HUGH-10:BYS receipts included about 198 cars or 6:80 head, making the total for the five days \$7.73. This is 4,500 smalle, than a week ago, but nearly 4,000 larger than for the same days last year.

The market opened out rather slow this morning, early bids being made at about steady prices. Sellers tried to force a sight advance, but in the end buyers managed to hold values down, and when the offsrings finally began to move prices were in about the same notches as on Thursday. Values were a little uneven, some early asies looking to be a little stronger while others were hardly as good as yesterday, but the general market shows a little or no change. Speculators and shippers made their purchases on practically the same basis as on Thursday. Tops only reached \$2.50, a nickel alower than yesterday, but as a rule the prices paid for best lights showed no change. Bulk was quoted at \$2.50;8.55. At no time during the morning could the trade be called active, and it was well after 10 ocions before the moderate supply was finally cleaned up.

SHEEP—Trade was pretty much the same as on most days of the week and there were no signs of any material improvement in the near future. The buying force appeared in the barn at about the usual time, but were very slow to do husiness, calming values on too high a level compared with general conditions elsewhere. As sellers wanted steady prices it was some time before any trading in either sheep or lambs took place and when the majority of the holdings did move prices generally were steady to easier. The supply was liberal for a Friday and taking this into consideration a good many traders regarded the market as fairly satisfactory. as fourly satisfactory.

On the whole the quality of lambs was, if anything, a little better than on Thursday and Wednesday, but sorting was not quite as heavy. Several cars of Idaho

in the forenoon. The supply of aged sheep, which consisted chiefly of ewes and wethers, was no better than moderate and nothing really good was offered. Included in the first sales were some 30-pound idaho wethers that were disposed at at \$4.60.

Feeding sheep and lambs sold in about

pound Idaho wethers that were disposed at at \$4.50.

Feeding sheep and lambs sold in about the same notches as on yesterday. The demand did not seem quite as broad as a training the force part of the week and as a result the trade lacked the life that characterized the market on the previous days. The supply of yearlinga, seems and wethers suitable for feeder purposes was extremely light, as is to be expected at this time, and the receipts of lambs were very moderate. Early in the foremon some feeder lambs were sood enough to sell at \$6.65, being the top for the day.

Comparing prices with the close of last week, fat lambs are generally regarded as around 25.750 lower, but feeder grades are a little higher the advance amounting to at least 103.15c. Killing yearlings, ewes and wethers are in about the same position as a week ago, while those on the feeder order are anywher from 103.25c higher.

that eastern conditions have been unfavorable. Prices on good kinds of cattle have continued fully steady, the best cattle have continued fully steady, the best cattle sening up to \$1.00. Half fat and warmed up cattle have been slow seliers and ine lesing weak on that kind. A few raings beeves have been received and desirable kinds have commanded good strong prices.

Cows and heiters have been steady practically all the week, there having been very little change in either direction. Strictly good cows and heiters nave commanded strong prices on account of the good demand and moderate receipts.

Stockers and receirs have been good seliers throughout the week, the demand being luny equal to the supply.

four a year ago. BRADSTREET'S TRADE REVIEW

Reports Present Mixed Aspects of Situation. NEW YORK, Aug. 1.-Bradstreets' to-

norrow will say: Trade reports still present mixed aspects with perhaps a sharper tendency to reflect quiet temporarily. In the east high rates for money and tariff uncertainty continue to act as repressive influences, while in the west adverse news of the corn crop has induced some hesitancy.

On the other hand, southwestern advices indicates that house trade has expanded, and feeling as to the future is decidedly optimistic, buoyancy being imparted by the tendency to increase estimates, of wheat yields. At the same time trade in the south appears to be improved and sentiment is certainly better.

As regards the leading crops it seems certain that the wheat yield will be of record proportions, that cotton will furnish a large crop, but that oats, hay and corn will be shorter than last year, when all three were, however, record

and corn will be shorter than the when all three were, however, record

Eight Die as Result of Cycle Disaster;

CINCINNATI. O., July 21 .- A recapitulation of the casualties which followed the crashing of the machine driven by Odin Johnson into the grandstand at the Lagoon (Kentucky) motordrome last night show that the gasoline from the tank of the cycle burned no fewer than thirty-five persons.

Elight persons, three men, three boys woman and a man, cannot recover, according to the attending physicians, seven others are in a serious condition and not yet out of danger, while eighteen others sustained injuries of a more or less serious nature, but were able to take care of themselves following the accident. Herman Davis dled tonight from his burns.

Warrants were issued today at the instigation of the coroner which charged considering that the gas company has voluntary manslaughter and were directed at the three heads of the amuseappearance in police court Saturday. WATERTOWN, N. Y., July 31 -Two

persons were killed tonight in an accident during a motorcycle race held in connection with the "Old Home week" celebration of the village of Russell, St. Lawrence county. The dead are Luther Gilbert, aged 23, motorcycle rider, and Irvin Bartholomew, 40 years of age, a epectator. The race was run through the main

street of the village. Gilbert and Charles Sharpstein, the participants, were speeding at a rate of about fifty miles an hour, when Gilbert's machine struck a crosswalk and hurled him to the roal killing him instantly. Bartholomew rushed into the road to drag the fallen cyclist out of the way, when Sharpstein's machine struck him.

Former State Senator Declared to Be Agitating Postoffice Matter In Order to Discredit Man

He Would Supplant.

As a result of the postoffice axitation friends of Congressman C. O. Lobeck are up in arms over what they are pleased to term an attempt to discredit Lobeck with his constituents John M Tanner, who is said to nourish political ambitions of a high order, is the target for the criticisms of Lobeck's friends.

The Lobeck men say that the congressman has done everything possible in the postoffice agitation and that the attempts of Tanner and the rest to work splendid harvesting returns from the southwest.

The possibility of a strike on the eastern railroads now is more remote, but financial sentiment was disturbed by the reduction in the dividend of a prominent system, although such action was not unexpected. The revenues of a few roads show a failing off, but in the aggregate railway earnings continue to exceed the total of a year ago.

Fallures this week numbered 256 in the United States against 251 last year and thirty in Canada, compared with twenty-four a year ago.

The possibility of a strike on the east-end at Lobeck as if the agitation is aimed at Lobeck rather than at the Poet-office department. The Lobeck men in Omaha and South Omaha say that Tamber wants to go to congress in Lobeck's stead. Tanner formerly was said to have railway earnings continue to exceed the total of a year ago.

Fallures this week numbered 256 in the United States against 251 last year and thirty in Canada, compared with twenty-four a year ago. the object of which seems to be to discredit Lobeck and put him in bad with

Friends of Senator Hitchcock resent the attitude of the agitators toward the senator over whose head, it is said, things are being carried to his whilem editorial writer, William Jennings Bryan.

Tanner's interest in the postoffice matter, it is said, has much to do with the fact that Democratic National Committeeman P. L. Hall has a brother em ployed in the local office. It is thought On the other hand, southwestern ad- that in a campaign for congress Committeeman Hall would be able to deliver much assistance to Tanner if he so wished. Anyway Lobeck's friends say the agitation is to get Lobeck's place for Tanner and nothing else.
