MORE CARE USED IN PACKING

National Guard Sustains About Five Thousand Dollars Loss in Fire at Wymore—Omaha Convicts Transferred.

(From a Staff Correspondent.) LINCOLN, May 12.—(Special.)—Good results are being received on account of an order issued by the State Railway commission about a year ago requiring the railroads to pay more attention to the by the Pure Food commission covering a more careful packing of the same.

It is estimated that on account of these orders that consumers have been saved in excess of \$2,000,000 the last year, the egg output in the state being over \$20,000,000. Careless packing of eggs before these orders went into effect resulted in a large loss because of cracked and broken eggs. In some instances the packers themselves used broken fillers in packing, which were responsible for the breakage. As it now is the use of broken or jammed fillers is prohibited and the results have been very satisfactory.

FILIPINOS ARE READY TO GOVERN THEMSELVES

(From a Staff Correspondent.) LINCOLN, Neb., May 12.—(Special.)—According to ex-Mayor Don L. Love of Lincoln and John L. Teeters of the same place, the national democratic administration has made a serious blunder in the Philippines by turning over the local government there to the natives.

These gentlemen have just returned from a trip to the Philippine islands and report that people there are of the opinion that the United States will now be obliged to get out of the islands entirely or go back to a commission order of things. People are leaving the islands fast and it seems to be the general idea that if left to themselves the natives will gradually drift back to a condition similar to that now in Mexico. "The American element in the Philippines," said Mayor Love, "feels that self-government would be virtually turning the islands into a second Mexico. The general feeling is that this government can take no middle of the road policy without inviting disaster. The Americans cannot let loose and then take hold again. Americans in the islands are dissatisfied with the administration of Governor Harrison. He has made himself unpopular with his own people because he has taken only the Filipinos into his confidence. These Filipino leaders, as a general thing, are grafters and politicians and want the government in their own hands."
