ALL GO TO SEE DOGS FIGHT

Mixup Between Stray Curs Breaks Up Military Mass Meeting. ENLISTING FOR WAR IS PUT OFF Benson Would-Be Soldiers Are to Wait Until Today Before Signing Up to Go to Mexico.

A dog fight broke up militia recruiting operations at Benson last night and the crowded city hall was emptied at the first shouting of "fight." Only three men enlisted, although at least 200 attended the meeting.

Major E. E. Sterrick, Colonel C. L. Mather and Captain E. T. Harris, with a force of privates from the Omaha company, were ready to enroll the men when the stampede started.

As the major concluded, Colonel Mather asked the men to step up and enroll. Then ensued an ominous quiet and all of a sudden from without came the cry of "fight!"

When the militiamen rounded up the men outside the only indication of a fight was two stray curs that gave all indication of having made up.

The three men who joined were: George Hurwood, Ellis Micklitz and Elmer M. Otis. Captain Harris announced that they would be admitted to his company.

In the opinion of Captain Sterrick and other recruiting officers the trouble was that the Benson Order of Moose was antagonistic to the forming of a

company of militia there. They voiced this opinion freely, declaring that the dog fight was put up by John Benson.

Colonel Mather announced that the "rest of the company would be made up" from enrollments received at the corner drug store today.

Unless a full company can be secured the men who enroll will be taken into Captain Harris' company.

Studebaker FOUR THE FULL-FLOATING-REAR-AXLE WITH FULL TIMKEN-BEARINGS \$1050 Why Studebaker's FOUR Sales Are Enormous: Bluntly—because no car now on the market reveals equal value. Because, for instance, no other car in the world at this price has a full floating rear axle equipped even to the hubs with Timken bearings. Because this axle could not be made better, no matter how much we were willing to spend, or you were willing to pay. The same thing is true of Studebaker-Wagner starting and lighting—the cars of highest cost may show its equal—but they cannot show its superior. The same thing is true of the proportion of parts actually manufactured in the parent plant—the costliest cars may make as good a showing, but none of them can show more. The same thing is true of the accuracy of the processes which enter into the manufacturing—they may be equalled in the costliest cars, but they are not surpassed. We repeat, with added emphasis—the sales of this \$1050 FOUR are enormous because no car now on the market reveals equal value.
