BELIEF MOREHEAD WILL FILE

Democrats All "Biled" Up Over Situation in the Party.

MORE CANDIDATES EVERY DAY

Charles Bryan Said to Be On Verge of Entering Race, as is Mercede and Whole List of Warhorses.

(From a Staff Correspondent.)

LINCOLN, May 14.—(Special.)—Within the next few days, according to more or less reliable rumors, the fight will be on in the democratic party and the gubernatorial race track will be crowded. The candidates will face the starter in about the following manner:—

George W. Herz was the first to enter in the race and put out a platform which he has since discovered was too progressive. In a letter recently written he says

Nebraska.

back on that platform and says it was no platform at all; only just a statement.

Colonel John G. Maher was the second democrat to file and he promulgated a platform which he proposes to stand upon. The main planks of his platform are anti-Bryan, anti-woman suffrage and anti-prohibition. Several well meaning democrats who are afraid that Colonel John will force the democratic party to take a stand for something which means something have been trying to get him to withdraw in favor of Governor Morehead, but the colonel knows a good thing when he sees it and proposes to stay in.

Morehead Changes Mind.

Now comes the announcement that Governor Morehead has listened to the pleadings of friends who think there is little show to elect anybody, and will file within the next twenty-four hours for a renomination on the democratic ticket. His platform will be: "Don't believe all a candidate says when he runs for office the first time, for he is liable to change his mind."

It is also rumored today that Charles

Nebraska.

W. Bryan will file for the democratic nomination for governor either today or tomorrow. Nobody seems to know what his platform will be, but it is rumored that it will favor the endorsement of watchful waiting, favor woman suffrage, prohibition, county option, free trade, anti-Maherism, anti-Bergelson, anti-Moreheadism and a general demand that every man who wants to stay in the democratic party must drink grape juice and follow the orders of the author of the "Prince of Peace."

Petitions are in circulation for the purpose of getting Richard L. Metcalfe into the race for governor. It is not known what "Met's" platform will be, but it is quite evident that it will not endorse the action of the administration in its final choice of a governor of the Panama zone.

Then on top of it all comes word this morning that petitions are in circulation to get W. H. Thompson of Grand Island into the race. This will make only six candidates, but as each one is expected to have a different platform it is not thought that followers of untried democracy will have any trouble in finding something to their liking.

BROKEN BOW COUNCIL CLOSES POOL HALLS

BROKEN BOW, May 14.—(Special.)—The city council has passed an ordinance prohibiting the opening of all public pool halls and bowling alleys and repealing all ordinances conflicting with it. The rules were suspended and the ordinance put upon its first, second and third reading and rushed to a final passage. The pool hall men, through their attorney, maintained that the last city vote did not express the sentiment of a majority of the voters and asked that the ordinance be handled in the regular way in order to give them time to present a properly signed petition. The council refused to grant the request and proceeded to the passage of the ordinance. This virtually ends the fight for the time, and just what the next move will be on the part of the pool hall men has not been given out.

The city is considering the advisability of making a strong bid for a \$10,000 Carnegie library. It owns an ideal location for such a building, and the conditions under which the library could be secured would not be any great tax upon the city.

RECRUITS FROM HASTINGS WORK FLIM FLAM GAME

HASTINGS, Neb., May 14.—(Special Telegram.)—Privates Floyd Carson of Company M, Holdrege, and Ben Bromser of company G, Hastings, Nebraska National Guards after being held under guard in the armory here for a day were this afternoon turned over to Clay authorities to be tried on a charge of flim-flaming Harvard citizens.

Representing themselves as recruiting officers with authority to conscript citizens for the "war with Mexico," they are accused of holding up Ray Debraff, ex-university of Nebraska student, for \$10.25 for which they gave a receipt releasing him from military duty.

They first got \$5 and then on showing a fake telegram signed "General Peck," saying he would have to come across with some more money. Debraff gave them \$2.50 additional.

A man named Benson in Harvard was given three hours in which to pay for his release. He received a sudden call out of town and is still missing. Both Bromser and Carson are recruits.

LOSS OF APPETITE IN THE SPRING

Loss of appetite is accompanied by loss of vitality, vigor or tone, which is a more serious loss. It is common in the spring because at this time the blood is impure and impoverished and fails to give the digestive organs what they need for the proper performance of their functions.

Ask your druggist for Hood's Sarsaparilla. It makes the rich red blood your whole system demands. It is not simply a spring medicine—but it is the best spring medicine.
