A Meat Famine

ARGUMENT NO. 5

Government experts have just announced that there is sure to be a meat famine in the United States during the next two years. The Chicago packers have just made the prediction that meat may cost 50c a pound this winter. This means a big increase in the cost of living. It means that the carpenter, the mechanic, the shopman, the cierk will find and added strain on his already thin pay envelope. It means that saving is impossible.

But to the farmer this announcement brings joy. He is a producer. He raises he cows and the pigs. His own meat won't cost him any more and he will get big price for what he sells.

This is the difference between the consumer and the producer. The former pays;

Here is a chance for any city man to become a producer. In western New York we are offering fertile, well improved farms at very reasonable prices. THEY SARE JUST THE THING FOR THE CITY MAN WHO WANTS TO GET BACK TO THE FARM.

These farms raise all kinds of crops in abundance. They are situated at the doors of the great markets. They are in a beautiful, scenic country where country roads are equal to the city boulevards.

You will step right into a permanent, i ncreasing income if you go back to the land in western New York. It is just like getting a better job. A raise in pay in your city job means little; the more you make the more you spend, and you are still liable to be let out at any time.

But if you put your savings into a farm in western New York, you get a business that becomes more valuable with the years and which pays you an added income every year. You will build for the future if you quit your city job and take up farming. In the city your income depends upon the whim of your boss, the labor unions, and a dozen other things over which you have no control. On a farm you are your own boss, you are free to build for yourself and your family. For nine out of ten average city men the future holds nothing. For nine out of ten farmers the future holds weal th and happiness.

We want you, the city men—the me chanic, carpenter, shopman, etc.—the men who have saved up some money, to come and talk to us about this back to the land idea. If your money is in city property we will not trade it for our farms, but we can sell your city property quick ly and let you invest the money in a western New York farm. Come up to our office and see some photographs of western New York, where farm life is like suburban life and where wealth is sure. Or write us and we will send il justrated bookiets telling about this won-

GRAIN AND PRODUCE MARKET

Large Manufacturer Buys Quantity of Argentina Corn.

TO HAVE BEARING ON MARKET

South America is Being Looked To for Importations that Will Lessen the Situation in the United states.

OMAHA, Aug. 15, 19:2.
The bull longs in corn showed more or less uneasiness over the reports that one of the largest corn manufacturing conterns in the world purchased 750.00 outleof the largest corn manufacturing concerns in the world purchased 750,00 outsiles of Argentina corn that is to be brought to New York and manufactured in bond and the product exported. This big concern will continue to take all the available corn in Argentina. The visible supply in that country is now 1,60,00, bushels, with good quantities still in the interior. The bulls is corn argus that Araentina will have very little corn for sale, but men who are well posted on conditions in that country say there will be enough offered to cause a partial reversal of conditions in the United States, where the bull feeling has run rampant for a month or more.

New high prices were made for corn yesterday on the present buil change. Colonel S. B. Christopher, the well known Kansas City grain man, was in Chicago yesterday and taking quite builish on the corn situation. He says that the reacht estimate placing the corn crop of the United States at 2,50,00,000 bushels of corn in this country this year, and it would not surprise me to see that grain seil at SC cents and oats at \$550,00 cents, said Mr. Christopher. Cash corn was belower.

F. E. Woodworth, who is well known in

Mr. Christopher. Cash corn was rolower.

F. S. Woodworth, who is well known in all sections of the grain world, with head-quarters at Minnespoils. Issued a report which was quite friendly to the wheat situation in the northwest. Mr. Woodworth is of the opinion that the spring wheat crop will not be sold from the harvester as generally supposed, but that where farmers are able to hold it they will ask higher prices for it, and he believes they will be able to secure advances later on.

vances later on.

Cash wheat was 1/20 higher.

The returns from the oats crop are very poor, indicating a very low yield.

Cash oats were 1/20 higher.

Clearances: Wheat and flour equal to 826,000 bu. corn. 13,000 bu. and oats, 52,000 bu.

Liverpool closed with wheat %d to %d higher and corn %d higher.

1 mary wheat receipts were 1,235,000 bu. and shipments 1,240,000 bu., against receipts of 1,600,000 bu. and shipments of 1,223,000 bu. last year.

Primary corn receipts were 344,000 bu. and shipments of 489,000 bu., against receipts of 387,000 bu. and shipments of 489,000 bu., against receipts of 387,000 bu., and shipments of 489,000 bu., against receipts of 703,000 bu., and shipments of 784,000 bu., against receipts of 703,000 bu., and shipments of 784,000 bu., against receipts of 703,000 bu., and shipments of 784,000 bu., against receipts of 703,000 bu., and shipments of 784,000 bu., against receipts of 703,000 bu., and shipments of 784,000 bu., against receipts of 703,000 bu., and shipments of 784,000 bu., against receipts of 703,000 bu., and shipments of 784,000 bu., against receipts of 703,000 bu., and shipments of 784,000 bu., against receipts of 703,000 bu., and shipments of 784,000 bu., against receipts of 703,000 bu., against receipts of 784,000 bu. Constitute the only cheap, absolutery good farming land in the U.S., and these ranches are rapidly going into farms. Within 100 miles of San Antonio, Tex., I have for sale a 40,000-acre ranch, rich as Iowa's best, at \$12.50 per acre, 4 cash, long time and low interest on balance. Adjoining farm land selling at \$50 to \$13 per acre. Many artesian wells on this tract irrigating 100 acres each. Another 105,000 acres same quality at \$11.50 per acre. For report, write A. W. Cunningham, Gunter Building, San Antonio, Tex.

Peatures of the Trading and Closing Prices on Board of Trade.

CHICAGO, Aug. 16.—Heavy profit-taking on the part of leading holders acted as a check today on a decided advance in the price of corn. Closing figures were steady, extending from 4c to 4c off to a gain of 4c compared with the previous night. Wheat finished 1604c to 4c net higher, oats unchanged to 1-16c up and provisions increased in cost 5674c to 508 654c. C. H. Krelle, 1622 Doros St. Call evenings. IF YOU want your property sold, list it with W. L. Selby, 1800 Farnam. D. 1510.* Delgoff 3d-hand store pays highest prices for furniture, clothes, shoes, Web. 1897.

higher, dats unchanged to 1-16c up and provisions increased in cost 167% to 508 51%c.

Considering the activity with which bull leaders turned corn options into actual money, the market held up remarkably well. Much of the selling was influenced by a forecast of lower temperatures and possible showers over different parts of the corn belt before Monday. There were rains in Oklahoma and Kansas, but the effect on prices appeared small, the moisture in both states being regarded as too late to save the corn crop.

New high price records for the season, now almost a daily feature, received another slight advance, going above the 75c level, and December almost grased 70c. As against the unloading by prominent speculators here, it was alleged that the southwest and the country districts in general were sticking to the bull side of the market and confident of still higher prices being reached. Best quotations to day, however, were touched at the opening, and there was no important raily from a setback that took place almost at once. Delay in plowing for the winter crop had a buillish influence on the wheat market. There were also Canadian advices of a probable late harvest and of considerable storm damage. In addition, unfavorable weather was reported as prevailing in Europe. Bears took what wheat comfort they could through prospects of a large increase in the visible supply. Longs unloading on an advance wiped out most of an early rise in oats. Sales from the interior were comparatively light.

Provisions ascended on account of purchasing believed to be for European ac-Ship live stock to South Omans. ca.e mileage and shrinkage. Your consignments receive prompt and careful atten-

Iron and Steel Review.

NEW YORK, Aug. 18.—Competition for the business offering to the steel mills last week developed further weakness in steel products, plates, shapes, butt-weld pipe and wire products.

Concessions of another dollar per ton carried wire prices 2 points below the recent level maintained by the largest inforests. There was also some irregularity in other lines, notably in fabricated steel, with scarcely enough business to indicate the true level of the market.

Consumers are conservative and additional buying is likely to be confined to mandatory requirements for the next thirty to sixty days.

The feature to trade in pig iron was the large number of small orders placed and the awakened interest of a few large buyers, the outcome of whose inquiries mean a turning point in the market. Blast furnaces were a little more independent, but prices went up very slowly. It is estimated that merchants' sales last week were about 7,000 ions. Jan. 9 % -10 12% 9 96 | 10 13% 9 90

CATTLE—As is always the case on a Saturday the market was bare of freah supplies of cattie, and there was nothing in first hands to make a market. For the week receipts have been quite liberal, but still the total snows a faling of as compared with last week of not quite liberal, but still the total snows a faling of as compared with last week of not quite still the corresponding week of last year. So tar no dry weather cattle has a appeared at this point direct from the country, but there has been quite a little sprinkling of such cattle that have been purchased by specuators on southern markets and shipped up here to be resold to feeder buyers. United States Department of Agricul-ture, weather, for Omaha for the twen-ty-four hours ending at 8 a. m., 75th meri-dian time. Saturday, August 16, 1913:

markets and shipped up here to be resold to feeder buyers.

For the week the supply of beef steers has been moderate and the market during most of the time in fairly satisfactory conditions as viewed from a selier's standpoint. At the close of the week the market is safely 100 lbc higher on the general run of beef steers than at the close of last week. This would apply not only to cornfeds, but to range seef as well.

Minneapolis ... 61 88 80 .80
Kansas iCty .25 102 74 .00
Omaha ... 17 109 70 .00
The weather continues unseasonably warm in the southern portion of the corn and wheat region and temperatures have risen slightly in the eastern portion. A change to alightly cooler is shown in the upper vallers. A few light and scattered showers occurred in the Minneapolis district and rains occurred in Indiana and Kentucky. A fail of 1.30 inches occurred at Bowling Green, Ky. L. A. WELSH,
Local Forecaster Weather Bureau.

smaller than last week, but a gain of 30 head as compared with the same week last year.

Trace was slow in getting started this morning and when the first sales were finally made prices looked just about steedy with yesterday. Frices paid for shipping hogs were very uneven, some salesmen believing them to be a little stronger, while others thought values showed some decime. As a general thing, however, the market can be quoted as steady with yesterday. Busk of the sales was made at \$7.6521.75. The best price paid was \$2.55, just 25c lower than yesterday. The movement was draggy throughout and it was 10 o'clock before the yards were finally cleared.

With the exception of the last two days the market has been going down fast all week. On the whose, values show a net decline of \$69.55c for the six days. Shipping grades have suffered as much as other kinds, and tops show a decline of 70c compared with last Saturday, itecepts have been moderate all week, but the trade has been slow every day and in most cases values were lower on the close than at the opening.

Treasury Statement. WASHINGTON, Aug. 6.—The condition of the United States treasury at the beginning of business today was: Net balance in general fund, \$129, \$79,705; total receipts yesterday, \$2,88,284; total paymenta yesterday, \$2,88,522. The deficit this fiscal year is \$12,817,622, against a surplus of \$465,123 last year, exclusive of Panama canal and public debt transactions.

OMAHA, Aug. 15.—Bank clearings for today are \$2,073,305.37 and \$2,219.384.55 for the corresponding day last year. Bank clearings for the week ending today are \$15,773.39.22 and \$15,03,255.73 for the corre-

NEW YORK, Aug. 18.—Continued lack of rain in the west and southwest was made the basis of another selling movement in today's early markets. Declines of a point were abruptly registered by St. Paul, Atchison, Rock Island preferred, Union Pacific and Eric and United States Steel also feit the force of the initial impact more can any sher industrial issues, except the issuester issues, which were notably heavy. Some of the minor shares lost as much as two points.

sues, which were notably heavy, come of the minor shares lost as much as two points.

Supporting orders soon brought general recoveries, thereby giving color to the bellef that the pressure had its origin largely in short selling. In final dealings the market gathered fresh impetus and closing prices for the favorites were well above those of the previous day.

Apart from crop considerations the day's news was favorable. The mercantile authorities are agreed that business in general is holding up well, with a promising fail outlook and the effect of tariff revision largely discounted. In some lines of trade, however, it is clear that business has become more mixed. London markets were again steady with a higher range for our stocks and some moderate buying here of the laternational group, chiefly Union Pacific. Money is becoming easy in London, but all talk of an early reduction in the bank rate is deprecated, as is the suggestion of new underwritings. The Berlin market continues to show signs of weakness.

The only feature of the local bank statement was an actual cash lose, instead of the moderate gain looked for Actual loans showed a nominal increase by over \$7,000,000.

Today's bond market was irregular. Total sales, par value, were \$581,000. Government bonds were unchanged on call during the week.

Number of sales and leading quotations on stocks were as follows:
