CIGAR MAKERS ON STRIKE

Lincoln Union Objects to Rules Made by Pepperberg.

BUSBEE WILL FILE AGAIN

Senator from Twenty-Seventh Senatorial District Plans to Enter Race Once More—Injury to Auto Party Averted.

(From a Staff Correspondent.) LINCOLN, April 18.—(Special.)—Refusing to work under their former union he was denied authority over them and objecting to the size of a cigar which is being made in the factory of J. Pepperberg in this city, the cigarmakers, of the number of twenty-one, declared a strike last night and their action has been ratified by the local union.

The size of the cigar under discussion is the principal cause of the trouble, it being declared that the union in 1908 granted the request of Mr. Pepperberg to make a larger cigar, but that he has increased the size contrary to the rules of the cigarmakers' union. Mr. Pepperberg formerly manufactured cigars at Plattsmouth, but moved his factory to Lincoln.

The shop has been declared closed to all union members. The Wellington Inn company of Omaha has filed articles of incorporation with the secretary of state with a capital of \$25,000. The company will engage in the business of running hotels and rooming houses. Henry R. Payne, Edward M. State and George T. Porter are the incorporators.

Senator Berton K. Busbee, who represented the Twenty-seventh senatorial district in the last legislature, will file in a few days for a chance again to represent that district in the next session. Senator Busbee was one of the hard workers in the last session. His district comprises the counties of Scotts Bluff, Banner, Kimball, Morrill, Cheyenne, Deuel, Grant, Hooker, Thomas, McPherson, Arthur and Logan.

W. F. Ackerman, superintendent of the Burlington shops at Havelock, and John Adams, general foreman of the Burlington shops at Sheridan, Wyo., with Mrs. Ackerman and Mrs. Adams, narrowly escaped serious injury last night at a crossing of the Missouri Pacific railroad about three miles east of Lincoln. The auto in which they were riding struck the side of the grade in making the turn at that point going over and sliding to the bottom. Luckily the machine did not turn over, but remained on its side and the occupants, with the exception of Mrs. Adams, who was injured, were not hurt.
