AFFAIRS AT SOUTH OMAHA CHICAGO GRAIN AND PROVISIONS. Questioned Whether Advance in Speculation Recovers from Nervous-Mass Meeting Called for Tonight Features of the Trading and Closing Wheat Has Not Been Too Rapid. ness of Previous Sessions. About City Charter. Prices on Board of Trade. CHICAGO, Jan. 15.—The grain markets today were nervous and irregular, but indexed with a net decline, due largely to a private telegram stating that Adri-anople's fall is imminent. Provisions Strength of Copper Shares Drays AREGENTINE REPORTS DROUTH HOGS GENERALLY FIVE HIGHER . CURIOSITY AS TO THE OUTCOME London Steek Market. LONDON, Jan 16. - American securities opened steads today. Priscs improved until near midday, when a part of the advance was lost inder realting. Al-noon the market was steady with values ranging from unchanged to 14, higher than Wednesday's New York closing. London doning stork quotations: Chash, mener 24, "Lamretik, & Nach 124, 00 accumit in Mo. Consequently Bulls in Corn Expect sheep and Lambs Steady to Ten at Large Portion of Citizenship Destres anople's fall is imminent. Provisions advanced Until arrival of the Adrianople report gave logitimate impulse to sales the wheat market was a sort of glorified scalping affair. Speculators sold on the hard spots and took small profits on the soft ones, or vice versa. The edge was off the export business and the trade was nervously waiting for influential power to See a Setback of Moderate . Attention to Signs of Improve-Cents Lovier, Mostly Ten Cents Freedom from Gang Bule, and Proportions-New Features Lower, with the Trade a ment in Metal Struction-They Have Chance to Ex-241 E30 . 358 May Develop. Net Changes Small. The Unit Product of the Unit Product of the Unit Product of the Prod Little Dall. press Themserves. hard spots and took small profiles on the soft ones or vice versa. The edge was off the export business and the trade was nervously waiting for influential news wintch in the end arrived from Constanti-nople. Fluctuations in corn were a reflection of those in wheat. There was plenty for sale on bulges, while to all appearances recoveries from the depressions necessi-tated careful nursing. Export trade sub-sided. There was more hedging of cash corn by sales of May, although the spot trada was quoted by to like over yester-day. Data declined with corn and wheat, and like these markets, closed at the bottom selling was chiefly from longs. Sample oata were 'so to be over yester-day. The leading futures closed as follows: OMAHA, Jan 16, 1915. The most important question heard on he Board of Trade yearchay was. "Has be upturn in wheat been too rapid." There is considerable curiosity what the Board of the Board of Trade yesterday was. Has the upturn in wheat been too rapid " while some of the more conservative traders believe that the gains have been too fast under present conditions sur-rounding the wheat market, few were willing to stand in the gap and back their opinions by making liberal sales even on the advancing market. During the early part of the day there were soodly amounts of wheat thrown over-board and holders seemed anxious to get out of this grain. Later there was the early part of the day there were goodly amounts of wheat thrown over-board and holders seemed anxious to get out of this grain. Later there was an almost complete reversal of condi-tions and prices gained sharply under good buying power, with rather small offerings. Mr. Broomhall, in a special cable, used all the builish conditions at his command and this cable was the principal heip to the wheat late in the session. In addition to the above buil-lish item a report was reacived from Du-luth saying that a round lot of durum wheat was sold there yesterday for ex-port. Charles E. Lewis of Minneapolis, in referring to the export sales at Di-luth, said there are sales made daily neording to a report sales at Di-luth, said there are sales made daily there in wheat on export sales at Di-luths could be a report received from Julius Barnes of Duluth, but that no one cles seems to be doing anything there in wheat on export account. Kansas City reports 50,000 bushels sold to go east to millers, and a message from there said higher temperatures have removed all the snow protection from the southwestern wheat fields and that the ground is in a condition where a cold snap would more than likely dam-age the growing plant. Cash wheat, it higher. Its weakness was ignored by the general market. Strength of the copper sources, while perhaps due in large part to covering operations, drew attention to signs of improvement in the copper metal situa-tion. In the London market a further re-covery in the price of standard copper was recorded and the fortnightly Euro-pean statistics showed a decrease in the visible supply.
