

GRAIN AND PRODUCE MARKET

Outlook Reduces Offerings of Corn and Increases Buying.

CORN CROP REPORT IS SHORT

United States Department of Agriculture Estimates at This Time That Yellow Corn Harvest Will Be Much Deficient.

OMAHA, Aug. 9. (Bee.)—Additional corn crop reports were received in the past few days. These reports developed new buying power and decreased the offerings, which caused the market to be made for the day. There were scattered gains yesterday, but the lowest gains were in the neighborhood of Chicago and not in the corn belt, where they are greatly needed. It is expected that the government report will prove sensational, and it showed a loss for the month of about 200,000 bushels, and 100,000 bushels under conditions which failed to reflect the actual deterioration, as in some of the states the crop is lower than last year's. The corn crop of last year was a big one, 2,831,000,000 bushels, and this year is estimated at 2,300,000,000 bushels.

The buying of corn was general yesterday, and at no time during the present crop scare was any small order buyer required from scattered sections. The weather map showed continued dry, hot weather over the southwest, but cooler and dry in Nebraska and nearly all of Iowa. A letter received from Kearney, Neb., says that business is being affected by the drought here, and that it is common to see fields of grain that were unharmed by the drought. The government report will prove more bearish, and the buyers will be more active than looked for. It is indicated a winter wheat crop of 21,000,000 bushels and a spring wheat crop of 100,000,000 bushels, a combined crop of 121,000,000 bushels, compared with 120,000,000 a year ago.

Oats showed a steadier tone, and this was the general belief that the government report will show a small change for the month. Cash oats were unchanged. Wheat and flour equal to 100,000 bushels, corn, 4,000 bushels and oats, 11,000 bushels. Liverpool closed with wheat 100 bushels and corn unchanged to 100 bushels. Primary receipts were 1,475,000 bu. and shipments were 1,475,000 bu. against receipts of 1,475,000 bu. and shipments of 1,475,000 bu. last year.

NEW YORK STOCK MARKET

NEW YORK, Aug. 9.—The two-hour session of the stock market today was one of development. Reports submitted by trade authorities indicated continued irregularity in various parts of business, varied here and there, and an underlying feeling of optimism. A few noteworthy road returns were submitted, especially that of the Erie for the fiscal year, its net income increasing by over \$4,000,000, with a surplus gain of \$2,000,000. The Erie reported a net increase of \$1,500,000.

PICKING SUCCESSOR PROBLEM

Alabama Governor Announces He Will Call Special Election to Fill Vacancy—Asks McReynolds for Opinion.

WASHINGTON, Aug. 9.—Death early today of United States Senator Joseph P. Johnston of Alabama, who succumbed to pneumonia at his home here, leaves a vacancy in the senate that is somewhat embarrassing to the democratic majority on the verge of the completion of the administration tariff reform program and makes necessary an immediate interpretation of provisions of the seventeenth constitutional amendment requiring direct election of senators.

Loss to Corn Three Hundred Millions

WASHINGTON, Aug. 9.—A loss of 300,000,000 bushels of corn, the nation's greatest farm crop, has resulted from the damage wrought by drought and other conditions since July 1, the government's agricultural experts estimated today in their August crop report. A total production of 2,720,000,000 bushels of corn was predicted. This is 650,000,000 bushels less than last year's crop.

Miniature Balkan War Fought Among Liner's Passengers

NEW YORK, Aug. 8.—Officers of the Cunard liner, Panonia, arriving here today from Trieste, report that a miniature Balkan war occurred aboard almost continuously on the six days' voyage. Among the steerage passengers were several hundred ex-volunteers from the Balkan front, who were returning to their country.
