ALLIES BOMBARDING ADRIANOPLE FORTS; PART OF CITY BURNS

Attack Which Starts at 7 O'clock Monday Evening Renewed with Greater Intensity.

NO PART OF CITY IS SPARED
Big Guns Are Dropping Shells in Residence Section.

LONG RESISTANCE IS PROBABLE
Foreigners Leave City Upon Advice of Their Consuls.

OTHER BATTLES ARE PROBABLE
Allies Are Expected to Renew Attacks on Forts of Tebatija and also on the Port of Gallipoli.

BULLETIN.
LONDON, Feb. 4.—A full division of Bulgarian infantry advanced to the attack of Adrianople this morning under cover of a fierce bombardment, according to a news agency dispatch from Sofia. The result of the bombardment is not yet known.

BULLETIN.
SOFIA, Bulgaria, Feb. 4.—Some quarters of Adrianople are in flames as the result of the bombardment by the Bulgarians and Serbians, which was renewed with even more intensity today, according to advices received here from the front.

BULLETIN.
LONDON, Feb. 4.—A terrific bombardment of the forts of the Botevgrad and Serviana surrounding the city to the number of over 100,000. Almost at the moment of the conclusion of the armistice at 7 o'clock, siege guns and field guns from various points commanding the forts opened fire. Not even the residential portion of the city was spared.

There is difference of opinion as to how long the fortress will be able to hold out. One dispatch from Mustafa Pasha today reported that the heavy cannonade continued throughout the night, concluded with the opening of a Turkish staff that the walls would suffice for the besiegers to force the Turks to capitulate.

Long Resistance Expected.
Military men, however, who are familiar about the several lines of forts which form the defenses of Adrianople for the outer ring which the besiegers have been facing since the war began is connected with and supported by other circles of forts just as strong-looking for a prolonged defense by the besieged garrison, which comprises many of the best of the Turkish regular troops.

The opinion prevails within Adrianople itself, otherwise the foreign consuls there would not have considered it necessary to ask their ambassadors to secure an escort for the foreign residents of the city who desire to pass through the lines, or protection for those who remain within the gates.

Quarrels Among Turks.
The great drawbacks to the success of the Turks are the political quarrels among the Ottoman officers, which must tend to undermine the efficiency of the army.

On the other side of the Balkan peninsula, Scutari, where the Montenegrins are besieging the fortress, it is reported that the success of a Turkish force of 10,000 men to have fallen. There is no confirmation of this report from any other source.

British and German warships passed through the Dardanelles yesterday for the protection of foreign residents of Constantinople and a fleet of warships belonging to other powers is anchored in Besika bay ready for any emergency.

Other Attacks Probable.
The Bulgarians are said to have 500,000 men in the province of Thrace, with 45,000 Serbian soldiers and perhaps a few divisions of Greek auxiliaries. The greater part of this force, however, is compelled to remain in front of Tebatija and at Gallipoli in order to hold the

Lovett Says Plan of Dissolution is Still Incomplete

NEW YORK, Feb. 4.—The executive committee of the Union Pacific held another session today, but the meeting was unproductive of any news regarding the dissolution of that road from Southern Pacific. From the fact that the mandate of the supreme court ordering the dissolution has been ordered back to the lower federal court in Salt Lake City it was inferred that something in the nature of an understanding now exists between the Department of Justice at Washington and the officials of the Harriman line.

R. S. Lovett, chairman of the Union Pacific, is authority for the statement that details of the proposed dissolution have yet to be worked out to a satisfactory conclusion. Until that time, he adds, all reports dealing with the ultimate control of central Pacific are merely conjectures.

Diplomat Says He Lied to Americans for Nearly a Year

MEXICO CITY, Feb. 4.—I lied to the American government for ten months, telling them that the Mexican revolution would be over in six weeks. I was forced to invest my diplomatic mission with a double mask.

This statement was made by Manuel Calero, formerly Mexican ambassador to the United States, during the discussion of the loan measure in the senate last night. He continued:

"The truth is the department of finance has not painted the situation as it really is. We should speak the truth though it destroys us. The truth is that the situation is desperate."

Eusebio Madero, minister of finance, replied, calling Calero an "indirect assassin" and a "bad financier."

CONFESSION SOLVES THREE BOMB CASES

Mysteries Long Puzzle to New York Police Made Clear by Janitor's Confession.

WOMAN KILLED SUNDAY NIGHT
Farrell Held for Murder of Mrs. Bernard Herrera.

MRS. TAYLOR SLAIN YEAR AGO
Says She Was His Daughter, Then Denies It.

MACHINE SENT JUDGE ROSALSKY
Man Mentally Unbalanced Possesses Ability to Make Bombs and Settles All His Grievances by Murder.

NEW YORK, Feb. 4.—John Paul Farrell, a discharged apartment house janitor, confessed today that he had killed Mrs. Bernard Herrera Sunday night by means of a bomb that he had made and that by shooting can he had caused the death of Mrs. Helen Taylor a year ago and attempted the life of Judge Otto A. Rosalsky of the court of general sessions last March.

Farrell was held tonight on a charge of murder for the killing of Mrs. Herrera. Although his police are convinced the man is mentally unbalanced, Deputy Commissioner Dougherty said tonight he had sent out in numbers to investigate the case has learned enough to lead them to believe Farrell's startling story is truth in all essentials, though false in many details.

Every time Farrell had a grievance he seems to have settled the business with a bomb. The trouble with Mrs. Herrera, he said, was that she "fired" him from his job as janitor and hired a negro in his place. He wanted to get Judge Rosalsky out of the way because the judge had sentenced Alvin Harvey, a "rat," to serve thirty-nine years in Sing Sing for stealing \$10,000 worth of jewelry. Farrell told the police he helped Harvey rob Peter Johnson's home in the Bronx in 1912, but easily escaped.

Why Motive for One Murder.
Why Farrell wanted to kill the Taylor woman—sometimes known as Grace Walker—was more than the police could fathom. Early in his story Farrell said she was his daughter and he slew her because she had gone wrong. Later he denied this and said she was an intimate friend, but gave no reason for killing her. He also told Dougherty why and by whom "Kid" Walker was shot in 1912 on the Bowery. He said Walker betrayed the Taylor woman and a man named LeStrange killed him in revenge.

Having disposed of the bomb mysteries, Farrell confessed, the police assert, to having perpetrated a series of robberies in Brooklyn and the robbery of the Johnson home. Harvey and Harry Hartman, his companions in the latter exploit, were sentenced to Sing Sing for thirty-nine years and nine years, respectively. Farrell never had been suspected of complicity in the crimes.

Mr. Dougherty said Farrell had served ten years in the New Jersey penitentiary for burglary and other crimes. As John McDermott, alias "Liverpool Jack," Farrell's picture is in the rogues' gallery in Jersey city, according to information brought to Dougherty.

BEACH ASSAULT TRIAL BEGINS

New York Millionaire Charged with Stabbing Wife.

JURY SECURED IN SHORT TIME
Defendant and Wife Deny Charge and Say Crime Was Committed by Negro—Witnesses Hear Screams.

AIKEN, S. C., Feb. 4.—Taking of testimony in the trial of Frederick O. Beach, a New York millionaire, charged with assault on his wife with intent to kill, was started this morning in the Aiken county court of general sessions. The jury was secured in twenty-two minutes. Only a few of the members of the wealthy white colony appeared in the court room.

Mr. and Mrs. Beach sat together today in the Aiken county court house and heard the prosecuting attorney attempt to prove to a jury of countrymen that the New York society man had made a murderous attack on his wife with a penknife in Aiken last winter.

Eleven witnesses were called by the state and a slow start was made in their examination. Prosecutor Gunter directed his efforts at attacking the wife, told by Beach and substantiated by his story, to the effect that Mrs. Beach had been attacked by a negro when she left the house to give her dogs an airing.

Two Doctors Testify.
Dr. Hastings Wyman and his son, Dr. Marlon Wyman, who examined Mrs. Beach's wounds some after she was cut, expressed the opinion that the stab was inflicted from behind. The theory of the prosecution is that Beach attacked his wife while she was running away from him.

When court reconvened at 1 1/2 o'clock the two physicians were the only witnesses who had been examined. Colonel Henderson, defense counsel indicated that he would ask later to have the jury inspect the premises of the Beach home.

Mrs. Beach took a keen interest in the examination and frequently jotted down notes with a pencil. Once she joined heartily in the laughter that followed a subtle compliment offered her by the side Dr. Wyman. Colonel Henderson had asked him how Mrs. Beach looked when he saw her just after she had been attacked.

"Not as well as she is looking this minute," replied Dr. Wyman, bowing gallantly to Mrs. Beach.

Prosecutor Gunter opened his side by having the stenographer read the testimony of Miss Lillian Waken, who is Mrs. Beach's maid.

Girl Hears Screams.
Miss Wyman was examined in the presence of Prosecutor Gunter and Colonel Henderson, counsel for the defense. She testified that she heard screams.

Woman Burned to Death in Trying to Save Her Baby Son

HASTINGS, Neb., Feb. 4.—(Special Telegram.)—Mrs. Menna Lay was fatally burned this morning when trying to rescue her 14-month-old son from a fire in her apartments in a rooming house. After being forced back several times by flames, she ran through the fire and picked up the charred remains of the baby from the blazing bed, and herself afire from head to foot, went with it to an adjoining room, where she fell unconscious. The mother's brother-in-law, Dick Lay, rescued 17-year-old Florence Lay, her daughter, and jumped with it from the second floor, both escaping serious injury. The fire started from Mrs. Lay's attempt to kindle a fire with kerosene. The boy was dead when picked up by the mother.

The democratic filibuster to prevent action was resumed as soon as the doors were closed. With appointments sent to the senate during the last two weeks the total number now pending is nearly 1,500, involving practically all appointments made by President Taft since the beginning of the session in December.

LEGISLATORS DECIDE THAT THEY MUST VOTE ON CAMPUS REMOVAL

House Discovers It Has No Authority to Refer Matter of Taxation to Popular Choice.

MOTION IS LAID ON TABLE
Institution Requests that Its Policy Be Settled.

TWO WATER POWER MEASURES
Special Committee Unable to Agree on Bill.

LEE HAS AN OMAHA BILL
Provides for Nine Commissioner Districts When City Shall Attain Population of Hundred and Fifty Thousand.

(From a Staff Correspondent.)
LINCOLN, Feb. 4.—(Special.)—The house decided this morning this legislature will be compelled to take a stand on the question of consolidation of the state university with the state farm. A resolution introduced yesterday provided that the question be left to a vote of the people, and today that motion was tabled on a motion by Keeley of York after several talks had been made for and against it. First it was proposed to refer the resolution to the judiciary committee, but this drew fire, and to finally settle the case Keeley moved to table. This carried.

Moeket explained to the house that it was beyond the jurisdiction of this legislature to refer anything to the people. The people under the constitutional amendment, had a right to initiate legislation or pass on legislation enacted by the legislature, but the legislature could not put it up to the people to provide for raising revenue to maintain the state institutions. Moeket explained that the worst thing that could happen to the university would be to pass this question over for another two years. He argued that it was the duty of the legislature to settle once for all whether the schools were to be consolidated or the university were to remain where it is. Keeley and others insisted that the legislature should settle the question one way or the other.

Two Water-Power Bills.
The special committee appointed to investigate the water powers of the state will tomorrow introduce two bills in the house, and after it will make its full report. One measure will declare the water power sites the property of the state and place them under the control of the State Board of Irrigation with power to lease to private individuals or others.

The other measure will provide for the appointment of a committee to investigate the matter and report back to the next legislature.

Hoff and Flanagan came to the relief of Omaha, introducing two measures this afternoon, the one providing for the repeal of the \$500,000 floating law insofar as it relates to cities which make their own charters; the other providing for the repeal of the Albert law.

W. H. Campbell, the dry farming expert, addressed the house for twenty minutes this afternoon and urged legislation which would provide for a county superintendent of agriculture.

Lee's Commissioner System.
Lee of Douglas introduced a bill in the house this afternoon to change the makeup of Omaha. His bill provides that when the city has a population of 100,000 it shall be divided into nine districts and shall be governed by a committee elected at large, one from each district. The one receiving the largest vote shall be mayor and receive \$4,000 a year. The others shall receive \$2,500 a year.

Speaker Kelley got ahead of himself this afternoon and appointed Shipley, Moeket and Helligan to investigate the telephone combine and find out through newspaper publishers just what is being paid them for running advertising for the alleged combine. He discovered after adjournment that the resolution has not yet been adopted, so recalled his appointments.

Busch, Jeary and McCarthy of Greeley will investigate the finances of the various state institutions which have reported.
