so very much lower, with a good many of the beeves, however, selling 10gibc lower.

Cows and heifers were generally quoted as 10gibc lower, the trade being rather slow and dull, so that the day was well advanced before a clearance was effected. Stock cattle and feeders were in pretty good demand, but buyers took advantage of the large receipts to force a decline of 10gibc as compared with last week's close. This means that stockmen and feeders are now 25000 lower than on Monday of last week.

Cook County Hospital Full of the Relatives of Public Officials

CHICAGO, Sept. 8 .- The Cook county hospital, with a capacity of 1,900, is kept so full of county and city officials, their wives and their friends, that there is no room left for the indigent patients for whom it was intended, according to charges made today by County Agent Meyer, in charge of the hospital.

The charge was made after County Commissioner Frank Ragen had attacked Walter Wieskowski, an investigator kept at the hospital to keep persons of means from gaining admission to the institution, and depriving poor persons from needed attention. "Admission to the hospital formerly had

been by card of a county commissioner." said Meyer, "and Ragen attacked the investigator when Wieskowski refused to admit a well-to-do patient with Ragen's card. "In the maternity ward more than it

per cent of the cases are the wives of city police or firemen.

"A balliff had his father deed all his property over to him and then had the father admitted to the hospital, where he expected the old gentleman to spend the rest of his days. "A city policeman was just discharged from the hospital when we learned that

he owned flat buildings giving him an income of \$300 a month." Cody Defeats Emmet.
