Friends of Maguire Seeking to Induce Mcrehead to Change Mind.

They Fear Strength Maher May Develop in Triangular Gubernatorial Fight with Bryan and Berge.

(From a Staff Correspondent) LINCOLN, May 11 .- (Special.) -- That a desperate condition exists in the democratic party today is made evident by another attempt to convince Governor election promise not to accept another term as governor.

Since the governor has come out for congress there has been a big effort made by the friends of Congressman Maguire to get the governor to change his mind and make a try for the democratic nomination for governor. There is method in the madness of these persons for several ressons. With the governor in the race for the democratic nomination for congress, the Maguire men understand that the little congressman will stand no show of getting the nomination They want him out of the way and they want him in the gubernatorial fight because they fear the strength which Colonel John G. Maher may develop in a three-cornered tight with Charles W. Bryan and George Berge, dividing the dry vote, and They four that if they can coas the pace, into, the race there is a much better show for hinguire to land the congressional nomination and the Bryan and Herge followers know that their chances will be made better with the governor drawing support which under ordinary circumstances would go to

Will Make Vigorous Effort. It is expected that this week a very vigorous effort will be made by the Bryan-Berge-Maguire faction to coax the governor to give up his congressional aspirations and seek again to win a second term as governor. Of course Bryan and Berge will stay out of the negotiations personally, but their friends will do the However, the governor appears to have

a pretty good line on the situation. He recognizes very well that with the present aplit up condition of the demogratic party in the state there is no certainty that he could be elected to a second term he looks over the election figures of two years ago he discovers that he polled for congress by 1.110. In fact, he received more votes in every county than did Maguire, the records anowing that he even received thirty-five more in Lancaster county, Maguire's own home, than did the congressman, the records showing 119 more in Cass; 129 in Johnson, thirtyfive in Lancaster, 195 in Nemaha, thirtyone in Otos, forty-six in Fawnee and in Richardson county, the governor's home, he received 550 more votes than Maguire. In studying these tigures the governor feels that there is no reason why he should get off of the congressional race track, which looks good to him, and go onto the gubernatorial track, which looks mighty humpy just now from a democratic standpoint

Governor Not to Be Fooled. To the average politician of the demo gratic brand the fight for a state office

DEMOCRATS ARE DESPERATE looks a great deal like a forlorn hope for any follower of Andrew Jackson at the present time and with the uncertain outlook for the future there is not going to be much crowding around the office of the secretary of state to get a chance " file for a democratic nomination for any WANT TO RUN FOR GOVERNOR state office Nobody in the state know. the political situation better than Governor Morehcad. He doesn't wear a plug hat and a long tailed coat very often but his head is working all the time and if the Bryan-Berge-Magu.re combination pulls off anything on him they will have to be particularly smooth. The governor might 5e willing to sacrifice himself for the good of his party, but he is not liable to go into a slaughter to help out the B.-B.-M. putfit.

CONTRADICTS MAJOR HOLBROOK Head of War Department Says No Order Was Issued Against the Importation of Strike-

WASHINGTON, May 11 .- No mines will be permitted to reopen in the Colorado strike district for the present, Secretary of War Garrison announced today. He denied that orders had been issued forbidding the importation of strike breakers, but explained that while the situation remained threatening, the mines not already running would be kept closed until, in his judgment, their opening would precipitate no further trouble.

"It makes no difference whether strike breakers are imported or whether the labor is on the ground," said Mr. Garrison. "The question is whether their employment would start trouble.
