at all brisk at any point. To be sure light receipts have caused prices to firm up a little, the market here being 16g2th higher on the general run of desirable fat steers and good heifers and cows on the heifer order. Medium kinds of cows have not shown much change from last week's close. CATTLE-Receipts of cattle this

Stockers and feeders, on account of the very light runs, have firmed up a little and are 10015c higher than a week ago. It would be well for the country to thoroughly realize that the demand as noted above is far from large and the feeting here and at all other market points is that the market is in no condition to withstand large receipts of cartie the coming week. It would be well if the country would ship sparingly to all markets until time has been given for the surging of beef in eastern consuming markets until time has been given for the surplus of beet in castern consuming centers to be cleaned up.
Quotations on cattie: Good to prime yearlings, 18.0928.30; good to choice beet steers, 18.2028.75; fair to good beet steers, 18.2028.30; good to choice cornfed heifers, 21.2028.30; good to choice cornfed cows, 26.5027.35; fair to good grades, 36.7526.30; common to fair grades, 34.2526.30; good to choice cornfed cows, 26.5027.35; fair to good grades, 36.7526.30; common to fair grades, 34.2526.30; good to choice stockers and feeders, 37.2527.35; common to fair stockers and feeders, 37.2527.35; common to fair stockers and feeders, 38.2027.35; stock calves, 36.3027.35; stock calves, 36.3027.35; veal calves, 36.3027.35; stock calves,

HOGS-Receipts were moderate today, about 4.500 head being received. For the week the total is 41.562 being 7.300 head larger than last week and 2.500 head larger than a year ago. The decrease for the year to date amounts to a little over 29.000 head.

are optimistic as to the future trend of prices.

Shorn lambs at the close of the week sold in about the same notches as a week ago. The supply has shown no material change from last week, but from now on a larger and better supply is looked for, as a good many sheep and lambs have been taken out from this market to the country for shearing and finishing. Shorn ewes have been in meager supply, there not being enough of them on sale any day to catablish quotations.

Pressure on Steel Stocks, Which Are in Disfavor Because of Large Shrinkage of Un-

filled Orders.

NEW YORK, April II .- Aggressive support for the stock market was lacking today and prices eased off slowly. Only a small amount of business came in over the boliday and the foreign markets were still closed. Trading was limited largely to professional operations, and while the movement was steadily down-ward the average loss was not severe.

Pressure converged on the Steel stocks, which were in disfavor on account of the large shrinkage of United States Steel's unfilled orders. Stocks in the steel ground and shares of related com-Steel's unfilled orders. Stocks in the steel ground and shares of related companies were lower. Petroleum shares continued their decline, and the Rumely issues made a new low record at 7½ for the common and 22 for the preferred. In the railroad list, Canadian Pacific displayed the same weakness which has been evident for several days, falling to 128, a new low mark since 1911. New Haven weakneed on its February statement, showing another deficit. The stock broke to 65% within a point of the lowest price at which it ever sold. Rock Island collaterals, reached a new low mark at 33%. St. Poul, Lehigh, Coastline and Northern Pacific were sensitive to pressure. Otherwise the railroad list held up fairly well. The bank statement reflected the return to normal channels of funds paid out to meet April I interest and dividend requirements. Loans were cut down \$10,000,000. Instead of a small cash gain, estimated at around \$2,000,000, there was an increase in the actual cash figures of \$1,461.00. The result for the week went far toward restoring the surplus to the amount held last month, more than \$8,000,000 being added.
