

# A GREAT SALE

of Sundry High Class Wearables for Men and Boys—for Women and Girls  
**SATURDAY, FEBRUARY 1st**

We've just finished inventory. While going through our stocks—we found several lots of highly desirable apparel that should be disposed of in order that our reputation for clean stocks be not impaired. While no criticism could be made of the quality and correctness of the articles in question—the range of sizes in each is somewhat broken and those missing can not be filled in. Therefore—conforming to custom, we place extremely low prices on them rather than have any broken lines in our regular stock. It's a money saving opportunity that many shrewd buyers, with a need for such articles, will profit by. Hope you are one of them and that, perhaps, through this event you may get acquainted with our kind of merchandise and our truthful method of advertising.

1510 Douglas St. **JULIUS ORKIN** 1510 Douglas St.

Bushie of Kimball, which seeks to prevent fraudulent advertising and representation of real estate, was reported for third reading after considerable discussion. In which Placek of Saunders thought that the bill was a little drastic in that it would require all real estate agents to investigate personally all land which they look for sale, which in cases where the land might be in some other state, would work considerable of a hardship.

Smith's bill to repeal the law which declared war on prairie dogs and gophers was filed out of the third reading pile and was passed.

Krumback of Polk introduced a bill this morning which, if it becomes a law, will abolish the state board of pardons and will put the duties of that board in the hands of the board of control. The bill simply provides that the board of control shall assume the duties of the present state pardon board, and makes no other provision.

For County Seat Removal.

Humboldt of Nuckolls came forward with a bill which will require that in cases of removal of county seats the residents of the county desiring the removal shall file with the county commissioners a petition signed by three-fifths of the resident electors of the county, equal to the number of three-fifths of the vote cast at the late election, which shall contain in addition to the name of the section, township and range on which the petitioner resides, or the town or city, age and time of residence in the county, before an election can be called, and no

town which has been the county seat for a period of ten years can have it taken from it unless the petition is signed by three-fourths of the voters, based on the vote at the last election and at the election some other place receives three-fourths of all the votes cast.

Industrial Commission. Oils of Valley introduced a bill which, if it becomes a law, will authorize the governor to appoint a commission of seven persons, to be known as an industrial commission, to hold office two years. Two members shall be employers of labor, two employees in industrial establishments or building trades, one to represent the general public, one a skilled investigator and the other the labor commissioner of the state. No provision is made as to division politically. They will act in connection with the workmen's compensation law of the state. If one is passed, the commission shall receive no compensation for their services other than necessary traveling expenses, but have power to employ such assistants as is necessary and to fix their salaries.

Senator Ollis also introduced another bill, which provides that twenty or more employers who have in the aggregate 5,000 or more employees in this state and who have accepted the provisions of part 2 of the workmen's compensation law of 1912, may form an incorporated employers' mutual liability insurance association for the purpose of insuring themselves and each other employers as may become subscribers to the association against liability for the compensation payable under the act.

### HOUSE PASSES CODE BILL

Sends Measure to Senate Revising Statutes. (From a Staff Correspondent.) LINCOLN, Jan. 31.—(Special Telegram.)—The house this afternoon passed house roll No. 1, which provides for the adoption of the code as revised by a special commission.

The house will be turned over to the advocates of women suffrage on the evening of February 8, at which time Dr. Anna Shaw will speak.

### LIABILITY HEARING WEDNESDAY

Date Set for Special Discussion of Compensation Bill. (From a Staff Correspondent.) LINCOLN, Neb., Jan. 31.—(Special.)—There will be a special hearing before the judiciary committee on next Wednesday evening in the senate committee, for the purpose of taking up the employers' liability compensation matters. It is expected that a large number will be present as the railroads will be represented by their regular counsel and also by Judge Root, special counsel for all the roads.

### COULPLAND SUBJECT OF ATTACK

Lincoln Newspaper Takes Opportunity to Censure Him. (From a Staff Correspondent.) LINCOLN, Jan. 31.—(Special.)—Following its usual tactics when an issue is the least affecting Lincoln comes up, a Lincoln newspaper has published a severe attack on Regent Coupland of the State university, who favors a consolidation of the university with the farm at the farm. This publication accused the regent of being unfair when showing legislative committees over the town campus. It charges that he showed the committee all the poor buildings, but did not point out the good buildings. And it has not yet apologized to the legislature for insinuating they are incapable of making an investigation of conditions on

### ALDRICH INCORPORATES UNITED MOTOR TRAVELERS

(From a Staff Correspondent.) LINCOLN, Jan. 31.—(Special.)—Governor Chester H. Aldrich, E. H. Holmes, E. J. Faulkner, A. W. Bemis and H. H. Wilhite compose a board of directors of a new corporation filing articles with the secretary of state this morning. The organization will be known as the United Motor Travelers, and will seek to advance the standpoint affecting motoring from the standpoint of business as well as pleasure. It will seek to secure legislation, both national and state, which will help the road movement; establish an international tourists' information bureau; organize a bureau for the prevention of theft and assist in the catching of the thief who steals a motor car and other things which may be necessary to bring the motor people of the country into closer relations. The funds of the association will be raised by a fixed membership fee.

### NEBRASKA TRACTION LINE SUBMITS NEW PROPOSITION

(From a Staff Correspondent.) LINCOLN, Jan. 31.—(Special.)—The Nebraska Traction company, as intervenors in the case before the railway commission wherein the Omaha, Lincoln & Beatrice Interurban company is asking for the privilege of issuing bonds in the sum of \$3,000,000 for the purpose of completing its line from Lincoln to Omaha, filed its brief with the commission today. The hearings held have developed the

fact that the Nebraska company opposes the granting of the permission asked for by the Lincoln-Omaha company unless the latter road will take over the line now operated by the Nebraska company from Halston to Papillion.

In the brief submitted today the Nebraska company introduces a new plan for the commission to consider, which is that the Lincoln-Omaha road be built as far as Papillion and that the company then operate its cars over the Nebraska line.

### MUCH CORN IS MOIST; FARMERS MUST BEWARE

(From a Staff Correspondent.) LINCOLN, Jan. 31.—(Special.)—Reports from farmers' institutes and corn shows to the department of agricultural extension indicate that while the condition of seed corn is not so serious as at this time last year there is much corn that is deficient in germination owing to severe cold in early January. This condition is not so general as to be alarming, but imposes the need of care in selection and testing of seed corn.

Those who have not already selected their seed and expect to rely on a supply from the crib are advised to make the selection immediately and place the ears where they will dry out. Much of the corn is still carrying a high percentage of moisture and would be injured in germination by severe cold. A preliminary test should be made of several hundred grains in a box of earth or dampened sawdust. Should this preliminary test prove unsatisfactory, a test should be made of the individual ears.

The department advises: In buying seed corn require a guarantee as to the germination test. If not entirely satisfied of the reliability of the seller, make the germination test a condition of the contract. The pure seed law passed in 1911 fixes the percentage of germinable seeds in seed corn at 80 per cent. This law is in force and the buyer can require

### Farmer Leaves Million in Bonds and Dividends

CHICAGO, Jan. 31.—David H. Wilson, a farmer who lived for sixty years at Oregon, working his ground almost until the time of his death, it has been found was worth more than \$1,000,000. He left no will and efforts are now being made to find who is entitled to the estate. During many of the years he toiled in overalls on his farm, he had valuable securities in a vault in a Chicago bank, to which he apparently paid no attention aside from paying rent on the box. Not until neighbors awakened interest in the estate yesterday by having administrators appointed, did a lawyer learn that the man who owned the securities and the farmer were the same. Among the securities are all stocks, that since their purchase have risen in value 500 points; stocks in Chicago banks, now far above par with thousands of accrued dividends; railroad stocks, showing years of unpartaken profits, and several securities which have been the subject of stock "melons."

### HYMENEAL

Baker-Byrony. FAIRBURY, Neb., Jan. 31.—(Special.)—John Byrony, of Belleville, Kan., and Miss Nellie Baker of this city were married at the Christian church parsonage yesterday. Rev. E. R. Taff officiating. Mr. and Mrs. Byrony left for Belleville and will go to housekeeping on a farm near that point.

Anderson-Garrison. KEARNEY, Neb., Jan. 31.—(Special.)—At Grand Island, Thursday, occurred the wedding of Mrs. R. D. Garrison, widow

### WOMEN FAVOR FRENCH BILL

(Continued from Page One) and consists of a Portia cap, tight fit, and of a long cloak coming to the knees.

The arms of the cloak will be tight and there will be a hood.

This simple gown will cost the marchers only \$2, according to the woman with the thimble, and if the women want to walk in some section of sisterhood they can have their costume made up in any color, provided it corresponds with the color of that special section.

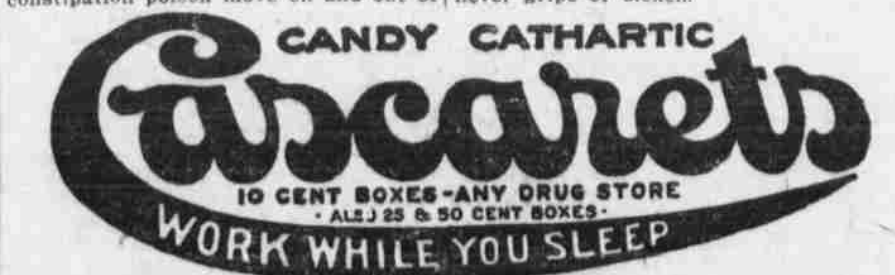

Only One "BROMO QUININE." That is LAXATIVE BROMO QUININE. Look for the signature of E. W. GROVE. Cures a Cold in One Day. Cures Grip in Two Days. 3c.—Advertisement.

### Feel Shaky, Bilious, Headachy, or Constipated? Take Cascarets

Sick headaches! Always trace them to lazy liver, decayed, fermenting food in the bowels or a sick stomach. Poisonous, constipated matter, gases and bile generated in the bowels, instead of being carried out of the system, is reabsorbed into the blood. When this poison reaches the delicate brain tissue it causes congestion and that dull, sickening headache.

Cascarets remove the cause by stimulating the liver, making the bile and constipation poison move on and out of

the bowels. The effect is almost instantaneous. Ladies whose sensitive organisms are especially prone to sick headaches, need not suffer, for they can be quickly cured by Cascarets. One taken tonight will straighten you out by morning—a 10-cent box will keep your head clear, stomach sweet, liver and bowels regular and make you feel bright and cheerful for months. Children need Cascarets, too—they love them because they taste good and never gripe or sicken.
