YEISER GETS 'EM TOGETHER Has Meeting All by Himself at Lincoln. LINCOLN, Neb., Jan. 10.—(Special Telegram.)—It has just dawned upon the people down here that a great big get-together meeting was pulled off in Lincoln last Tuesday by John O. Yeiser, Colonel Yeiser issued his call some weeks ago for the republicans and bull moosers to meet and bury the hatchet and dig up the olive branch.

IRON AND STEEL SCHEDULES (Continued from Page One.)

The democratic plan, based on the rate on the value of the articles, instead of the specific rates of the present Payne-Aldrich tariff law and would put on the free list iron ore (now 15 cents a ton), tungsten and zinc ores, hoop and band iron, barbed and all other wire fencing, horseshoe nails, iron or steel cut nails or spikes, wire staples, cut tacks, washers, nuts, horseshoes and cash registers. The democrats have expected by the Underwood bill to reduce the average duties on the articles in that schedule by 35 per cent and that the schedule would produce \$17,477,940 in revenue.

Printing Presses. The proposal to put printing presses on the free list, instead of a 30 per cent ad valorem duty as under the present tariff, brought a protest from James E. Bennett of New York, representing twenty-two printing press manufacturing companies, that the present tariff should stand. He challenged government statistics of the

treasury and census about exportations of printing presses and said when he went to the New York custom house to verify the figures, officials there told him they had to go by the manifests and that they could not tell whether packages were "printing presses or leather beds."
