Publicity Bureau Gets Out Booklet on State Resources

The twenty-four-page booklet of the bureau of publicity of the commercial club, giving compact and valuable information about Omaha and Nebraska, just off the press. This is the first booklet of its kind ever published in Nebraska. It treats Nebraska as a whole and Omaha as its great throbbing metropolis. It contains nineteen cuts, picturing everything from the sleek cattle, knee deep in alfalfa on the farms, to the eighteen-story sky-scrapers of Omaha. These cuts are all made from photographs taken of the scenes in various parts of the state. The cuts of farm scenes, including fields of flowing grain, alfalfa and running brooks, are such as would start the itch in the feet of an eastern tourist. The material was collected and compiled by E. V. Parrish, manager of the bureau. He has combined a readable style with a wonderfully compact arrangement of the vast funds of information at his disposal. He has handled the figures on acres, bushels, tons and dollars in such a way that there is not a dull paragraph. It does not read like a statistician's year book, but reads like the true story of a state less than half a century old that has made good with great bounds.

Grain Exchange May Locate Its Building Nearer Heart of City

The question of the erection of a new home for the Omaha Grain exchange has been settled, but the location of the building is up in the air and instead of the structure being erected upon the lots at Nineteenth and Harney streets may come considerably nearer the business heart of the city. Relative to this matter, Secretary Manchester of the exchange has this to say: The question of the location of the proposed Grain exchange building will probably not be decided before the last of the week. A number of business interests feel the importance of locating a building of this kind nearer the central part of the town, and they are making efforts to get a proposition before the directors of the Grain exchange which they considered more advantageous than the proposed location on Nineteenth and Harney streets. The question of erecting a building is positively decided and only the question of location is now being considered and a decision will be reached on that inside of the next few days.

Material Assembled for the New Cut-Off

Although grading on the Burlington's Chalco-Yutan cut-off has not begun, building material is being assembled. The yards at Chalco are being filled with steel, ties and bridge timber. The grading of the twelve miles connecting up the Burlington's main line from Omaha west with the Ashland-St. Louis City line will be finished within sixty days after starting. It is a light grade and there are but two, or three cuts. It is expected that grading will start during the present month. The steel to be used in the Burlington's new line is said to indicate that company officials anticipate an enormous tonnage. Ninety pounds, the heaviest laid in being unloaded at the Chalco yards, while the ties are cedar, the heaviest that can be found in the Wyoming forests.

To Light Parks So Children Can Play

City commissioners, after visiting the parks and sections of the city where lights were needed, decided, at a meeting, to install arc lights over the playgrounds in Riverview, Deer, Bemis, Kountze and Miller parks. This is to be done at the request of Park Commissioner J. B. Hummel, so that children may play in the evenings.

At a revival of the Gavel club of the high school will be held in the high school auditorium this evening at 8 o'clock. The purpose of the meeting is to arouse the interest of the students in the club and to secure if possible, additional membership. For years the club has been the boys' debating society and several excellent debaters have been enrolled as its members, notable of whom are Guy and Edgar Kiddoo of the Nebraska State university team and John Orchard, a member of the Strathmore college debating team, who was the first president of the club. A beautiful rosewood gavel will be presented to the club as the club emblem and a large program has been prepared by the program committee. Suffrage societies of Omaha and South Omaha have been extended a special invitation. The public are cordially invited to attend. No admission will be charged. The program: Pulpit Solo—Raymond Wilson Presentation of Gavel—By Karl Lee Orator—Merle Curti Debates: Resolved, That Woman Suffrage Should be Adopted in the United States. Affirmative: Yellum club, Marie Graham, Louise Bratton. Negative: Gavel club, Frank Broadwell, Karl Lee. Vocal Solo—Forrest Dennis Decision of judges.

Whistles for Policemen. South Omaha policemen are to be equipped with modern whistles, according to the last ukase of the Fire and Police Board. It is expressly understood that the whistles are to be used as calls for help and not as warnings of approach unless the telephones should be out of order in which case the board will probably be unable to control the exigencies of the occasion. As a starter only enough whistles are to be purchased as will supply the police department proper, but it is thought that the multitudinous police badge wearers will soon apply for the whistles. The police captains must hereafter wear full uniforms so as to distinguish them from the higher mentalities of the detective department.

After passing the above laws the board granted liquor licenses to W. H. Warner, Twentieth and N streets; Paul Bizek, Thirtieth and Q streets, and F. J. Boyce, Twenty-fourth and N streets.

Girl Trampled by Horse. Emma Conks, 18 years of age, residing at Thirty-sixth and Harrison streets, was trampled on by a horse yesterday morning and seriously injured while attempting to cross a bridge near her home. The animal is owned by Dick Shorter and was ridden by Jack Mangano. The girl works for the Ilen Biscuit company and was on her way to work when the accident occurred. The horse became frightened by a passing train, it is said. The girl was removed to the South Omaha hospital.

Hospital Reorganized. South Omaha hospital was reorganized last night under the presidency of C. R. Waters, former president of the Eagles and local manager for the Hull Coal company. The meeting was held last evening, Scott King, the retiring president, being absent. Reports showed that the affairs of the hospital were in fine condition, although there is need of larger equipment in order to meet the demands on the hospital. More than 500 patients were received at the hospital last year. Of this number 24 were surgical cases. Thirty-five deaths were reported. The hospital has been under the management of Miss Myrtle Dean, who was complimented on the work of the year. It was stated that the doctors of the city are strong supporters of the institution.

Those elected at last night's meeting are: Trustees, Mrs. G. H. Brewer, Mrs. C. L. Talbot, Mrs. A. W. Jones and Messrs. C. L. Talbot, A. W. Jones, W. B. Cheek, C. R. Waters, W. B. Tagg, Max Foote, D. Ringer; president, C. R. Waters; first vice president, A. W. Jones; second vice president, Mrs. G. H. Brewer; secretary, Mrs. C. L. Talbot; treasurer, Mrs. A. W. Jones.

Burglars Are "Visitors." Returning from an automobile ride Sunday evening, Walter McPhail of 218 J street laughingly accounted to his wife for the drawn blinds by remarking that they must have had visitors during the evening. He entered the house and found that his remark was really a fact, for thieves had entered during his absence and looted the place of a gun and articles valued at \$75. He complained to the police. A few minutes after the robbery he caught three men hanging about his garage. He ordered them away.

Church May Festival. Tonight three church club organizations of St. Bridget's Catholic church will begin a three-day May festival at the new school hall, Twenty-sixth and F streets. Morgan Heafey, one of the best known men about town, is among the leaders of the work.

Board Allows Payroll. Claims amounting to \$17,963.25, including the April payroll of \$1,963.25, were allowed by the Board of Education last night.

The east ten feet of lot 4, block 33, First addition to Corrihan Place, was bought for \$125. This property adjoins the Corrihan school on the west. A fence was ordered erected at the outer edge of this property.

Death of Mrs. Clark. Mrs. Belle Clark, aged 63 years, died at her home in Bellevue yesterday morning. Mrs. Clark was well known in Bellevue and is the daughter of Mrs. Chapman, who died in the same place about two weeks ago. The funeral services will be held at her home tomorrow afternoon at 3 o'clock. Interment will be made at the Bellevue cemetery.

Republican Club Meets. At a routing meeting of the South Omaha Republican club last night, school elections were discussed. It is against the principles of the club to make formal endorsements, but the sentiment of the meeting was unanimous for the reelection of E. R. Leigh and Godfrey Horacek to the school board.

Child Dies. Mary Clare, the 3-year-old child of Mr. and Mrs. Joseph Quinlan, died at the residence, 48 S street, Monday afternoon. The funeral will be held Tuesday afternoon at the home. Burial will be in St. Mary's cemetery.

BLAZE FOLLOWS BOAST OF ASSISTANT FIRE CHIEF

"It's quite remarkable," First Assistant Fire Chief Simpson was remarking at noon. "We haven't had a fire alarm for two days." In less than five minutes the chief was speeding to Ninth and Pierce street, where the roof of a frame dwelling had caught fire. "Guess I forgot to cross my fingers," he remarked afterward.
