 Kansas City Grain Market.
 Kansas City Live Stock Market.</ Prices on Board of Trade. CHICAGO, May II.-Rapidly decreasing stocks, both foreign and domestic, gave the whip hand today to the buying side in wheat. The market closed strong at an advance of %c to ic net. Corn gained ye to %c for the day, and outs %@%c to %c. In provisions the outcome varied from ic decline to a rise of 2%c. Wheat prices jumped the highest after figures had been posted showing that the visible supply in the United States had fallen off more than 5,000,000 bushels in a week.

Tailen off more than 5,00,000 bushets in a week. Hessian fly damage reports from ad-joining parts of Missouri and Illinois constituted one of the principal reasons why abort selfers, who at one time cap-forced to cover. Besides there was com-plaint of too much molsture in some states and growth becoming too rank. Corn was rather unsettied, but strong with wheat. Weather reports from Ar-gentina were buillish. Oats followed corn, notwithstanding the purchase of 380,000 bushels from Fort William. Ont. the first cargo from Canada to Chicago this season, and the second ever to come dowa by lake. Provisions went lower with hogs, but packers bought on the break. A rally was the result. Closing quotations were as follows: 6s \$14d.

Discouraging advices from other points, coupled with the liberal local supply, gave things a dark look from the very outset, and the few loads bought early by speculators and ahlppers were all of lice and in some cases the lower. Pack-era started out even worse than this, their early offers being all of Déélio down. As a result of this bearish tend-ency to values the trade was extremely dull during the early hours. Salesman held out for better prices until long after to o'clock, but packars had everything their own way, and when the supply finally started to move it was at the figures proposed early, that is, fully 10% the continued slow all the way through and the close was extremely draggy, it being well along toward mid-day before a clearance was finally made. Prices were pretty well sustained through-out, though, and while offers weakened
