Millions of Bushels of Corn Liquidated as Losses.

New York for May, June and July shipment.

The sellers were willing to allow the buyers to name the delivery and the amount of purchase and as it was buyers were also able to name the price for this grain, so urgent was the selling price. One New York broken was offered any part of 3,000,000 bu, or Argentine corn after the close last night and any position between New Orleans and Maine for any delivery he wanted. This shows that the corn raised in this country, of which farmers now have considerable to sell, will receive but little attention from the buyers unless the price is lower materially.

More or less stubbornness was displayed by the wheat market, and while the May was a shade lower the more deferred months were fractionally higher. While the situation in wheat may not be called builtsh the matter of sentiment has changed somewhat.

hanged somewhat. In referring to the seeding of wheat in In referring to the seeding of wheat in western Canada, a well known authority says advices from there show that considerable progress has been made in seeding in Sasketchwan and Alberta, that the prospect appears favorable for an increase of 5 per cent or more in the Sasketwachan acreage, with some intrease in the area seeded to wheat in the other provinces.

The provision list was lower. There was considerable liquidation by longs and the support that was much needed falled to put in its appearance. The advance of 5c in the price of hogs at the yards had little effect on values in the pit

CHICAGO GRAIN AND PROVISIONS Features of the Trading and Closing

Prices on Board of Trade. CHICAGO, April 21.—Rapidly decreas-ng world reserves had a good deal to do CHICAGO, April 21.—Rapidly decreasing world reserves had a good deal to do today with inspiring more friendliness for the buying side of wheat. Accordingly the market closed firm at 146-46 % net advance. Corn wound up 1973 & the net advance. Corn wound up 1973 & the above tast night. Oats with a gain of 348-46 and provisions irregular, varying from 5c off to a rise of 25c.

Falling off in the total of the world's available stock was given decided attention, on, account of being largely in Europe or atloat from there. Besides the extent of the dwindling, about 15.00,000 bu, as compared with a year ago, made the bulls alert for chances of a renewal of exports from the United slates, the more so as a cargo of 150,000 bu of hard winter wheat was today logded out of elevators and put under orders for shipment east. Export bics were but little outside of working limits of, new crap, whoat.

Complaints of dry weather along the western edge of the winter crop helt tended further to keep the wheat from any important setback. Several counties in Nebraska reported notable losses in acreage owing to lack of moisture. There was word too, from Missouri that Hessian fly damage was no longer a theory, but in Fettis county at least was a demonstrated fact.

It looked as if fluidating sales of corn had for the time being reached an end

in Pettis county at least was a demonstrated fact.

It looked as if fluidating sales of corn had for the time being reached an end. The west and southwest reported greatly iniproved demaid from feeding sections, and some of the larger shorts here evinced considerable eagerness to cover on all weak spots in the market. Cash dealers in Chicago said they were receiving good orders for immediate loading to fill in kaps east before the bulk of the Argentine new crop would arrive. Nevertheless the May delivery here decisively lost its premium over deferred deliveries. In the oats crowd cash houses were conspicuous buyers, presumably removing hedges on spot oats sold over night 50 20 east.

Provisions broke sharply as a result of continued unloading on the part of dis-

continued unloading on the part of dis-couraged longs who had to contend with a decline in the price of hogs. Packers, however, finally came to the support of the market and caused a rally, especially n port.

OMAHA April 31, 1964.

Millions and millions of bushels of long corn were liquidated at severe losses to the bulls holders and from the action of the market at the close last night there were still several good sized lines to be taken care of. When the fact is considered that the price losses yesterday were anywhere from 'ac to 2c, the total losses to the sellers of this grain were chormous.

The average reader may possibly recall the sharp decline in this grain during the last fortnight and it will be natural for him to ask as to the exact cause of the break. The answer may be put in low words—'Argentine corn.' That grain were for May, June and July shipment of purchase and as it was buyers to name the delivery and the buyers to name the delivery and the smount of purchase and as it was buyers were also able to name the price for this grain, so urgent was the seiling price. One New York broken was offered any part of 2,000,000 bu, or Argentine corn. That grain the corn reased in this country, of while farmers now have considerable to sell, will receive but little attention from the buyers unless the price is lower materially.

More or less stubbornness was displayed by the wheat market, and while the may as a shade lower the more deferred months were fractionally higher, While the situation in wheat may not be called buillish the matter of sentiment has country of while the situation in wheat may not be called buillish the matter of sentiment has commont of wheat market, and while the may as shade lower the more deferred months were fractionally higher, while the situation in wheat may not be called buillish the matter of sentiment has counted for the situation in wheat any not be called buillish the matter of sentiment has counted for the situation in wheat the corn and wheat may not be called buillish the matter of sentiment has connected the set of the situation in wheat the corn and

NEW YORK STOCK MARKET Kugel Issues Rules

Advances Despite Depressing Influence of Mexican Crisis.

CROP CONDITIONS ARE BETTER

Advance in Western Rail Shares Ascribed in Part to This-Rally In Oll Shares Strengthening Influence.

NEW YORK, April 21.—Notwitchstanding the depressing influence of the Mexicancrisis, the stock market advanced today Technical conditions proved to have a stronger influence than the Mexican news. It was apparent that the steady selling on the decline of the last week had brought about an oversold condition. It was asserted by some brokers that in proportion to the amount of business there was now outstanding a larger short interest than at any other time recently. Whether or not such an unusual condition exists, offerings were sufficiently scarce to impel short covering on a rising scale of prices.

Only offer—shortly after the opening rise—was the upward movement halted. Prices were forced back to yesterday's close, but the demand expanded on the recession, and the market quickly sought a higher level. Once again the bears attempted a raid and succeeded in forcing Leshigh Valley to 150%, but the weakness of this stock had no influence elsewhers. The advance was most general in the railroad list, in which there were nearly a score of gains of the 2 points, but some of the industrials, including Steel and Amaigamated, rose strongly. The street was as greatly absorbed in news as it was yesterday and speculators were on edge all day awainting some developments of sufficient importance to exert a decided influence on the market. Up to the time of the closing, however, no such news had been received, and although Washington advices gave the situation a still graver aspect, comparatively little influence was exerted by this factor, Buillish traders pointed to the rise of today as proof of their prophecy that the market would advance in case of hostilities. They held that decisive action in Mexico would put ultimately more favorable for corn and wheat, to which with interests in the southern republic. The government's weekly weather report showed that conditions had been favorable for corn and wheat to which was attributed in part the advance of the western railroad shares. Another strengthening influence was the raily in the curb made up most of yesterday's extended slump.

slump.

Bonds did not share in the rise in stocks. Municipal issues in particular were heavy. Total sales, par value, \$2,200,000. United States bonds were un-CHICAGO LIVE STOCK MARKET

VOLUNTEER BILL IS PASSED

Measure Taking Militia Regiments Into Regular Army Adopted.

WILL REVISE EXISTING LAW Its Authors Assert Force Could Be Raised More Quickly Than Under the Present

Statute

WASHINGTON, April 21.-The senate passed the volunteer army bill taking nto the regular service militia regiments in time of war. The bill has aircady

passed the house. The bill would revise the law under C which a volunteer force was organized for the Spanish-American war in 1898. Its authors claim that a volunteer force could be raised more quickly than under the existing law; that it would prevent the payment of bounties, would do away with a short term of enlistment by making the the term of the volunteers the same as those in the regular army; would produce the necessary number of men at the beginning of the war for a long peried, thus making drafting unnecessary and would decrease the pension list after

rovide for the recruiting of all organzations of land forces. This would include training service, to which duty

Takes Exception to Comparison of Chinese With Irish

"That fellow is talking through his wind shield," said an Omaha man, pointing to an article in the Sunday Bee in which E. G. Bennet, motor car salesman. referred to the similarity of the Chinese and the Irish as "nonpurchasers of cars." "I do not know what the Chinese do about motor cars, nor do I care, he continued, "but the assertion that the Irish at home are not buyers and users of cars is exploded gas. Perhaps the Irish are not buying Mr. Bennet's type of car and Sheep.
2,000
the alcofness is biting him. Omaha vis16,000

1,000
public and private use, and are steadily
1,000
public and private use, and are steadily crowding out horse vehicles. One Omaha lamented the general use of motor cars in and around Dublin and the consequent disappearance of the Irish jaunting car. Another Omaha man, contemplating a visit to Ireland next summer, received assurances from Irish railroad officials that motor cars were plentiful and could be bired at all ponnts where stopovers were allowed on tourist tickets. If Mr. Bennet can see only such cars as carry his label his enthusiasm may be commended from a salesman's point of view, but that is no excuse for straining his wind shield with imaginary guff."

CHILD LABOR COMMITTEE MEETS MONDAY EVENING

Members of the Nebraska child labor committee will meet in connection with the Conference of Charities and Corrections, next Monday evening at dinner at the Young Women's Christian association. The committee includes Judge How-Kennedy, Lincoln Frost, Amy V. Stevens, Lucile Eaves, all of Lincoln; Mrs. H. L. Keefe, Walthill; Bishop Beecher, Kearney; Mrs. Harriet C. King, Benson; Miss Anna Kramph, North Platte, and Mrs. F. H. Cole and Dr. D. E. Jenkins of Omaha.

BRIDEGROOM DID NOT WANT TO FORGET KEG

A memorandum evidently prepared to remind him of various things to be done on his wedding day, was left by a bride-groom on the desk of "Cupid" Steubendorf, who issued the marriage license. On one side were the names of his wife's ancestors to be given "cupid," while on the other were the following words: License, \$2; keg. \$2; suit. \$1; union suit, \$1.50; bow tie, 50 cents. Call up taxi.

10 cows..... 910 6 65 the shippers and they made their first bids at figures that were right around not lower. Salesmen were looking for a bids at figures that were looking for a foct lower. Salesmen were looking for a SHEEP-at the opening of the market this morning buyers and sellers were a little slow in setting together, but it was not long before trade commenced, and the movement scaleward was fairly active at prices that would average about

the movement scaleward was fairly active at prices that would average about steady with yesterday's general market on both sheep and lambs. The total receipts were fairly large for Tuesday, as they amounted to some forty-seven cars, or 11,000 head, compared with 10,000 a week ago and 3,172 a year ago. The fact that about fifteen cars were feeders from Wyoming and Idaho seemed to stimulate trade, and while prices were practically in the same notches as yesterday the better feeling was due to the small percentage of fat sheep and lambs. Chicago had a good run today and advices from there and other points were more bearish than otherwise:

Packers were even more bearish than

Fackers were even more bearish than sharp break, and while a good many seli-ers started out saking steady prices, most

is high-priced simply because it was once worth its present price! The richest virgin soil is waiting for you in Manitoba—and the Alberta-Saskatchewan district. You can buy it for practically the same price per acre that the mere manuring per acre of soil in many parts of the U.S. costs! Fertile Canadian West offers you not only soil of wondrous productivity, but it also offers you a splendld climate, churches of all creeds, splendld public achools, exceptionally good markets, fine hotels and transportation facilities that are mexceeded.

We have a truly aplendld proposition to make to any earnest farmer or to men who wish to farm and who are sincare in their desire to still in this country. We actually are in a position to enable you to some II a cree for every acre that you cow dwn or farm—and every acre here will produce double what a worn-out acre produces anywhere. On top of that, we give you

20 Years to Pay for It You get the land for from \$11 to \$30 per acre. In You pay merely one twentieth down. The balance is split up into 19 equal payments. The larm will more than meet the payments and your tamily a living expenses. Canadian Pacifia farms pay for themselves over and over again before the time the last payment falls due. We can refer you to scovar of farmers who paid for their tarms with the proceeds of just one crop!

You Are Loaned \$2000.00 to Pay for Farm Improvements! Here is land adapted to grain growing, to poultry raining, dairying, mixed tarring and to catile, hog and sheep raining. You decide for yourself what kind of farming you wish to follow. The Canadian Pacific helps you select the land best adapted to your purposes. And then, if you so desire it, we arrange to have Your Farm Made Ready by Experts Write us a letter and tell us an expert on the case and select the form that will exactly suit your tach one that you can farm to most advantage to your self. Let us tell you shout the 400,000 bushes even in Caunda this year! Write for Handsomely Blustrated Books.
