Cash wheat was 2 to le higher. Corn and the cor OMAHA, Sept. 29, 1913.

The pressure of the Russian wheat was credited to the demand of the bankers for a general unloading of farm products

for a general unloading of farm products to meet the outstanding obligations of the farmers of that country. It is said now, however, that the Russian government has taken the matter in hand and that it has accorded the grain growers further time in which to settle with the bankers of that country.

Last week the lowest prices of the crop year were recorded in the American. Canadian and most of the European markets. This weakness has come largely from a general bearish feeling, because cash handlers have refused to take hold of grain, as the supply in the world is larger and it is especially heavy in the more important exporting countries.

Cash corn was unchanged 4c. The

Cash corn was unchanged 14c. The outs market followed corn last week and traders are inclined to feel bearish on oats, unchanged 14c. Clearances: where and flour equal to 1.100,000 bu.

Liverpool close: Wheat, unchanged to specu sort. So lower. Corn, %c lower to %c higher.
Primary wheat receipts were 2,473,800 bu, and shipments 1,205,000 bu, against receipts of 2,710,000 bu, and shipments of 947,000 bu, iast year.
Primary corn receipts were 1,270,000 bu. and shipments 515,000 bu, against receipts Primary oats receipts were 1,280,000 bu. Seg.000 bu, and shipments 670,000 bu, last year.

CHICAGO GRAIN AND PROVISIONS

Features of the Trading and Closing Prices on Board of Trade.

CHICAGO, Sept. 29.—Belief that the crest of the big movement of wheat in both the American and Canadian northwest had gone by had a bullish effect today on prices here. Largely in consequence the market closed firm at %47%c net advance. Corn finished %47%c to 1%c not higher, and cars with a gain of %47%c. In provisions the outcome was irregular, strung out from 10c decline to a rise of 30c. Prices on Board of Trade.

irregular, strung out from 16c decline to a rise of 30c.

Despite the fact that wheat arrivals at Winnipeg, Minneapolis and Duluth since Saturday aggregated about 5,000,000 bushels, the greatest run on record for an equal period, all markets seemed to find plenty of buying orders at very moderate reactions. Some of the eleverest leaders in the Chicago trade were deserting the bear side and purchasing to secure profits on short lines. Revival of export orders counted also in favor of the bulls, as did a falling off in the visible supply. Weak cables gave the wheat market a downward turn at the outset. This influence, however, was more than offset later by news that there is no wheat available for first half of October shipments from either Galveston or New Orleans.

Orleans.

Wet weather that tended to delay farmers' deliveries helped to encourage the buying of corn. Shippers here were active to an extent which seemed to indicate low stocks in many sections.

There were also Missouri reports of much damage to corn in shock.

Oats showed independent firmness, due to speculative buying of an influential sort. Sales came only from scattered sources.

Liquidating sales of October depressed

Liquidating sales of October depressed Orleans.
Wet weather that tended to delay

Sources.

Liquidating sales of October depressed ribs. Otherwise the provision market appeared to keep chiefly in view the upward slant of prices for hogs.

hands at not far from steady figures but on the bulk of western range beeves trade was slow and prices ranged from weak to fully a dime lower than last

The proportion of cows and hiefers in the receipts was not large, and for this reason prices showed very little change as compared with last week's close. Destrable helfer stock was fully steady, but some of the medium and common stock sold 5gifto lower than last week, although the demand was broad and everything the demand was broad and everything was cleared up in good season. Veal calves were scarce and firm and the market for stage, etc., was just about steady. Yard traders carried over about 2,500 from last week, and with a liberal number of cattle on hand this morning, trade was somewhat draggy and the trend of values somewhat lower on all but the more desirable grades. Competition for the choice, fleshy grades was keen and best cattle here sold up to \$3.50, or as high as any time this season. On the ordinary run of light and medium weight cattle the market was generally all of a dime lower than last week, and in some cases more. Wet weather made trade rather draggy, but the movement was fairly free under the circumstances and indications were favorable for a very ndications were favorable for a very

indications were favorable for a very fair clearance.

S feeders. 1110 S IB

HOGS—The week opens out in good shape. With the first day's market recording an advance of fully 5@10c. First sales made this morning were no more than a nickel higher, but values improved steadily and at one time looked to be all of loc higher. Trade was fairly active throughout and everything had been sold by a little after 3 o'clock. Hulk of the sales was made at \$3.008.35. Shippers bought several loads of mixed and butcher stuff, but there were no good lights on sale and the best price paid was \$4.0.

An outstanding feature of the market all of last week and the first of this has been the wide difference between the quality of the light and heavy weight stuff. Heavy hogs have been pientiful and the quality of the more weighty offerings is excellent, while lights of any kind are scarce and nothing real good has showed up for over a week.

Receipts today amounted to about forty cars, or 2,700 head, being about 500 head smalligh than both last week and a year ago.
