

**Stork and Cupid Cuning Plotters**

Many a New Home will Have a Little Sunbeam to Brighten It.

There is usually a certain degree of dread in every woman's mind as to the probable pain, distress and danger of childbirth. But, thanks to a most remarkable remedy known as Mother's Friend, all fear is banished and the period is one of unbounded, joyful anticipation.

Mother's Friend is used externally. It is a most penetrating application, makes the muscles of the stomach and abdomen pliant so they expand easily and naturally without pain, without distress and with none of that peculiar nausea, nervousness and other symptoms that tend to weaken the prospective mother. Thus Cupid and the stork are held up in veneration; they are aided as cunning plotters to herald the coming of a little sunbeam to gladden the hearts and brighten the homes of a host of happy families.

There are thousands of women who have used Mother's Friend, and thus know from experience that it is one of our greatest contributions to healthy, happy motherhood. It is sold by all druggists at \$1.00 per bottle, and is especially recommended as a preventive of falling breasts and all other such distresses.

Write to Bradford Regulator Co., 155 Lamar Bldg., Atlanta, Ga., for this very valuable book to prevent miscarriage. Get a bottle.

**The Bush & Lane PIANO**

Every piano buyer should investigate the wonderful improvements made in piano building, as are found in the construction of the Bush & Lane piano.

These improvements are so practical and can be so clearly understood that, when explained to them, the most inexperienced can readily see why the piano they buy should be made by a progressive factory like the Bush & Lane Co. The wonderful Bush & Lane scale combined with skilled workmanship and the best material obtainable produce a piano with the fine tone and wearing qualities that are found only in pianos of the higher grade. Each piano stands as a monument to the piano making genius of the Bush & Lane organization.

**Best Baby in the World is Little Miss Catherine Corr**

Catherine Corr.

"I've got the best baby in the world." It is the confident statement of every mother since the world began, and Mrs. M. D. Corr of Onawa, Ia., is the only mother that can make the statement and have the best doctors in the country back her up. Little 3-year-old Catherine Corr was one of 258 other babies entered in the sweepstakes event in the baby contest at the Interstate fair held in Sioux City, Ia., and was the unanimous choice of the judges' committee for the champion baby in Iowa, Nebraska or South Dakota. Her score was 99.7, or four-tenths of 1 per cent better than the little Grand Rapids, Mich., miss heretofore touted as the world beater.

Little Miss Corr would have been given a perfect score, it is declared, had she not been exposed to miasma usual three-hour afternoon nap and therefore lost three-tenths of 1 per cent in the mental field. In this she always excels, but on account of loss of sleep she appeared a trifle dull during the contest and her grade was cut. Mrs. Corr says Catherine was reared just like millions of other babies. She was a breast-fed baby for the first year and except for minor child sickness she has never had any serious trouble. "When Catherine was born Mr. Corr and myself decided to bring her up sensibly," said Mrs. Corr. "She always sleeps alone in a well ventilated room—windows open winter and summer—and plays out of doors as much as possible. While we watch over her carefully, we never accord her any scientific care. A restricted diet, long afternoon naps, very little peeing between meals and regular habits seemed all that was necessary to keep her in good health." Teach, eyes, shape of the head, lung power, intelligence, sturdiness of legs and digestion were the points taken into consideration by the contest judges. According to the physicians in charge and members of the Federated Women's Club the score made by Catherine Corr is the highest ever achieved in contests under the rules of the American Baby Health Contest club.

**Danish Brotherhood Tenders the Supreme Officers a Banquet**

At a banquet, tendered the supreme officers of the Danish Brotherhood, Thursday night, about one hundred of the representative Danes of Omaha were present and an enjoyable evening was spent. The supreme council of the Danish Brotherhood has just completed their annual auditing of the officers of the brotherhood and, according to the reports made, the organization is in a splendid condition, there being a steady gain in membership which is now over 2,000 members, while the reserve fund is nearly \$20,000. The lodge counts local

judges in nearly every Danish organization in the United States. The executive committee, in session consists of: Supreme president, T. P. Nielsen of Seattle, Wash.; supreme vice president, S. Iversen of New Haven Conn.; supreme secretary, J. Michaelson of Omaha; supreme treasurer, Rolf Ras museum of Chicago, Ill. Supreme trustees: Henry Gydeman of St. Paul, Minn.; Fred Peterson of Council Bluffs, Ia.; Alfred T. Jorgensen of Oakland, Cal. Supreme President Nielsen dwelt considerably on a question of much interest to Omaha and the thousand members of the local organization, namely as to the location of a centrally located club house and lodge building, large enough to house all local Danish lodges, societies and associations. A building that also could serve as headquarters for the supreme officers of the brotherhood. He recom-

mended highly the work already done by the local committees in charge of same. The Danish Building society has recently been incorporated and shares are now being rapidly taken by the Danes in the city. The officers of the Danish Building society are: Christ Jensen, president; N. K. Nelsen, treasurer, and Frank V. Lawson, secretary.

**TWO IMPORTANT MEETINGS FOR THE COMING WEEK**

Two important conventions will be held in Omaha during the coming week. They are the fourth annual session of the Presbyterian synod of Nebraska, which holds from October 15 to 20, and the Nebraska Library association, which will be in session October 15 to 17. The delegates of the Library association are to have dinner at the Commercial club on the evening of October 15, which is the date of the opening of the meeting. Beginning Tuesday of the week following this, the Nebraska Master Bankers' association is to hold its convention, with headquarters at the Roma hotel. In the neighborhood of 150 bankers are expected in Omaha as delegates to this convention.

**Extravagant Statements and Buncombe!**

Have fooled the people in the past, and still continue to fool a few of them—but the majority are wiser now than they used to be and much more discriminating. Almost every day we read of marvelous purchases which "our cash did", which our "wonderful organization accomplished", which "no other store could do." Buncombe and mere twaddle fools are few, but not very many, thank heaven. Our methods are different. A business built on integrity, we place at your service 30, 40 and even 50 years of training and experience. Training gained in honorable houses; experience gathered through connection with the best manufacturing establishments in the world.

Today we want to talk to you a little about apparel for women, misses and children. We never gathered such a collection together and under one roof we never saw before so many choice, sensible, stylish and artistic garments. To quote prices means but little and conveys but little meaning. A sample beats description sky high. Our line of Suits runs all the way from \$25.00 up to \$175.00. For Monday we have picked out a lot—STAPLE IN CHARACTER—made from splendid broadcloths in black, navy and brown. \$18.75 will be the price, and at once the value will be apparent to those who know good garments.

And for Monday we put on the counters a Waist Sale of more than usual interest.

**Hand Made Imported Waists**  
Combinations of Real Lace applied on voile and hand embroidered. Your chance, then, to pick out an elegant waist from special purchases made from three different importers. Now someone else (if alert) could have gotten these goods as well as we—their money seems to be just as good. WE got the waists—and YOU are to get them Monday.  
Three prices—\$3.85, \$5.90 and \$10.75.  
At \$3.85 you will get waists made to sell up to \$7.50.  
At \$5.90 you will get waists made to sell up to \$10.00.  
At \$10.75 you will get waists made to sell to \$25.00.  
And there will be a large and intelligent force to wait on you.

Children's and Junior Section filled almost to overflowing with good things. Garments for all ages—BONNETS FOR BABIES, Hats for Children up to 15 years. Come Monday for pick.

Sweaters of ordinary and unusual weave. Ours are big and roomy—all colors, of course.

A wonderful collection of Coats, Suits and Dresses.

**Monday, a Very Special Dress Sale**  
For now. Wool, cotton and silk fabrics. Ages 4 to 17 years. Suited to school life, home use or party wear. Worth up to \$10.00 tells part of the story. Monday you get them at \$5.00 and you must see to appreciate the full value of this offering.

With a few strokes of the pencil and in a moment of time we do more in the way of effecting a money saving for the people of this community than was accomplished through all the labored efforts of our distinguished Solons at Washington after months of bickering and discussion.

**LISTEN!**—The changed duty on woolsens is not effective until January 1st, 1914. Monday we show how we anticipate the reduction. About 65%—on the duty—the reduction, speaking in round figures, will amount to. Goods which cost formerly in Europe \$1.00 per yard, under the old duty, would cost \$2.00 landed in this country. \$3.00 at retail would be a liberal profit. Under the new arrangements the same goods costing \$1.00 after January 1st will cost, landed in America, \$1.35. The merchant can realize about the same percentage of profit and retail the goods at \$2.00 per yard.

Now here's how we anticipate these reductions and offer you the SAVING NOW:

All our Cloaking sold formerly from \$3.75 to \$5.50 a yard, will be offered on Monday at \$2.50, \$2.98 and \$3.75.

A big lot of Wool Dress Goods, formerly \$1.25 and \$1.50, will be yours at 98c per yard.

We can make by October 20th, 40 dresses—not more. These we will make to your order from your measure—fitted by an expert and tailored by a man at—**\$7.50 THE MAKING ALONE.**

And we will make you a dress from the dress goods on sale at reduced prices. Now, when it comes to genuine benefactors, we are some punkins, ain't we?

**On Cotton Goods**  
The reductions are not so marked—"Schedule K" was the banshee that the new administration was after. Everybody said that they had gotten the Trust Magnates' goat. Published interviews with Wood, the big man of the combination, would indicate that the Trust will still do business at the OLD STAND.  
Corduroys, made from cotton dyed by Worral in Old England, formerly \$1.50, on Monday 98c—every good color.  
Velveteens, made from cotton, same dyer, worth \$1.00, at 79c.  
Reductions in Silks very trifling—not worth talking about as far as the ultimate consumer is concerned. We show a complete line of Diana Crepe—all pure silk—made in America, at \$1.15 per yard—40 inches wide and priced in most places much higher.

**From Dear Old Scotia and the Shetland Isles**

We have just received a consignment of hand knit crocheted Shawls, Nightingales, Auto Hoods, Fascinators and Spencers—light as though made of down, but oh, so comfy and cozy. Knee length knitted Petticoats from 59c to \$5.00 each supplies the clinging effect and affords the needed warmth in these days of the DIAPHANOUS.

**To Sell a Big Quantity of Silk Petticoats, We Decided on a Leader at \$5.00**

We made a large contract, thus insuring a low purchase price—then we decided to shave down our profit, calculating that we could largely increase the SALES. Now here's the result of our planning: Monday we place on sale a lot of Skirts, made from Crepe de Chine, Silk Jersey with Jersey flounce, heavy Messalines, many fitted with a new patent which will be explained to you—a decided improvement we think on old styles. Look around if you will at what is usually offered at \$5.75 and \$6.00 and you will surely buy ours at, EACH..... **\$5**  
Assuming, of course, that you know a good thing when you see it.

At \$2.95 we will sell a Messaline Skirt with Jersey top, all colors, usually \$3.50 and \$3.75 each.

Two additional fitting rooms for Corsets adds to our convenience and yours also. We are quite proud of this part of our business—proud of our stock, proud of our service, proud of our courteous, obliging fitters and saleswomen. Good attention is yours by right—but you don't always get it everywhere. Herein also lies Kilpatrick difference.

Front laced and lace back Corsets. We recommend especially La Camille, Redfern, Modart and Irene for real satisfaction.

With the cooler weather comes increased Candy business. You'll get the candy habit if you will buy the COBB kind—clean, hygienic, delicious—fit for children to eat. That's the true test after all—if good for the weans, good for the wife—Cobb's, remember.

Mr. Tuttle, in charge of our Shoe Department, wishes us to notify you that he had added to his force of expert fitters. We wouldn't give two cents to sell you just one pair of shoes. We want to enroll your name on the list of honor—it's a pretty long one and being added to daily. Fitters of children, whose growing feet need care. Fitters of mothers and other grown ups who appreciate comfort. If you have foot troubles prepare to end them now.

**THOS. KILPATRICK & CO.**

**DEDICATE MEDICAL SCHOOL**

University of Nebraska College of Medicine Now Open for Work. Reception Monday Night

The University of Nebraska College of Medicine, which occupies the splendid new building at Forty-second street and Dewey avenue, will be dedicated October 15. The building is of brick and is fireproof. It is four stories high and has a large, well-lighted basement. There are special laboratories and class rooms on each floor, all of which are especially well lighted, and are constantly being fitted up for work.

There will be a general reception at the building tomorrow night. Invitations are extended to visiting alumni, students, the faculty and friends. The reception will be an informal affair, a sort of a "house warming," and the visitors will be shown all over the spacious building.

The dedication services promise to be interesting. Chancellor Samuel Avery will preside. The principal address will be made by Dr. Howard A. Kelly of Baltimore, Md., of the Johns Hopkins University. Among the other speakers will be Senator John Grossman, former Dean H. B. Ward and Regent F. J. Haller.

Quarters for the men have been provided on the first floor of the new building, with a locker for each man and shower baths in an adjoining room. A tasty rest room for the women has also been provided, where small gatherings of women students may be held.

There are eighty-six students enrolled at present. A splendid clinical faculty of the leaders of the medical profession in Omaha largely conduct the work of the junior and the senior years. University spirit and ideals prevail and the welfare of the student body and their future success is the desideratum.

The officers of the college follow: S. Avery, chancellor; Dr. W. O. Bridges, dean, and Dr. Irving S. Cutter, secretary and director of laboratories. The students edit and publish "The Pulse," the official college magazine, which is an attractive affair, printed in good clear type on heavy paper. Half-tone pictures are well arranged in the magazine. The laboratory faculty consists of seven full-time laboratory men. The new additions to the faculty this year on the clinical side of the work are: Dr. Leroy Crummer, professor of clinical medicine; Dr. John P. Lord, professor of orthopedic surgery; Dr. E. L. Bridges, instructor in physical diagnosis. The new laboratory men joining the staff this year are: Dr. O. T. Schultz, in pathology and bacteriology; Dr. A. A. Johnson, in clinical pathology, and Dr. Claude Mitchell, assistant in physiology.

The Permanent and Judicious Use of Newspaper Advertising is the Road to Business Success.

**UNION PACIFIC TO ELECT OFFICERS AT SALT LAKE**

The annual meeting of the directors of the Union Pacific will be held in Salt Lake City Tuesday. General Solicitor Loomis will attend, and with him he will carry a pocket full of proxies for voting purposes. So far as known by Mr. Loomis there will be no change in the directorate and he is of the opinion that he ought to know, as he will vote the majority shares of the stock.

**Green Gables** DR. DENNIS BAILEY. SANATORIUM Lincoln Neb. This institution is the only one in the central west with separate buildings situated in their own ample grounds, yet entirely distinct, and rendering it possible to classify cases. The one building being fitted for and devoted to the treatment of non-contagious and non-mental diseases, no others being admitted; the other Rest Cottage being designed for and devoted to the exclusive treatment of select mental cases requiring for a time watchful care and special nursing.

**HOUSEKEEPERS GLORY IN THIS**

**Dresher Brothers' Departments** Keep Lace Curtains, Rugs, Etc. Looking Trim.

**Few American Cleaners Cover So Wide a Range on "Home Work."**

You are a fine housekeeper, no doubt; most likely your neighbors tell each other how spick and span you keep your home. But you CANNOT clean Rugs, Lace Curtains, Portieres, and the like the way Dresher Brothers do at their \$7,500 plant at 2311-23rd Farmington Street. Dreshers will put a bloom into your old rug; a bloom that will discourage the man who sells new rugs, for he will know that he won't be able to sell you new rugs as long as Dreshers are able to clean your old ones the way they do. And Lace Curtains, Portieres, even Blankets, Pillows and a hundred other items about your home; Dreshers clean these also and at a price so low that you'll say to yourself: "I never should have cleaned those things at home any way!" Dreshers will even send a man to take down your curtains and hangings; the same man will afterwards put them up again if you so desire and the charge for this complete service is nominal indeed. Better get in touch with Dreshers first chance you get; their phone number is Tjyer 38; their branches and wagons are everywhere.
