MORNINGSTAR KEEPS TITLE

Defeats Sutton in Eighteen-One Balk Line Billiard Match. GOES THIRTY-TWO INNINGS

Sutton's Lead of Seventy-Two in Twenty-Nine Inning Overcome by Champion in Brilliant Rally.

PITTSBURGH, Jan. 10.—Ora C. Morningstar of Pittsburgh, world's champion at 181 balk line billiards, retained his title tonight by defeating George Sutton of Chicago, 59 to 78. The game went thirty-two innings.

Morningstar made an average of 15.29 and Sutton 12.51. High runs were: Morningstar, 6, 29, 47; Sutton, 68, 45, 44.

Morningstar won the title from Sutton in Chicago May 18, 1912, and this is the first match they have played since the Pittsburgh player became the champion.

The champion started the game by forging ahead, but was caught by Sutton in the tenth inning, the score at that time being 10 to 11. Sutton then gained the lead and held it until the last few innings of the game.

The excitement came after the twenty-ninth inning. Sutton at that time had a lead over Morningstar of seventy-two. Morningstar, who had regained confidence in himself, made a run of fifty-nine in the thirtieth inning. Sutton followed with the small score of eight. In the thirty-first inning Morningstar passed Sutton's score by a run of forty-three, going to within one point of 50. He missed on the last shot. Sutton came up, made one shot and failed on the second. The balls were left in such a position by Sutton's final play that all the champion had to do was to shoot and the game was won. Score:

All Foods Advance During the Year but Potatoes and Sugar

WASHINGTON, Jan. 10.—Soaring prices of foodstuffs are pictured in a new set of figures compiled by the United States Department of Labor from its investigation of the cost of living in thirty-nine American cities.

Between August, 1911, and August, 1912, only two things decreased in price—potatoes and sugar. Meanwhile everything else advanced.

In Boston shrimps advanced 24 per cent, in Buffalo 19 per cent, in Atlanta 8 per cent, in Chicago 19 per cent, and in Birmingham 15 per cent.

But the figures showing the advance in prices during the last ten years show the following increases:

Sugar, 6 per cent; butter, 34 per cent; milk, 35 per cent; flour, 35 per cent; potatoes, 46 per cent; eggs, 47 per cent; lard, 57 per cent; hens, 39 per cent; shrimps, 62 per cent; ham, 62 per cent; rib roast, 62 per cent; cornmeal, 64 per cent; round steak, 56 per cent; smoked bacon, 100 per cent, and pork chops, 106 per cent.

Within the thirty-nine cities the department investigated lived one-fifth of the total population of the United States, two-fifths of the urban population and approximately one-third of all the people engaged in gainful occupations, not including farmers.
