SONS OF VETERANS ELECT CURRENCY MEASURE

John Sautter of Pittsburgh Named Commander-in-Chief.

BEERS MAKES ANNUAL ADDRESS

Eleven Thousand Mombers Died During Year and Membership is Now Hundred and Eighty Thousand.

CHATTANOOGA, Tenn., Sept. 18 .- John autter of Pittsburgh was elected late to. day commander-in-chief of the Bons of Veterans, in annual session here. Other officers chosen were: Harry L. Streit, Baltimore, senier vice commander; Robert W. Bless, Chattanooga, junior vice mander, and Henry F. Weiler, Bos-William B. Moynthan, Rochester, and Charles C. Behnte, St. Louis, mem-bers of the council-in-chief.

Indications are that the selection of mander-in-chief of the Grand Army of the Republic to succeed Alfred B. Beers, will be between Captain C. E. Adams of Superior, Neb., and Washington Gardner, of Michigan.

Bleven Thousand Deaths in Year. More than 11,000 union veterans of civil war died the year ending December 31, last, and more than 180,000 such veterans are still on the rolls of the Grand Army of the Republic, acording to Alfred B. Bezrs, commanderchief of the organization, who delivered is anoual address at the reunion here

The year started with a membershi of 191,346, Mr. Heers shid, and 14,779 were added to the rolls by muster, transfer and reinstatement. The losses were as fol-lows: By death, 11,228; by honorable discharge, 435; by transfer, 1,764; by sus-pension, 6,976; by dishonorable discharge, sixty-three; by delinquent reports, 4,283, and by surrender of charter, 1,039, making a total loss, partially offset by gains, of 5,698. The rate of mortality, based on the membership, was 6.28 per cent.

Discrimination in Railroad Rates. Another topic discussed at some length by Mr. Beers was the alleged discrimingtion in railroad rates to Chattanooga between the Grand Army and the confederate veterans, who held their reunion here in May. 'It would appear." he said, that the services of the veterans of the union army and the consideration due them are held lightly in the estimation of the railroad authorities." The railroads of the south, however, gave the same rate to both camps of veterans, Mr Beers added, the alleged discrimination eing in the north and against the union eterans. In this connection, he said:

Rate of Cont a Mile. "The Southern Passenger association, omposed of railroads east of the Ohio iver, gave the same rate to the union eterans that they had given to the confederate veterane in May of this year, in the Bulkans. amely, I cent per mile. The remaining ssociations, except the Trunk Line astranscontinental lines, fixed a rate at 2 facing. cents po rmile, which is, I believe, a In or higher rate than the Grand Army has saw 4,000 wounded men lying paid in some years. Included in the associations making the charge of 2 cents mile, was the association operate, in Missouri and Kansas and perhaps other states, which made a rate for the confederate veterana' re-union of 1 cent per mile. The railroads the full regular fare to Washington, the the Red Cross of that country." Governor's island in New York harbor.

a comparative short distance from the Fassenger association, which rate is in financial district, has only a small detail of soldiers. The financiers petitioned that it was the course of wisdom to have that force increased so that the course of the prices regularly charged for excursion tickets good for ten days, and largely in excess of mileage book to have that force increased so that the rates good for at least one year."

Mr. Beers urged that the pension cor mittee present a bill to congress grant-ing a pension of \$75 a month to veterans who are blind. He also recommended Meet Here Friday the law providing the widows of verthat an effort be made to have repealed erans who married after June 17, 1890, should not be entitled to pensions. "The most of us are conversant with

the causes that led to the passage of that law," he said. "It was a necessary and a proper law then, but since tha time many honorable, kindly and affectionate women have married veterans from the purest of motives and minis tered to them in their last hours. It is midnight every night before they adme an injustice that such noble women journ. ould be made to suffer with the irresponsible class that the law was designed to reach. Surely a law can be framed that will separate the wheat from

speech on the currency bill just passed by the house "Banks exist for the accommodation of the public and not for the control of business," he said, and added that in that sentence was a fundamental truth on which all banking legislation should be founded. It was the keynote of the

secretary's apeach "We have had for two generations," he ntinued, "legislation on banking systems, but they have been, almost universally framed in favor of the bankers. There can be only one purpose in placing money in banks; that is to get it out again. If you think otherwise, suppose you draw up a paper on this subject."

Mr. Bryan declared Congressman Glass' speech on the currency bill before the democratic caucus left little or nothing to be said on the subject by him or anybody else, and he recommended it to the members of the banking institute for reading. He sald the plan to form regional reserves for the more equal distribution of the money of the countryfor the decent realization of nationa finance—was a step in the right direction

"The Owen-Glass bill was not drawn with the idea of centralization. There has been too much centralization. There has been too much Wall street. I am in favor of this system of regional banks, for in it I see help for the smaller

"It has been objected that the government should not issue the money of the country. We hear such objections only in times of peace. In times of war there noney. It must be the government, Your legislatures enact laws whereby shall be hanged; and do you tell me that this government has no right to control bank?

The secretary regretted that pressure of time compelled him to leave abruptly and departed amid cheers.
