## TO TEST THE INITIATIVE LAW Mann Drops Bomb

Street Car Company to Make Vigorous Attack Upon It.

FIGHT BEFORE THE ELECTION Legal Battle Will Be Waged Against Seven-for-Quarter Car Rides Ahead of Submission for People's Ballot.

By instituting legal proceedings law, on the assumption that the sate legislature cannot delegate its legislative authority to the people, the street rail-way company will, it is understood, atof seven street car tickets for twentyfive cents. Failing in this test of law. the ordinance itself may be taken to the courts on the question of fact as to HISLOP TELLS OF TORNADO whether the ordinance is confiscatory

City attorneys informally discussed the point raised over the constitutionality of the initiative with an attorney of the street railway company, One city at-

torney said: "In my mind there is a question as to Churches that Were Damaged by power to pass ordinances, but there is nothing in the constitution which gives the legislature the right to confer legislative authority on the people."

If the ordinance providing for the sale of seven tickets for a quarter is adopted at the special election at which it will be submitted, along with the home rule charter, the street rallway will lose its opportunity to test the initiative and throw out the ordinance on that ground Hence, it is argued, the first fight will be made before the election.

The street rallway company will also attack the ordinance on the ground of insufficiency of petition, illegality of signatures and misrepresentation of the circulators, who secured signers to the petition. The petitions for the initiation of the ordinance were fathered by the socialist party.

AID GIVEN 'TO THE SUFFERING

Wind Will Come Out of Ordeal Stronger Than Before, Due to Help Furnished. (From a Staff Correspondent.) LINCOLN, Sept. 18 .- (Special.) -- Dv. Ed-

ward Hislop, reporting for the Omaha district to the Nebraska Methodist conference, today gave the story of tornado relief for the churches under his supervision. After commenting on the death of Cassius Shimer and all the members of the Daniels family save one, Dr. Hislop said: "But if the tornado will long be re-

membered, even longer will it be remembered the generous sympathy and relief that came to stricken Omaha. From city hamlet and farm gifts of money, coithing foodw and furniture poured in. The appeal of the conference board of home missions and church extension for our stricken churches was generously responded to. When the drouth in some sections is considered the giving represents heroic sacrifice. The total fund for the restoration of Methodist churches amounts to \$6,087.65.

Work of Restoration. "The work of restoration has gone steadily forward. Trinity church, under the leadership of Thomas Bithell, has been restored, not as it was, but nearly so, at an expense of \$6,000. So far they have received \$2,568.33 from the relief. fund. McCabe has not begun to rebuild, but is making the best use it can of the damaged building. The reason for delay is that a feeling has grown up that the new McCabe must be a much better church than the old.

"The demolishing of a dwelling by the tornado threw onto the market at a sacrifice figure the lots just west of the church. Brother Underwood and his official." alert trustees bought the ground. No one who looks the situation over with an eye to future Methodism in the growing district beyond Forty-first and Farnam can doubt the wisdom of the purchase. Mc-Cabe has up to date received \$2,067.79 from the relief fund. Southwest chapel is to be rebuilt, work on the basement being already under way. This church was entirely destroyed by the tornado. The new church will be of concrete blocks, costing about \$3,000. They have received up to the present time \$1,050 from the relief fund."

"Raiston, though the church building was not damaged, was so crippled by loss of its industries for four or five months that relief of \$100 from the relief fund was given the church on pastoral support. In addition all of the above churches received aid from the general Board of Home Missions and Church Extension at Philadelphia, appropriated out of funds collected by the board for tornado and flood relief.

"Public or quasi-public gambling Omaha cannot be tolerated during Ak-Sar-Ben festivities or at any other time. Even the man of very dense mind must realise that the sentiment here against gambling is of the very strongest character. That there is gaming of a kind to invite or catch the ordinary man-that is open and public-is not a fact, but even where there is a suspicion of substantial violation of the state and city laws against gambling it is going to be removed. It may be necessary to detail special men to watch the alleged gambling joints, and if so that will be done. Anything like public gambling cannot be conducted in Omaha.

'Of course, in a city like Omaha there will always be a certain element' looking for a game,' and they will get it from men whose main bushness is fishing for suckers; but that sort of thing is appradic. Chief Dunn is a man who has my full confidence, and this morning his instructions as to suppression gambling were amplified to that extent 1. am confident even the sneaklest game will find little to feed on. The intimation that the authorities are 'in' with whatever gambling has been going on is absolutely without foundation, so far as the police department is concerned, and I do not believe it is true of any public
