Lawyers Busy in Another Court and Matter Postponed.

JOHN MATTEO OUT FOR SENATOR

Nebraska City Man Makes Race for Nomination on the Democratic Ticket in Cass and Otoe Counties.

(From a Staff Correspondent.) LINCOLN, April 14.—(Special.)—The hearing before Governor Morehead on the complaint of a Kearney citizen that President Viele of the state normal board had financial interest in contracts for furniture sold to the Wayne Normal school, which was to have been held today, has been postponed until April 28, on account of the inability of Mr. Viele's attorneys, Hainer & Craft, to be present because of cases in which they were represented requiring them in the Lancaster county district court.

Mattes for Senator. John Matteo, Jr., of Nebraska City has filed with the secretary of state, as a democratic candidate for the nomination for state senator in the Second district, comprising the counties of Cass and Otoe.

Warden Planting Fish. Game Warden Rutenbeck went to Humboldt yesterday, where he took about 2,000 lake perch, bullheads, catfish and rock bass, which he planted in a lake near the town. He also took along a number of gold fish, which he placed in an artificial lake in the city park.

Three Ask for Pardon. Three convicts in the penitentiary will apply for a pardon at the next meeting of the pardon board. Two of these, Edward F. Depew and William H. Swan were sent up from Keith county for cattle stealing, February 20, 1914, and given indeterminate sentences of from one to ten years. Depew is 43 years old and has a wife and eight children, while Swan is 29 years old and has a wife and three children. M. P. Smothern, sent up from Boyd county and received at the penitentiary June 30, 1907, for the crime of incest, would like a pardon. He was 49 years old at the time of his crime and has a wife and several children.

Price Has Plan. William B. Price has put a new proposition up to the men, who are trying to switch him from the congressional race for the democratic nomination. William says he will be tickled to death to withdraw if Morehead and Maguire will also retire, all of them in favor of "Dick" Metcalfe.

ARGUMENTS FINISHED IN THE NEW RATE CASE

(From a Staff Correspondent.) LINCOLN, April 14.—(Special.)—Arguments in the rate cases before the railway commission on the hearing on modified schedule nineteen were concluded last night. Those of the railway attorneys who had not spoken in the morning delivered their arguments and E. J. McVann, speaking for the Omaha jobbers, opposed the proposed rate as it would restrict Omaha to a smaller territory than it now has. He said the broad and free competition of unrestricted territory was better for all towns interested than a monopoly of trade in a limited territory. George Bell, representing Sioux City interests, was opposed to the proposed rates. He thinks that the effect of the order would be to keep Sioux City out of Nebraska territory. He thought that the proposed rate was unconstitutional in that it is along the line of class legislation. The commission will render its decision on the matter soon, as it only has until June 1 before the Prouty interstate rates will go into effect and if the proposed rate is ordered the order will have to come within thirty days.

### Ride In All The Other "Sixes" and "Fours" —Then You'll Buy This SIX

Studebaker sales more than fifteen hundred cars a week.  
Studebaker SIX sales more than any other "Six" in America.  
And the reason—so plain, so obvious, that you can't get away from it. Studebaker SIX sales are in advance of all others, not because the Studebaker SIX costs less than some other cars, but because other cars cannot give more, even at a higher price. Study that statement from any angle—from every angle—and the result will be the same. If smartness, and style, and beauty are what you are looking for—there can be only one conclusion concerning the Studebaker SIX. If it's economy—study the light, strong construction; and hear the low-cost story that owners are telling in every city in the country. If it's carrying capacity—the Studebaker SIX carries seven without crowding—with space to spare—in comfort so complete you couldn't ask more. If it's starting and lighting, no car—not one, at any price—surpasses the splendid Studebaker-Wagner separate unit system. Is it a question of what's in the car and how it's built? Listen:

The Studebaker SIX was built and re-built and tried and tested, and tried again, for three years before the first perfected car went on the market. We've built more than 120,000 motors and this SIX motor is the fruit and flower of that invaluable experience. No company in the world buys and uses as great a volume of the costliest steel or subjects it to a more drastic course of heat-treating and testing. No automobile company in the world buys as many Timken bearings—and this SIX has a full Timken equipment. No car in the world has a safer, better axle than this full floating rear axle. No car in the world is in greater detail manufactured within the plants of its own builder than this Studebaker SIX—stampings, castings and forgings—springs, bodies and upholstery—our own crown fenders, our own cowl, and even our own tops.

The Studebaker SIX is leading in sales because it *deserves* to lead. Take that drive with the Studebaker dealer tomorrow.

### Do You Say "Who Are You?"

When you have made a telephone call and the person responds, or when you are answering the telephone, why not at once announce who you are?

When you answer the telephone, say, for example, "Adams & Company, Mr. Adams speaking." The old way of shouting, "Hello!" is inelegant and rather rude, and fortunately is fast becoming obsolete.

**Tell Who You Are**  
Say who you are, at once, when telephoning. That's the courteous, up-to-date method, eliminating abrupt and meaningless questions, getting right to the point, and starting the conversation the correct way.

The Smiling Voice Is the Winning Way.
