Supreme Court Upholds the Position of Sheriff McShane.

COUNTY TO PAY HIGH PRICE McShane to Receive Thirty-Eight Cents a Day for Feeding Prisoners-Contract Price Was

for Eighteen Cents.

Contract feeding law, under which the county has been feeding its prisoners of a cost of 18 cents a day each, was neld unconstitutional by the state supreme court at Lincoln yesterday. The supreme court's decision is a victory for Sheriff Fellx J. McShane, jr., in his fight with the Board of County Commissioners to: the privilege of feeding the prisoners. It means \$15,000 to \$20,000 a year to the man holding the sheriff's office.

County Commissioner John C. Lynch who led the county board in its fight against the sheriff, has not yet given up. He is conferring with his attorney. John P. Stout, with a view to continuing the battle. What steps will be taken is not yet known, nor even decided. The legislature may be asked to enact a new law providing for contract feeding and free from the defects upon which the supreme court has based its ruling.

Pormer Deputtes' Case. One of the last acts of the democratic controlled Board of County Commissioners of 1911 was the awarding of the prisoner feeding contract to Mrs. M. King. relative of Sheriff McShane, though E Gardipee and Ira Planagan had submi ced a lower bid. Gardipee and Flane in in district court had the awarf, wet aside, and the republican con affed board of is awarded the contract to Gardipec and Flansgan at 12 - a day a prisoner. McShane con stea this in the district court and set. He denied the constitudonality of the contract law, holding that a for er law allowing the sheriff 38 cents a prisoner still was in force. The court has sustained him. The principal attack on the contract law was that its title did not conform to its pro-

Sheriff Feeds Prisoners. Under the supreme court's ruling the county must let no more contracts for prinoner feeding, but must let the sheriff coard the prisoners and the county must pay him 25 cents a day for each prisoner be boards, where heretofore it has paid around 18 cents for each prisoner fed by the contractors.

The contract law was passed a few years ago because the prisoner feeding erquisite had made the sheriff's office a huge financial plum much sought after and the excessive cost for meals served by the sheriff was a heavy drain upon the county treasury. The law was not attacked until Sheriff McShane failed to land the contract for himself or a relative and determined to get the business of feeding the prisoners in one way o

The supreme court remanded for retrial Sheriff McShane's suit against the state involving the payment the sheriff may exact for keeping state prisoners. This was tried in the Lancaster county district court. During a period of several weeks between the time of voldance of the King contract and award of the Gardipee and Flanagan contract. the sheriff fed the county prisoners at the rate of 18 cents a day each. The sheriff during this time kept several state prisoners for a day or two. After sentence to the penitentlary a prisoner becomes a state prisoner. The state has to pay sentence and delivery to the penitentlary. Under a state law the sheriff tried to charge the state 50 cents a day for such prisopers. The state auditor allowed him but 18 cents a day, holding he must feed state prisopers at the same rate charged for county prisoners. McShane sued in the Lancaster county district court and, oning, appealed.
