

CAPITAL OF TURKEY IS PRACTICALLY IN A STATE OF SIEGE

Young Turks Arresting Their Political Adversaries and Searching Residences and Clubs.

REIGN OF TERROR FEARED

Allies Believe Anti-Foreign Outbreak May Occur.

WARSHIPS ARE ON THEIR WAY

Powers Send Larger Vessels to Reinforce Guardships.

ITALIANS IN GREAT DANGER

Italy Sends Two of Its Best Cruisers to Constantinople and Entire Fleet is Ordered to Be in Readiness.

LONDON, Jan. 25.—Constantinople is practically in a state of siege, according to dispatches received today by the peace delegates of the allies. The young Turks, fearing that the reins of power may again escape from their hands, are said to be arresting their political adversaries right and left, searching houses and clubs and confiscating documents. They hope in this way to break up the opposition.

The allies express the opinion that under these circumstances any excess may be expected.

With this prospect in view, the European powers are sending war vessels to reinforce the ordinary guardships stationed at Constantinople.

Italy is especially alarmed over the return to power of the young Turks, who were inexorable during the Libyan war.

The United States ambassador at Constantinople, William R. Rockhill, during the negotiations for the conclusion of peace between Italy and Turkey, described Djavid Bey, now head of the committee of union and progress, as an irreconcilable. Djavid Bey declared that Turkey would fight in Tripoli as long as it possessed a single soldier.

The position of the 5,000 Italian residents of Turkey is now regarded as so precarious that Italy has dispatched to Constantinople two of its best cruisers, the San Marco and Pisa, and the gunboat Archimede, which is prepared to land 600 bluejackets. At the same time the admiralty has ordered the entire Italian squadron now stationed in the Grecian archipelago, to hold itself in readiness. The remainder of the Italian fleet is at Taranto, within easy call.

Diplomats Are Waiting.

The peace delegates of the Balkan allies held a prolonged meeting this afternoon, but did not reach any decision as to their future action. They will assemble again tomorrow.

No authoritative indication has yet been given of the nature of the new Turkish cabinet's reply to the note of the European powers.

The meeting in London of the European ambassadors today was chiefly concerned with the new political situation at Constantinople. They also discussed methods of maintaining agreement among the powers without which a satisfactory solution of the present difficulties is impossible.

No definite plan could be adopted at the session today, as the diplomats are awaiting new instructions necessitated by the turnover at the Ottoman capital.

Rockhill Takes Optimistic View.

WASHINGTON, Jan. 25.—Ambassador Rockhill at Constantinople reports the Turkish capital quiet despite the incident which resulted in the overthrow of the cabinet and the killing of Nazim Pasha. He says the new government has given assurances that all necessary measures have been taken to guarantee the safety of persons and property. He adds that there is reason to believe Parliament is likely to be convened at an early date and that the resumption of hostilities will not necessarily result from the coup d'etat.

COURT REFUSES TO SET ASIDE PROCTOR DIVORCE

CINCINNATI, O., Jan. 25.—Common Pleas Judge Woodmansee refused today to set aside a divorce granted last year to Percy Proctor, a wealthy Cincinnati manufacturer, from Nadine Proctor, formerly the Baroness Von Kliffuss.

The baroness sought to set aside the divorce decree on the double ground that she was unable to attend the divorce hearing last April because she was a passenger on the ill-fated steamship Titanic, and because of newly discovered evidence.

In dismissing her petition today, Judge Woodmansee held that no sufficient grounds for a rehearing had been shown before him. According to her attorney, the baroness is ill in New York City and was unable to appear at the hearing today.

MURDERS YOUNG WOMAN AND COMMITS SUICIDE

JACKSONVILLE, Fla., Jan. 25.—C. P. Long, wealthy wholesale liquor merchant, shot and killed Miss Sue Dickinson of Wilmington, Del., aged 23, and then killed himself. The tragedy took place in Long's office after the two had quarreled.

OMAHA PIONEER WHO IS AT DEATH'S DOOR

DAVID ANDERSON.

WILSON VISITS ELLIS ISLAND

President-Elect Watches Operation of Immigration Laws.

HE ASKS MANY QUESTIONS

Attends Session of Special Board of Inquiry and Sees Seven Persons Ordered Deported from Country.

NEW YORK, Jan. 25.—The next president of the United States saw the country's immigration laws in operation today at Ellis Island. Governor Wilson called the visit a pleasure trip, but the immigration officials were inclined to attach importance to the fact that with him came several prominent persons who have been active in improving the condition surrounding immigrants.

Under escort of William Williams, commissioner of immigration, Mr. Wilson saw Finns, Russians, Italians and other Europeans put through their examinations. He attended a session of the special board of inquiry, the final court of appeal at the island, and saw seven aliens rejected. Three steamships had landed this morning and the station houses hummed with activity.

The governor did not see General Cipriano Castro, who is fighting for the privilege to enter the United States.

Several in Party.

In the governor party were Mrs. Wilson and the Messrs. Jesse and Elmer Wilson; Mr. and Mrs. Douglas Robinson; Mrs. James Borden Harriman; Royal Meeker, professor of political economy at Princeton; Willard Straight and Mrs. Caroline B. Alexander, at whose suggestion the trip was made.

The president-elect asked many questions.

"I wonder," he remarked, as he looked down on the crowd awaiting examination, "if these people know before they arrive what they are to go through."

Commissioner Williams told him that in general the immigrants were told on shipboard what was expected of them. The governor saw a Russian rejected on account of a weak heart and listened to the testimony before the board of special inquiry regarding another Russian charged with being a "white slave." This man was ordered deported.

Uncle Dave Anderson Is Critically Ill

Uncle Dave Anderson, pioneer citizen of Nebraska and south Omaha, is critically ill at his residence, 314 M street, South Omaha. He has been in poor health for more than a year. He practically retired from business several months ago. His condition last night was said to be precarious. His daughter has been summoned from her home in Washington.

Uncle Dave is well known throughout the state in business and political circles. He was one of the men who attended the first republican convention held in Philadelphia in 1855.

British Suffragists Ready to Renew War

LONDON, Jan. 25.—The suffragettes are rallying their forces in London. Numerous recruits of the Women's Social and Political Union have arrived here from Scotland and the provinces within the last twenty-four hours "for special duty." This is interpreted as a threat that military will be lost in an unexpected form. It, as now seems certain, the suffragettes find on Monday text that they have been defeated.

The Women's Social and Political Union refuses to entertain any suggestion of a separate bill for the enfranchisement of women. "General" Mrs. Drummond declared today that the women would only find themselves tricked again in the case of a new bill. Enfranchisement must be included in the present bill or war will be resumed, she said.

MR. AND MRS. SHEPARD STILL AT LYNDBURST

TARRYTOWN, N. Y., Jan. 25.—Mrs. Fines J. Shepard has made it known that to continue her identification with philanthropic work and business she will retain her maiden name and sign herself as Helen Gould Shepard. Since their marriage on Wednesday Mr. and Mrs. Shepard have remained at Lyndhurst much secluded from the public as guards are still kept about the estate. The couple were out yesterday for a twenty-mile automobile ride. It is understood they are planning a trip abroad in February.

WARREN WILL WIN RE-ELECTION FIGHT

Rep. Lott's Wyoming Contests Sustained Against Contestants.

LEGISLATIVE TANGLE SOLVED

Democrats and One Progressive Fail to Secure Control.

CAREY REFUSES REQUISITION

Representative Manson Not to Be Returned to Virginia.

VOTE ON SEXTON ON TUESDAY

Two Contests Brought in State Senate, but Republicans Control Committee and the Chamber Itself.

CHEYENNE, Wyo., Jan. 25.—Republicans against whom contests were filed will retain their seats in the house, leaving the membership as at present and practically insuring the re-election of United States Senator Francis E. Warren next Tuesday.

State Representative E. H. Manson will not be returned to West Virginia, as Governor Joseph M. Carey today denied the requisition of Governor Glasscock, Manson, who was said by West Virginia authorities to be F. E. Roberts, was charged with misappropriation of school funds.

These were the developments today in the legislative tangle that began immediately after the assembly convened and the house was organized by the democrats with the aid of Speaker M. L. Pratt and E. M. Manson, progressives.

The house approved the unanimous report of the committee on privileges and elections, giving Representative E. F. Fisher, republican, the right to his seat. Today's contest developed over the adoption of the majority report by which Representatives T. W. White and S. C. Alfred, republicans, retain their seats. On the vote by which the republicans were seated Speaker Pratt voted with the republicans and E. H. Manson with the democrats. This gives the republicans a majority of six votes on joint ballot.

There are two contests in the senate against republicans, but as the republicans control the committee and the senate it is not believed that the majority will be disturbed. The waiting for United States senator will begin Tuesday.

Offers Million for Successful Cure for Tuberculosis

NEW YORK, Jan. 25.—A million dollars is the offer announced by Charles E. Finlay, a New York banker, if his son-in-law, Rexford Lee Paris of Indianapolis, and ninety-four other sufferers from tuberculosis in this country are restored to health by the new serum discovered by Dr. F. E. Friedman of Berlin, Germany. Cable dispatches have told of the success of the new serum abroad, and Dr. Friedman has recently given the secret of his serum to the German Imperial Board of Health.

Aroused by the case of his own household Mr. Finlay has called in offer to Dr. Friedman, of his conditions being that the doctor shall demonstrate personally the value of his serum in New York, within the next few weeks. His proposition requires that 50 per cent of cures in 100 cases be shown. He would provide hospital beds for the patients free. Mr. Finlay said that the million might "reduce him to the bread line class," as he was not a multi-millionaire, but he thought it would be worth while to make the sacrifice if he could do such a helpful thing for humanity.

Women Given Permit to Erect Stand

WASHINGTON, Jan. 25.—The American Woman Suffrage association scored a victory over the local inaugural committee today at a hearing before the senate committee on buildings and grounds. The committee determined to grant the women the right to build a reviewing stand opposite the treasury for the suffrage parade, March 3, unless the inaugural committee will consent to the use of the stands being built for the review of the inaugural parade, March 4.

Thus far the inaugural committee has declined to permit the women to make use of any of the official stands on the day before the inauguration. Notwithstanding the strenuous opposition of the inaugural officials the senate gave the suffragists the assurance that they might erect a big stand opposite the treasury portico where the suffragist tableaux are to be given.

Arthur Brandeis is Being Made Over at Muldoon's

When Arthur D. Brandeis returns home next week from his midwinter vacation, it is expected that he will have to be introduced again to all his former acquaintances and all the employees of the big store of which he is the head.

The reason for this expectation is wireless information that instead of taking a trip to Panama, as planned, Mr. Brandeis has been spending the last few weeks as a guest at the famous Muldoon training resort on the Hudson, where the ex-wrestling champion is supposed to make run-down men over into a combination of Hercules and Adonis. From letters received here it is learned that the Omaha merchant prince has been put through all the various degrees and high signs of athletic discipline and dietary distress without favor or discrimination.

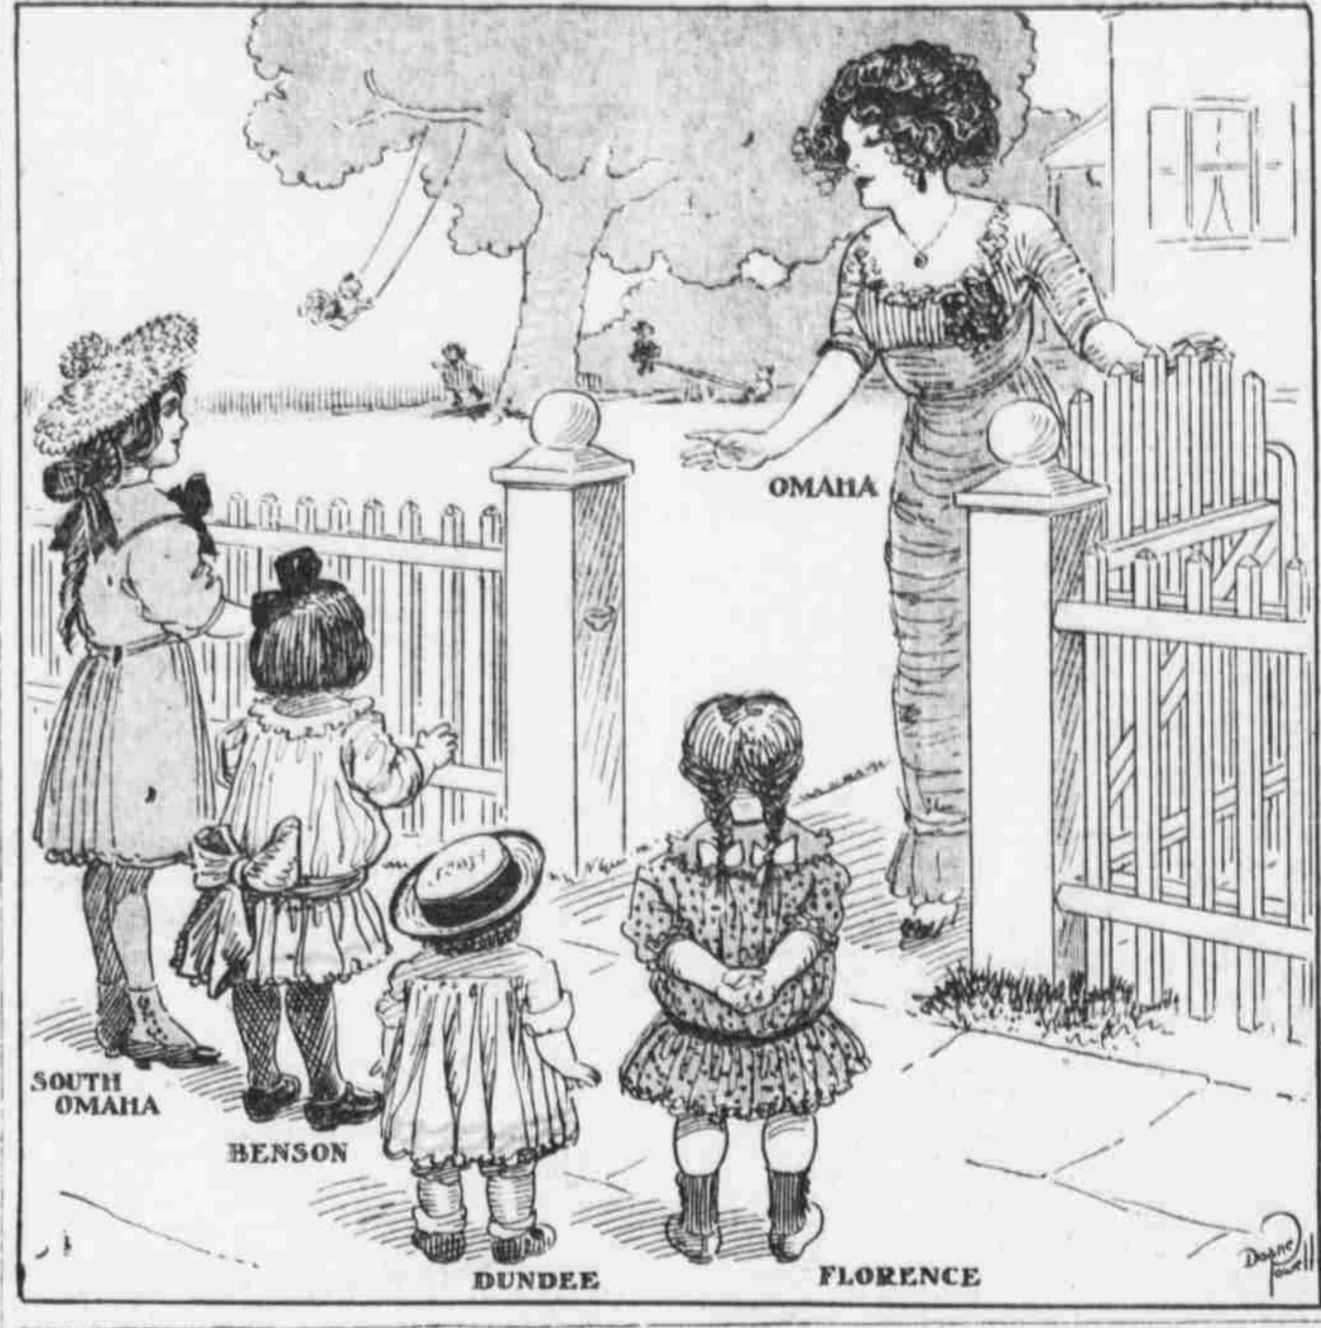

"I don't mind having to get up at 3 o'clock in the morning," he is said to have declared, "but it's a little tough to have to ride horseback for hours on an empty stomach. Perhaps I should not say 'ride,' because much of the time they make us dismount and run alongside of the horse."

As to food, the complaint from Mr. Brandeis is that they give him everything he doesn't want and nothing that he does like. The first day he was incarcerated he went to the telephone to call up his wife in New York by long distance only to be peremptorily ordered away.

"Stop that!" shouted the attendant. "Don't you know that no one is permitted to use a telephone here except the help?"

Fortunately there is no ban on letter writing at Muldoon's within the hours assigned for leisure, which accounts for some of the secrets of Mr. Brandeis' sojourn leaking out.

The Way and the Welcome

ADVANCE IN RATES ON HAY AUTHORIZED

Interstate Commerce Commission Allows Railroads to Charge More to Chicago.

WAGNER VISITS THE CAPITAL

Resigned District Attorney Appears Before Senate General in Connection with Proposed Pardon for Sioux Falls Man.

(From a Staff Correspondent.)

WASHINGTON, Jan. 25.—(Special Telegram.)—The Interstate Commerce Commission today granted the application of railroads in the northwest for permission to advance rates on hay from points in Iowa, Minnesota, the Dakotas, Wisconsin and Illinois to Chicago, to become effective immediately. The railroads gave notice of these advances early last year to take effect March 15, but because of protests from hay shippers in the northwest the proposed increase in rates was suspended pending a hearing.

Except for two stations in Minnesota, where the advance is 1/2 cent per hundred pounds, the increases range from 1/2 to 4 cents and are said to average generally about 2 cents.

Under western classification hay taken to Chicago and to other terminal markets commodity rates lower than this class have generally obtained.

The advances permitted today by the committee bring the rates up to the Class C basis in most instances, the exception being in the case of long hauls, and in the case of the Milwaukee road, which has observed a maximum advance of 2 1/2 cents.

To Minneapolis, Milwaukee and St. Louis, the commodity rates have been advanced to the same basis, but as the Class C rates to Chicago are 40 other markets to do always represent the same spread as the commodity rates, the increases to Chicago are greater in a number of instances.

From points in Minnesota to Minneapolis and from points in addition to Milwaukee, no change has yet been made because of the rates fixed by the state commissions.

The railroads, however, assert their intention to make similar advances in these states.

Wagner in Washington.

E. E. Wagner of Sioux Falls, S. D., former United States district attorney for South Dakota, was in Washington today in conference with officials of the Department of Justice in the application for pardon of Charles L. Hyde of South Dakota.

ONE SCHOOL ON ONE CAMPUS

Consolidation Best Plan for the University of Nebraska.

OPINION OF AN ABLE EDUCATOR

President Van Hise of University of Wisconsin Writes to Chancellor Avery Strongly Endorsing Plan.

President Charles R. Van Hise of the University of Wisconsin, has written to Chancellor Samuel Avery of the University of Nebraska, very strongly endorsing the plan for consolidating the activities of the University of Nebraska on the proposed new campus at the state farm, Lincoln. President Van Hise writes as follows:

"MADISON, Wis., Jan. 15, 1914.—My Dear Chancellor Avery: It is my understanding that the University of Nebraska has six blocks near the center of the city of Lincoln, upon which are located the buildings in which the work in liberal arts, pure science and engineering are carried on; and that the university also owns several hundred acres of land on the border of the city of Lincoln at a distance of two or three miles from the blocks mentioned. My further understanding is that at the present time or in the near future the university must have additional buildings for other needs than agriculture.

"The question is, therefore: Shall the work of the university be carried on in two places or shall those parts of the university which are near the center of the city of Lincoln be transferred to the extensive tract upon which the agricultural buildings are located?"

"Looks as if your answer is 'Yes.' The answer to this is apparent if one will not consider the five years coming, but the scores of years to come. What will be the needs in the way of buildings and grounds of those parts of the university now located in the city of Lincoln a century hence? It is certain that these needs cannot be met even approximately upon six blocks of ground, and if the main part of the university is to be continued where it is now located, this will involve great expense in extending the campus at a place where ground is very

Peruvian Aviator Flies Across Swiss Alps in 25 Minutes

DOMODOSSOLA, Italy, Jan. 25.—Jean Bieuvoué, the Peruvian aviator, flew across the Swiss Alps from Brig to this city in less than half an hour today.

He ascended at Brig in his monoplane at exactly twenty-five minutes past 12.

Bieuvoué had been waiting for favorable weather since January 8. He followed the same course over the Simplon Pass as was taken by his compatriot Chavez in September, 1913. Chavez accomplished the flight, but in landing was hurt severely and later died from his injuries.

Bieuvoué had made one previous attempt to cross the Alps on January 14, but after ascending 5,000 feet was forced to make a hurried landing, owing to a defect in his motor.

TROLLEY CAR HITS TRAIN; ONE DEAD TWENTY HURT

LOCKPORT, N. Y., Jan. 25.—One man was killed and twenty persons seriously injured in a collision between a trolley passenger train and a freight train on the International railway here early today. The injured are all members of the Lockport aerle of the Fraternal Order of Eagles, who were returning from a lodge entertainment in Buffalo last night. The freight train was standing on the main line when the passenger train crashed into it. The forward car of the passenger train and the rear car of the freight were demolished.

LEVEE BREAKS NEAR GREENVILLE, MISS.

Immense Area of Finest Farming Land in the State Will Be Flooded.

DAMAGE WILL BE ENORMOUS

Planters Who Lost Last Year's Crop Face Second Disaster—Another Break Near Belmont, Mo.

VICKSBURG, Miss., Jan. 25.—The Beulah levee on the east side of the Mississippi river near Greenville, Miss., broke today, and the flood waters are pouring over some of the finest farming lands in that section.

The crevasse was caused by the settling of the foundation in the new levee. Fifteen hundred men, including several hundred Mississippi convicts, had been working day and night for the last week in an attempt to rebuild the levee, which was carried away by last spring's flood.

Last night the new levee was two feet above the water stage, but the river was rising rapidly, and when the new foundation settled today the big embankment broke.

It is not believed possible to close the crevasse and the government and state levee workers will try to save the levees at Fitters and Lake Jefferson, where the increasing floods are threatening.

The waters of the new Beulah crevasse probably will flood a section of the country sixty miles in length and from five to fifteen miles in width, extending south to a point just north of Vicksburg. No life loss has been reported.

News of the crevasse was telephoned to communities in the threatened section and runners on horse back were dispatched to plantations south and east of the break. It is feared thousands of head of live stock will be drowned.

The crevasse is at the head of Lake Beulah, twenty miles north of Greenville. It is believed Greenville is in no danger, and much of the high delta land inundated last summer probably will not be submerged. Crop preparations in the section which will be flooded were well under way. Planters who lost their entire crop last year now face the threat of having their lands submerged for several months, at least, while a recurrent spring rise would keep the flooded section under water until late in the summer.

CAIRO, Ill., Jan. 25.—The flood has become so serious around Belmont, Mo., that the St. Louis, Iron Mountain & Southern railroad today discontinued service on its Belmont branch. The water which has broken through the Mississippi river levee is flooding much wheat land in southeastern Missouri.

TEBBE HAUTE, Ind., Jan. 25.—Four hundred and fifty miners are idle in the Clinton coal fields on account of high waters. Mine trains have been abandoned and the men will be idle until the water subsides. The great coal fields west of here are covered with water and men employed in the large mines face constant danger of a cave in.

WAIST AND DRESS MAKERS RESUME WORK MONDAY

NEW YORK, Jan. 25.—More than a hundred independent manufacturers agreed today to sign the protocol adopted by the Union Dress and Waist Makers and the Employers' association and the belief today was that this would settle the strike in that trade by Monday.

With a settlement in sight, the waist and dress makers have abandoned the parade planned for Monday.

Four young women were arrested today for assaulting a girl on her way to work in a factory affected by the strike. The girl was knocked down and beaten with umbrellas and finally was rescued by a policeman.

GLUT OF NEW BILLS CLOGS THE WHEELS AS BUSINESS LAGS

Fife Hundred Twenty-Six Measures Before Legislature to Date and Scarcely One Considered.

EIGHT DAYS FOR REMAINDER

Shortening Time for Introduction Has Little Effect.

GENERAL MANAGERS ARE FEW

Some Think There Are Too Many for Good of Cause.

NEW BOARD OF INSURANCE

Sentiment Among the Democrats to Create Department that Will Take This Branch of Business from Auditor.

(From a Staff Correspondent.)

LINCOLN, Neb., Jan. 25.—(Special.)—The legislature, especially the democratic house end, is proceeding very slowly in its deliberations, it was necessary for Arthur Mullen and John Byrnes to come down, move into the speaker's room and force business they desired through the session. This year John Byrnes has been here frequently, but Arthur Mullen has been down only twice. He was here this morning and it may be the two are going to take charge again.

Two years ago the democrats of the house got so slow about passing a measure that it was necessary for Arthur Mullen and John Byrnes to come down, move into the speaker's room and force business they desired through the session. This year John Byrnes has been here frequently, but Arthur Mullen has been down only twice. He was here this morning and it may be the two are going to take charge again.

Though the house has developed no remarkable ability to run its own business, it knows how all the state departments should be conducted and it has appointed committees to go through the records and promulgate a system by which the state business shall be managed at less expense and with more efficiency. These committees are supposed to be ready to report back a plan during the next few days which will completely revolutionize the present system.

Board of Insurance.

There is a sentiment among the democratic house members to place the insurance department of state under a board of insurance and take it out of the hands of the state auditor. Some house members believe it would be better to have the insurance commissioner appointed by a board and the affairs of the office subject to the approval of the board, like the banking board that to have the office tied up with that of the state auditor cannot be forecasted, but it is almost a certainty that an effort will be made to make this department independent of the auditor.

Morehead to Have Full Staff

Governor Planning to Issue Call for Aides.

(From a Staff Correspondent.)

LINCOLN, Neb., Jan. 25.—(Special.)—Now is the time for colonels of late governors to get out their uniforms and clean them up, for there may be a demand for this kind of clothing shortly. Reports to the contrary, notwithstanding, his excellency will have a real staff of colonels, some who have worn the blue and smelled powder in many battles and some who are yet ignorant of the joy of being a civilian colonel.

Among those in Omaha who are likely to be called from their present peaceful pursuits are the following: Adolf Storz, Myer Klein, Felix J. McShane, D. J. O'Brien, Charles B. Liver, A. D. Fetterman, Tom Byrnes and several others. These have not been officially appointed, but when the list is made up, beyond
