

PRINTERS AND HOME TRADING

Union Goes on Record in Favor of Nebraska Industry.

GET PRINTING DONE AT HOME

Resolutions Call Attention to Condition that Can Be Remedied by the Manufacturers and Dealers of the State.

The printers of Omaha have come out strong for home industry. At least, they suggest that all printing used in Nebraska should be done as far as possible by Nebraska printers.

Whereas, The printing industry ranks sixth in the list of the industries of the United States in point of value of output, capital invested and wages paid; and whereas, The printing industry in Omaha takes rank of equal importance with that of the country at large, and is supported locally by an extensive trade industry, the railroad industry and the smelting industry; records showing that from \$5,000 to \$10,000 in wages are paid each month to the members of Omaha Typographical union, of which enormous sum the whole is kept within the city of Omaha, being spent to maintain homes and provide for the families of a thrifty, industrious and intelligent class of citizens, whose general usefulness to society at large has been on many occasions proven by the selection of printers to positions of public trust and responsibility; and

Whereas, The Nebraska Manufacturers' Association, the Nebraska Retailers' Association, the Omaha Retailers' Association and other kindred business organizations are now interested in and assisting in the promotion of a "Made in Nebraska Show," the purpose of which is to interest the citizens of Omaha and Nebraska in general in home industry and to induce them to buy Nebraska-made goods and products in preference to any other, when conditions are similar; and whereas, Omaha Typographical union No. 130 is now and always has been in favor of the promotion of home industry and the purchase of home-made goods; and

Whereas, It is a fact that many hundreds of thousands of dollars worth of printing is annually done in Omaha and Nebraska by manufacturers outside of Omaha, to the great detriment of the printing industry in Omaha; and whereas, being labels, catalogues and similar matter used in the advertising and promotion of goods manufactured in Omaha, all of which printing ought to be done and can be produced in Omaha; and

Whereas, The greater part of the cost of printing is for wages paid to printers, the more printing purchased by Omaha and Nebraska manufacturers and dealers from outside of Omaha, the more of home money is kept at home and returned directly to the channels of home trade in a most natural and desirable way; therefore, be it

Resolved, That Omaha Typographical union No. 130, through its officers and members and for the printing industry of Omaha and Nebraska in general, urgently recommends to the Nebraska Manufacturers' Association and Nebraska Retailers' Association that the first step to be taken in the building up of the home industry is to induce manufacturers and dealers of Omaha and Nebraska to do their printing at home; that we condemn such displays as were made at the Omaha Commercial club rooms at a manufacturers' dinner about a year ago when printed matter, labels and other advertisements of the local manufacturers, representing printing of the annual Nebraska Manufacturers' Association, were printed at least a quarter of a million of dollars, was shown on the walls of the dining room, all of which could have been, and should have been, produced in Omaha; and none of which was produced in Omaha; and, be it further

Resolved, That we urgently recommend to the manufacturers and dealers of Omaha and Nebraska that they take their own advice and aid in the building up of Nebraska industries by buying their printing of Omaha printers; that we suggest that those who are now spending thousands of dollars that are now being sent to Chicago, St. Louis, Milwaukee and other cities, St. Paul, Minneapolis, Denver and other cities, whose printers are no better prepared to produce the annual Nebraska Manufacturers' Association, than are the printers of Omaha, every dollar spent in printing produced in Nebraska is a dollar added to the Nebraska industry that pays good wages to skilled workmen, most of whom own their own homes, and who live under American conditions and liberally patronize Nebraska dealers in purchasing the necessities of life; and, be it further

Resolved, That copies of these resolutions be furnished to the Omaha newspapermen with the request that they be published in the same; that a copy be sent to the secretary of the Nebraska Manufacturers' Association, to the secretary of the Omaha Retailers' Association, to the secretary of the Omaha Manufacturers' Association, to the secretary of the Omaha Commercial club (with a request that he lay the same before the executive committee of the club), and to the secretary of the Ben Franklin club of Omaha.

Breaks Out of Jail, but He Comes Back

John Butler, held in the juvenile ward of the county jail, escaped Saturday night, but returned to the ward because he was afraid to attempt to reach the ground.

Butler was acquitted on a burglary charge, but was re-arrested for the Lincoln authorities, to await whose arrival he was placed in the juvenile ward. Butler pulled out one of the bars over the window, opening a space large enough to permit the passage of his body. He made his way to the outer ledge and then pondered for some means of letting himself to the ground. He could think of none, so re-entered through the window. The juvenile ward is not supposed to be proof against breaks of men or youths and is intended only for juveniles. The damage will be repaired.

HIGH SCHOOL DEBATERS GET READY FOR CONTESTS

The debating work of the high school has been developing rapidly the last several weeks under the direction of Coach Burke, who hopes to put a better debating squad this year than was developed last year. The chances for an excellent team are very promising, there being eighteen members on the squad, all of whom are efficient debaters, and who represent the various debating societies of the high school.

Each Tuesday after school the squad has its practice on oratory, under Coach Burke's tutelage. The question most worked upon is, "Resolved, That all American cities should adopt the commission form of government." This will be the principal topic of discussion in the Nebraska High School Debating League, which is composed of a large number of high school debating teams of Nebraska.

TURN ON GAS AND THEN CRAWLS UNDER THE BED

His mind affected, Albert Rorer of Portland, Ore., attempted to commit suicide in the Swiss hotel, across from the Union depot yesterday by inhaling gas. The chambermaid smelled the gas and the police surgeon succeeded in reviving the unconscious man.

Rorer is en route to New York. He took a room at the hotel this morning. Locking the door he turned on the gas jet in the room and crawled under the bed.

Can You Draw an Eye?

Competitor's Name

Address

PRIZES FOR THE BEST EYES—\$3.00 first prize; \$1.00 second prize; \$1.00 third prize and five prizes valued at \$1.00 each.

RULES—Competitors must be amateurs. All drawings must be on the face cut out of The Bee. Competitors may submit more than one drawing if they desire. Contest closes Wednesday night, Feb. 5, 1913. Address, Contest Editor, Omaha Bee.

JOB IN OMAHA GO BEGGING

Men Who Would Serve on Charter Revision Committee Scarce.

BUT ONE FILES UP TO DATE

Time for Filing Expires Saturday—Nominations Are to Be Made on February 11—Election March 11.

Who wants a position as charter-writer for the city of Omaha? There are at least fourteen jobs waiting for the public-spirited, who are willing to work without compensation. The nomination of a charter commission is but a few days off—February 11—and only one man of the fifteen to be chosen has filed. This man is Jacob Kopp, socialist, candidate for city commissioner at the last election, and retired candy maker. He filed his application yesterday. The time for filings closes Saturday.

Fear is becoming evident among the city commissioners—that the whole scheme to get home rule may fall through because there will be no applications for membership on the charter committee. There is no indication that a grand rush for the job will occur on the last of this week. Question now being considered is whether or not there will be a charter commission if nobody wants the job.

It may be suggested, later, that, after all, the commission will have to be appointed, if appointments would be legal. Although the position of charter-writer holds out the inducement of the glory of listening to all the plans for home rule, which may be suggested for as many days as the commission of fifteen will sit, there appears to be a dearth of glory-loving citizens.

WILL VOTE UPON COMING OF REV. "BILLY" SUNDAY

The evangelistic committee of the Omaha Church Federation is scattering a pamphlet giving a little sketch of Rev. "Billy" Sunday and his work. The purpose of this little book is to establish a verdict in favor of the itinerant evangelist.

All the various evangelistic churches in the city are now voting upon whether or not he should be encouraged to come here and hold services and within another week or so the results will be known.

Wolf Finds Way for Water Board to Cut Rates to the Public

Harry Wolf, a local real estate dealer, thinks he sees where the Water board can make enough money to reduce the rates in the near future—by having the water consumers build their own mains and then later to pay the board 50 cents a front foot for what they have done.

Wolf built a water main of his own west from the end of the city's main at Twenty-sixth and Binney streets a year and a half ago. The water company gave him permission to lay it 125 feet west to a house he had built between Twenty-sixth and Twenty-seventh, on Binney street.

Now he has started the erection of three houses on a 132-foot lot eighty feet west of the first house. Asking H. Beecher Howell of the Water board for permission to lay an extension to his original main so that these houses could be supplied with water, he was refused. Howell told him, he says, that if the Water board gave him permission to extend his own main, laying a 24-foot extension, the Water board will have again to lay the main when a sufficient number of residents in the neighborhood petitioned for it, and Wolf will have to pay 50 cents a front foot for the mains he now has laid.

"In other words," says Wolf, "I pay several hundred dollars in laying 308 feet of water main and then pay to the Water board 50 cents a foot, or 158, for—dashed if I know what for."

Socialist Woman Talks Sweat Shops

According to Mrs. Mary L. Geffs of Denver, socialist and former sweatshop worker, who addressed the city commission, women do not leave home of their own free will, but are forced by the wage system to congregate in congested districts and raise their children in undesirable localities.

Were it possible, she declared, girls and women would build homes and become wives, mothers and housekeepers in suburban districts, where their children would be given the benefit of fresh air and open spaces for playgrounds.

"I know what it means," she declared, "to work in the sweatshops at 30 cents a day. I have worked in the sweatshops—not here, but in Chinatown. Some working girls receive as low as \$2 a week and a saving of 5 or 10 or 20 cents means a great thing to them."

Mrs. Geffs said she had worked day after day at heart-breaking labor for thirty-five cents a day making overcoats or vests for men who would pay from \$15 to \$20 for the garments she made.

Mrs. Geff left Monday afternoon for Grand Island, where she is to deliver an address. She addressed the city commission on an ordinance providing that seven street car tickets be sold for a quarter. She said it was only a question of time until the public would own all public service corporations and then such corporations would cease to be operated for profit, but would be run for "service."

BRANDEIS STORES

Newest Styles Are Seen Here First. Greater Varieties Are Shown Here Always.

New Waist Styles That Will Reign in 1913

A score or more of the new ideas that will lead in popularity in the spring season

Many of the cleverest ideas are seen in the new Voile and Lingerie Waists
