HA SUNDAY BEE: MAI day, followed with a steady market on all wooled offerings, but shorn stock was steady to 10c up. A slow and doll trade featured Thursday with a very poor clearance, as several loads of lambs were carled over for Friday's market, prices on Thursday being mostly boylic lower on the last day of the week and the scatcity of anything. The light run of lambs on the last day of the week and the scatcity of anything in the line of multion naturally caused the general trade to re-cuperate a little, so prices were regarded as mostly a dime higher, though some sales looked little, if any, better than steady. Thus, summing up for the week, wooled lambs are quotably weak and pos-sibly a shade off than week ago, while the shorn study instead of for wooled of-ferings, which were in the best demand during the previous week. — Altogether, the week has been rather unsatisfactory to the selling interents, be-cause at no time did the packers appear as if they wanted many killers. This was attributed to the bad conditions on the prospects are that buyers will have slim picking from now on as Colorado has al-ready sone forward to markets. arrivals this week have been beef steers of rather cesirable quality. For the week the market started out in good shape, but later, owing to un-favorable advices from eastern beef and cattle markets, there was a general slump cattle markets, there was a general slump in values all along the line, closing quo-tations being in the neighborhood of 10 @i5c lower than a wek ago. All grades anared in the decline, although the ordi-nary short-fed yearlings were probably the hardest to sell and found little favor with any class of buyers. Undertone to the trade at the close was healthy and the demand broad at the lower level of sales.

were steady at a shade to 1407 to net higher. Scarcity of offerings made corn ad-vance. Strength of prices was increased to some extent by rising quotations at Liverpool and Buenos Ayres. The mar-ket here after opening a shade off to "the up tended to harden all around. Assertions that Chicago stocks would ashibit a docrease of 1000.000 bushels for the week gave the market an additional swing higher. The close was nervous at a gain of 140% or net. Chats showed independent firmness. Good-sized shipments from Chicago was the incentive.

Provisions sagged owing to lack of denand. First sales were a shade to ic ower and there was a subsequent furmand.
