GLYNN DECLARED GOVERNOR

Lawful Executive Pending Outcome of Impeachment Proceedings.

ATTORNEY GENERAL RULES

Activities of Rival Subnational Camps Center Largely About Escape of Thaw and Meeting of Building Board.

ALBANY, N. Y., Aug. 19.—Lieutenant Governor Martin H. Glynn is the lawful chief executive of New York state pending the outcome of the impeachment proceedings against Governor Sulzer...

When the governor is impeached by the assembly, "says the opinion, "all of his powers are automatically suspended until he has been acquitted or the impeachment proceedings dismissed by the court of impeachment...

The activities of the rival gubernatorial camps during the day centered largely about the escape of Harry K. Thaw from Matthew and the meeting of the Public Building board to open bids for reconstruction work in the capitol.

The policy adopted by Mr. Sulzer of screening his official acts from the public was rigidly adhered to today.

Principles Laid Down. Attorney General Carmody's opinion with reference to the statutes of the governorship and the authority of the legislature, lays down these principles:

"After the impeachment of the governor by the assembly, the powers and duties of the office devolve upon the lieutenant governor until the disability shall cease.

The term 'impeachment' is used in this connection in its ordinary sense and means the presentation of charges.

The assembly is not precluded from the exercise of its constitutional powers by the fact that at the time the legislature of which it forms a part is convened in extraordinary session for other purposes.

The attorney general finds that the claim that the assembly was without authority to institute impeachment proceedings is clearly based upon a misapprehension of the nature of the functions of the assembly when adopting and presenting the articles." He adds:

"This is no sense a legislative function; it is judicial."

SON GYPSIES STOLE RESTORED

Frederick Brosseau, Kidnaped Seventeen Years Ago, Found.

IDENTIFIED BY A BIRTHMARK

Deserts from Band of Nomads and Takes Refuge with Monks, Who Report Matter to Montreal Police.

WATERTOWN, N. Y., Aug. 19.—Word reached here today that Frederick Brosseau, aged 33, who was kidnaped by gypsies nearly seventeen years ago, has been restored to his parents, Mr. and Mrs. John Brosseau of Sisseton, N. Y. They had long mourned him as dead.

On October 14, 1894, when but 7 year old, young Brosseau left home to meet his father at the edge of the village. This was the last seen of the boy in Sisseton.

About a week ago, a young man deserted from a band of Gypsies in the Canadian wilds and took refuge with the monks of Oka, whose isolated monastery is forty miles from Montreal. He could remember nothing of his history previous to becoming a member of the band except that he had been called Fred and that his former home was in northern New York.

The presence of the wanderer was reported by the monks to the Montreal police and an aunt of the young man recognized his picture in a newspaper. The parents were notified and went to Montreal where they positively identified Brosseau by a birthmark. He is being detained by the police as a witness against some of the gypsies who are under arrest charged with kidnaping.

Won't Take Spouse Back, Thrown Into the Pacific Ocean

SAN FRANCISCO, Aug. 19.—"What did your husband do to you?" asked the desk sergeant of Mrs. H. Martin, when she inquired at police headquarters today how to get a warrant for his arrest.

"He threw me off the cliff into the ocean," answered the young woman, without any show of emotion.

Told at greater length, Mrs. Martin's story was that she was estranged from her husband, but that last night he called her on the telephone and asked her to take a walk with him on the beach. She consented and they talked over their differences until they had reached the Cliff House.

"So you won't take me back?" asked the husband.

Mrs. Martin said her next sensation was one of rapid descent and she was struggling in the breakers, at the foot of the cliff.

committee, alarmed by the apparent gravity of the situation, hurried down to the White House to ask for a conference with President Wilson. There seemed to be a division of opinion among them as to whether Minister Urrutia's communication was authorized.

"I got the machine," continued Daga, "and rode around in it all day, calling up O'Brien from time to time."

"Do as you please," I said. "I'm going and I'm going alone. I've got too good a family here. I've got to think of them. I've got lots before me in this town and I want this to blow over."

"I went into hiding. What O'Brien told me, on top of what Dipenbrock had said, scared me. I told O'Brien I'd heard my father was looking for me 'with a policeman and he said that was true."

Senators Lodge and Stone were shown the following telegram to Secretary Bryan from Charge O'Shaughnessy dated last night and received at 4 a. m. today:

"The correspondents have cabled that Mexican government has stated that its note to Lind demands that the United States recognize the Huerta government before 12 o'clock midnight today or a statement practically to that effect."

The senators conferred briefly with President Wilson and as they left the White House, said they were satisfied that alarming reports were not justified.

Wet Skirt Causes Short Circuit and Miss Westly Killed

NEW YORK, Aug. 19.—Miss Margaret Westly, 21 years old, was killed today at Edgemont, L. I., when the wet skirt of her bathing suit caused a short circuit with the third rail of the Long Island railroad tracks which she was crossing to reach her home.

While in the surf, Miss Westly was taken with a chill and hastily started for her home. She had to cross three tracks, the third rail of each unprotected. Having crossed one track she was about to step between the third rails of this and the third rail of the middle track when the current leaped to her wet skirt from the live rail of the first track and dragged her across the rail of the middle track. The body showed but slight burns on the elbows and the left hand.

Depositories Are More Than Doubled

WASHINGTON, Aug. 19.—Depositories in which the government keeps its money to pay current expenses have more than doubled in number since February 1.

The increase is the direct result of an order by Secretary McVeagh that all drafts on government funds be drawn on the treasury. This necessitated an increase in depositories so that the funds would be more easily deposited.

The \$50,000,000 to be deposited in the agricultural states this month will further add to the number of depositories and United States Treasurer Burke expects there may be more than 1,200. Many, however, will only be temporary.

Bertallo was put in the Millard county jail at Delta, Utah. The two wounded men were brought here. A quarrel over money was said to have caused the shooting.

STOCKS THINNING AT HALF PRICE

Brooks, Clothier, Pushes The Stock Reducing Idea to the Very Limit.

Doesn't Want a Summer Suit in the House in a Few Weeks From Now.

"Brooks," the Clothier in The City National Bank Building at 16th and Harney streets, employs modern, progressive ideas about "moving" a stock of Spring and Summer clothing.

"Brooks" is one of the very few clothiers who is willing to let a suit go at "Half Price" without experiencing a heart pang; Brooks figures the first loss is the best; he doesn't want to see this season's clothing on his tables NEXT season; he is making every possible effort to avert such a happening.

THAT'S the reason "Brooks" has created nothing short of a sensation in clothing circles by continuously offering 50 suits at \$10; 25 suits at \$12.50; 20 suits at \$15; 45 suits at \$17.50 and 30 suits at \$20.

And his Hats, Furnishings, etc., are going at the same apparently reckless proportion of reduction; it may all seem unbusinesslike, but Brooks' way generally wins out.

"No summer stocks for me in winter; I prefer putting the money in NEW winter goods," says Brooks.
