GRAIN AND PRODUCE MARKET

Scattered Liquidations in Corn Bring On Market Weakness.

CASH WHEAT IS UNCHANGED Output of Flour for Last Week Was Considerably Heavier Than That of Last Year, but Han No Effect on Cereal's Price.

OMAHA, Sept. 11, 1918.

OMAHA, Sept. 11, 1915.

Scattered liquidation in corn during the early part of the session yesterday, which was supplemented by seiling on the part of the same class of professionals, who have made so many attempts of late to bring about a sustained break, was responsible for a considerable show of weakness, but the inherent strength which has manifested itself for some time past became reonounced late in the day which has manifested itself for some time past became pronounced late in the day with the result that all of the early losses were recovered and closing prices were fully as high as those of the preceding day for the deferred futures, while the September delivery showed an advance of %c. Just why any bear's interpretation should have been put upon yesterday's government figures some of the most important authorities in the trade falled to understand, and they were of most important authorities in the trade failed to understand, and they were of the firm belief that the trade at large will finally realize what the actual situation surrounding the outcome of the crop is. Some interests feel convinced that the maximum receipts have been seen on the present movement and point out that the short interest in the market is still of enormous proportions in all deliveries. Cash corn was unchanged to ic higher. According to the Northwest Miller the Minneapolis flour output last week decreased 75.300 barrels. The output for the week ending September 5 was 313.300 barrels, against 28,700 in 1912, 297,400 in 1911 and 336,200 in 1910.

rels, against 236,700 in 1912; 257,400 in 1911, and 236,200 in 1910.
Minneapolis and interior mills last week made comparatively heavy flour sales. The increase over the preceding week was quite marked, a large number of both jobbers and bakers placing fair gized orders.

jobbers and bakers piacing fair gized orders.

The weather during the week has been favorable for harvesting in the northwest. Wheat is generally cut and threshing is making good progress. The president of a big elevator company today estimated that half the wheat in North Dakota has been threshed. Cash wheat was unchanged to '4c higher.

Oats shared relatively in the firmness displayed in other grains yesterday. The shipping demand continues of good proportions and while the speculative trade is not large, the undertone is fairly firm, although the professionals still assume an independently bearish attitude. Cash oats were unchanged to '4c higher.

Clearances: Wheat and flour, equal to 1H,000 bu; corn, 5,000 bu; oats, 2,000 bu. Liverpool close: Wheat, '4674d lower; corn, '4d lower.

Primary wheat receipts were 1,653,000 bu, and shipments 783,000 bu, against receipts of 2,038,000 bu, and shipments of 1,676,000 bu, and shipments 521,000 bu, against receipts of 807,000 bu, and shipments of 539,000 bu, last year.

Primary oats receipts were 800,000 bu, last year.

Primary oats receipts were 800,000 bu, and shipments of 1,000 bu, and shipments of 539,000 bu, and shipments of 539,000 bu.

last year. Prinary oats receipts were 800,000 bu. and shipments 855,000 bu. against receipts of 1,142,000 bu. and shipments of 1,041,000 bu. last year.

Prices on Board of Trade.

CHICAGO, Sept. 11.—Assertions that the Canadian tariff changes need not wait for the assembling of Parliament in January, but may be put in force at any weekly meeting of the cabinet had a bearish effect today on the wheat market here. The close was weak, %c to %@ic under last night. Corn suffered a net decline of 1%c to %@ic; oats finished %@ 1%c down and provisions off 7%@%c.

News regarding the outlook for early entry of wheat shipments from Canada, duty free, appeared to be in flat contradiction of latest advices of the previous day, but was generally accepted as true, and was acted on accordingly. Absence of export call, aside from a little on weak spots, counted further against values, as did the slackness of merchandising demand.

Although wheat rallied somewhat at times the market falled to hold, and each time sagged lower than before. Bearish cables, big receipts from the spring crop and rains that improved the prospect for fall plowing were among the factors responsible for the defeat of the bulls.

Corn could not stand up under the aggressive selling by the leading short, especially as longs of various degrees were unloading to a considerable extent. Rain reviving pastures had a good deal to do with the weakness. The best recovery was due to predictions of frost for South Dakota and Minnesota, but advices came from those states that the crop there was for the most part out of danger. Reports were current that a large amount of oats would be shipped into the United States from Canada. As the actual difference between Winnipeg and Chicago prices amounts to about 16 cents a bushel the effect on the market here was outse decreasing.

Chicago prices amounts to about 10 cents a bushel the effect on the market here a bushel the effect on the market here was quite depressing.
Provisions went decidedly lower on account of continued weakness in the hog market. Pork fell sharply under the \$20.00 level. There was a good deal of selling pressure from packers.

NEW YORK STOCK MARKET

UNDERTONE THROUGHOUT GOOD Frading Lacks Vigorous Tone of Preceding Day, but There is No Severe Pressure of

NEW YORK Sent II.-Speculation was colorless today, with a narrow move-ment downward. Trading lacked the vig-orous tone of yesterday, but there was no evere pressure of stocks and the small tectine which occurred was due largely o realizing sales following the rise of the arreceding session. It was a gay devoid of important developments. The under-

preceding session. It was a day devoid of important developments. The undertone throughout was good.

Union Pacific's buoyant rise of yesterday made it a target and it showed a loss of nearly? points at its low figure. Although yesterday's rise was based on rumors of a cash bonus for stockholders, the quotation was not affected by announcement that the directors had taken no action to distribute the proceeds of the sale of the road's Southern holdings.

In the afternoon there was increased selling of Steel and Amalgamated, but toward the close the market stiffened. Sentiment was cheerful. The favorable showing of the steel and copper statements, ending of the drouth in some portions of the corn belt, and the recent improvement in the investment market all were referred to as indicating a betterment in fundamental conditions. Weakness of the grain markets was said to be the basis for bidding up the grangers in the late trading.

Money rates held steady around recent levels. A larger outflow of cash to the interior reflecting the normal autumn demand, is expected. Banks put out most of their demand, but showed some inclination to make concessions in acceptance of high-grade mercantile paper.

tion to make concessions in acceptance of high-grade mercantile paper.

Bonds continued to show irregularity, with signs of profit-taking in some speculative issues. Total sales par value, \$1.315,000.

United States bonds were unchanged on call.

market or packing hogs nonlike lower than yesterday's close.

There is not much to be said regarding the market on shipping loogs. Yesterday morning the shippers look the lead and bought their hogs very much higher than the day before, as noted above, but today the shipping demand was very much lighter and the shippers did not cut so much figure in the trade. For that reason it is a very difficult matter to say just how much lower the market really is, but no one will question the assertion that such hogs as shippers did buy were as much as 5c or more lower than the extreme high prices of yesterday recring.

The trade was active and received.

were as much as 35c or more lower than the extreme high prices of yesterday the extreme high prices of yesterday prorning.

The trade was active and practically everything in the yards changed hands by 10 o'clock in the morning. The bulk of the hogs sold at \$7.7807.80, with thy best shippins hogs at \$8.30, as against a top yesterday of \$8.7a. It might be mentioned in this connection that the quality of hogs was not so good as yesterday, that is there were not so many toppy loads of hogs on today's market. This fact will account in part for the lower range of prices on shipping grades.

It would be well for shippers to note the wide range of prices on light hogs the best lights selling at the top of the market, with common light at or very near the bottom. The fact is that there is rothing coming to market that is any harder to sell than common loads of light weights, as they are discriminated against very strongly by all buyers.

### Autoists Charged With Breaking City Street Gas Lamps

City Gas Commissioner Joe Butler and his assistant, "Buck" Taylor, have complained of reckless automobilists who batter down gas light posts, break the lamps and raise general havec by jump-

"At thirty-sixth and Harney streets the gas lamp post has been knocked down twice," said Taylor, "simply because the auto drivers run right over the curb, strike the iron post and smash it. The same thing has happened with several lights in different parts of the city,"
