GRAIN AND PRODUCE MARKET

Higher Prices at Liverpool Seem to

Awaken Little Interest.

Reports from Argentina Are to Effeet that Crop There Will Be Damaged by the Extreme Heat.

SHORTS HEAVY CORN BUYERS

OMAHA, Feb. 5, 1913.

Wheat refused to respond to the higher LiveTpool cables yesterday, which was raused by the resumption of hostilities in the far east, the overbalancing factor being goodly increases in the European and Canadian visible supplies as well as in the world's available. The strength in corn was a help to wheat, but the buying in the latter market was of a weak-hearted character. Minneapolis and Wilmipeg both showed a relatively stronger feeling than Chicago. There was a lack of help in the matter of cash sales, as only 55,000 bushels changed hands at Chicago. Montreal reported twelve loads of Manitoba wheat for export and a message from there says that OMAHA, Peb. 5, 1913.

working basis. After the close the seaboard reported thirty-two loads as sold to exporters and most of the latter was of the hard winter variety. Cash wheat was 4,5%c lower.

Although the Buenes Afres corn market was closed to business yesterday on account of a holiday in that country, a private cable received at New York said that the heat in the southern hemisphere was intense. While this piece of news was known to but a few on the board of trade yesterday, there was hear of the sound of the southern hemisphere was intense. While this piece of news was known to but a few on the board of trade yesterday, there was hear of the sound of the southern hemisphere was intense. While this piece of news was known to but a few on the board of trade yesterday, there was hear of the southern hemisphere was intense. While this piece of news was known to but a few on the board of the southern hemisphere was linearly the southern hemis was latense. While this piece of news was known to but a few on the board of trade yesterday, there was heavy buying by shorts in the belief that the Buenos Aires market for corn is likely to show a sharp advance today, this beause of unfavorable conditions now pre-siling there. The Armour Grain company is believed to be either personally long on a large line of May corn or is acting for some large speculators, possibly exporters. In addition to the holdings in the Armour house, the "cotton crowd" in New York is still long with a big line of May corn, and these people continue to add to their holdings on all weak spots. Chicago corn men, as well as some in the corn trade at the seaboard, advance the opinion that the losses to the corn crop in Argentina have been much larger than generally reported, which they say has already been reflected in the reduced shipments from that far away country. Speculative sentiment or corn was more bullish yesterday than at the country of the present with the country the corn was more bullish yesterday than at any time during the present bull cam-paign and any further hardening in values will doubtless gain new converts to the bull side of the market. Cash corn was unchanged to be lower. Shorts and investors gave the oats mar-

ket considerable attention yesterday and prices were held up by them. Cash oats Clearances: Wheat and flour equal to \$70.000 bushels; corn, 393,000 bushels; oats. 29,000 husbels

Liverpool close: Wheat, and to ad lower; corn, ad lower. Primary wheat receipts were 636,000 bushels and slipments 493,000 bushels, against receipts of 424,000 bushels and shipments of 792,000 bushels last year. Primary corn receipts were 1,822,000 bushels and shipments 1,331,000 bushels, against receipts of 1.608,000 bushels and shipments of 737,000 bushels last year. Primary oats receipts were 763,000 bush-els and shipments 632,000 bushels, against receipts of 681,000 bushels and shipments of 441,000 bushels last year. The following cash sales were reported

CHICAGO GRAIN AND PROVISIONS Features of the Trading and Closing

Prices on Board of Trade. CHICAGO, Feb. 5.—Rains in the Pun-jaub and promise of relief from drouth in today down grade. The market, though firm at the close, was \(\frac{1}{2} \) \(\fr advantage not only because of the bear-ish news from India, but on account of signs of heavier shipments by Australia and Argentina, which tended also to de-

press the market. Fresh threats of a reduction in the milling output at Minneapolis told likewise against quotations, and so, too, did weakness of corn.

Late in the day wheat developed a little strength owing to reports that soil east of the Mississippl has been moisture heavy and that a prolonged freeze would cause damage of wide extent. It was conceded, however, that west and south-

west the winter crop was in this respect scarcely, if at all, in danger.

Corn suffered from general selling, the result of showers improving the prospect of good yields in Argentina. Country dealers were reported to be hedging here on a big scale. The unusual size of the discount of cash under May was said to be an incentive. he an incentive.
Oats weakened with corn and in conse-

quence of pressure from elevator con-cerns that recently had been giving the narket support.
Concentrated buying as the result of a

huge decrease in slaughtering this winter as compared with a year ago lifted pro-visions early, but subsequently the ad-vance disappeared. Heavy unloading credited to a leading packer was responsible for the reaction.

NEW YORK STOCK MARKET

Quotations Drift Downward During

Day in Deliberate Way. NUMEROUS BEARISH FACTORS

Amount of Business Continues Small and Movement Among the Bulk of Standard Issues is

Narraw.

NEW YORK, Feb. 5.-Quotations of stocks drifted downward today in much the same deliberate way as on the pre-vious days of the week. Sentiment was more bearish and such new influences as

were brought to bear helped to spread pessimistic feeling.

Disappointment at the failure of American Can directors to take action on the back dividend on the preferred stock, legal obstructions in the way of concluding the subway negotiations and unfavor able reports of conditions in the copper trade were responsible for declines in the stocks directly concerned, and the heavi-ness in these shares spread to the gen-eral list; although the railroad stocks for a time resisted the movement. The amount of business continued small

and the movement among the bulk of standard lessues was narrow. Some of the specialties and a few of the high-grade railroad stocks at times were lowered a point or more, giving the market as a whole a heavy tone. The copper group was the weak fea-

ture, these shares being sold on the break in the metal market in London and re-ports of unsettled conditions in the home Consumers were said to be hold. ng back, pending publication this week of the copper producers' monthly state-ment. It was predicted that the statement. It was predicted that the statement would show a further gain in stocks on hand. Pennsylvania was under pressure, and in this connection were revived reports which were denied recently that a large issue of new stock was contemplated. Declaration of a 5 per cent quarterly dividend on American Tobacco, with 15 per cent extra caused the stock to contemplated.

terly dividend on American Tobacco, with laper cent extra, caused the stock to recover its loss of over 3 points.

Bonds were irregular, with a lower trend. Total sales, par value, \$2,00,000. United States 4s, coupon, and Panama 3s, coupon, advanced % on call.

Number of sales and keading quotations on stocks today were as follows: Nates. High. 14,000 7250

Condition of the Treasury.

WASHINGTON, Feb. 5.—The condition of the United States treasury at the beginning of business today was as follows:

Working balance, \$83,184,749; in banks and all adippine treasury, \$33,342,565; total of seneral fund. \$16,947,511; receipts vester-day \$2,478,084; disbursements \$1,255,360. The surplus this fiscal year is \$5,256,568, as against a deficit of \$21,033,361 last year. The figures for receipts, disbursements \$1,774, etc., exclude Panama canal and public debt transactions. Condition of the Treasury.

Bank Clearings for January

The remarkable expansion in payments through the banks, as reflected in bank clearings, of the closing month of 1912 at practically all leading centers of the country, was fairly well maintained in January, the total, according to statistics compiled by R. G. Dun & Co., which include returns from 125 cities, aggregating \$16,247,781,726, an increase of 7.5 per cent, as compared with the same month last year and of 12.5 per cent, compared with the corresponding month in 1911. Every section, except New England, into which the statement is divided shows gain, and in some, netably the Southern, Central and Western States, it is very large, reflecting clearly the maintenance of commercial and industrial activity in every direction. Although comparative dulness was a feature in the stock and other speculative markets at New York, that city reports a gain of 5.7 per cent. over last year and 9.5 per cent. over 1811. indicating a gratifying volume of transactions in ordinary business changels, while the total of all outside cities is 9.9 per cent. and 17.0 per cent., respectively, larger than in either preceding year. In New England bank clearings at Boston show some contraction, but most of the other cities report more or less increase and the section, as a whole, as a result of the favorable returns from Springfield, Worcester, Hartford, Providence and other centers, makes a fairly satisfactory comparison with both 1912 and 1911. Pronounced gains at Philadelphia, Pittsburgh, Scranton, Reading, Binghamton, Rochester and almost all other cities in the Middle Atlantic States reflect the stimulating effect of activity in the iron and steel trade and nearly every important industry, the total being considerably in excess of either last year or two years ago. Generally satisfactory conditions throughout the South Atlantic States are indicated by the gain in exchanges at Baltimore, Richmond, Norfolk, Columbia, Jacksonville and other cities, the total for the entire section being 5.3 per cent in excess of the same week a year ago and 17.5 per cent. larger than in 1911. The returns from the cities in the Central South give evidence of well-maintained activity in that portion of the country, most centers, among them St. Louis, Louisville, Nashville, Chattanooga, Birmingham, Galveston, Houston and Little Rock, reporting good gains and the total being well above either previous year. Marked expansion at all the leading centers in the Central States, exchanges at Chicago, Cincinnati, Cieveland, Detroit, Milwaukee, Toledo, Grand Hapids and many other important points being larger than in any previous corresponding period, testify eloquently to the notable activity that prevails in all commercial and industrial lines and the total shows a substantial increase compared with both years. In the Western States, Kansas City, Minneapella, Duluth, Omaha, Wichita, Des Moines and other leading centers report marked improvement, in part as a result of merchants anticipating requirements more freely than usual and the general increase in mercantile activity following the favorable crop results of the past season. Improvement in the lumber industry and well-maintained presperity in other leading lines is indicated by the increased volume of bank exchanges at San Francisco, Los Angeles, Sacramento, Seattle and most other cities on the Pacific Coast. and the total for the section is much in excess of both years.

The early market on cows and helfers was very good, helfers being especially sought after. The market at the best time was 10c higher and active. Later on after the more urgent orders were filled the late trains that arrived did not meet with such an active market, trade becoming very duil and weak, with all the strength of the morning lost.

Stock cattle and feeders were in good demand and were free sellers at 111m prices. The offerings were pretty much all picked up in very good season.

Quotations on cattle: Good to choice beef steers, \$1.50@8.25; fair to good beef steers, \$1.50@8.25; fair to good beef steers, \$3.55@7.00; good to choice helfers, \$4.55@7.00; good to choice helfers, \$4.55@7.00; good to choice helfers, \$4.55@7.00; good to choice helfers, \$6.55@7.00; good to choice stockers and feeders, \$4.75@7.75; fair to good grades, \$5.00@6.00; common to fair grades, \$3.55@7.00; good to choice stockers and feeders, \$6.55@7.75; common to fair stockers and feeders, \$6.00; good to choice stockers and feeders, \$6.55@7.75; common to fair stockers and fe

BEEF STEERS.

HOGS Receipts of hogs were liberal again today making the total for the three days \$2.534 head, a falling off as compared with last week of over \$.000 head and a decrease as compared with a year ago of \$.000 head and over. year ago of \$000 head and over.

The market opened extremely slow and duil. General conditions were such that sellers all fait that they were entitled to a substantial advance while on the other hand buyers did not seem inclined to let the market go up if they could prevent it. As a result the trade during the greater part of the forencom was extremely slow and duil and it was after it o'clock before enough business had been done to make a market or establish quotations.

Shippers bought about half of the hogs.

GONG HEE FA TOI! GONG HEE

Celestial Residents of Omaha Observe New Year's.

DAY CALLED 'GINGOT' THE 'LOO' Fifth of February Set Apart for Fensiting, Music and Merriment, the Day Generally Observed by Omaha Chinese.

Going hee fa tol-gong hee fa tol!" "Cong her -gong bee!" If you hear this on the streets today

and then see signs of activity among the Chinese, or if your laundryman springs it on you with ourstretched arms, there is no necessity of doing a disappearing act or suspicion of revolution, tong war

Pebruary, or "ginget" the "loo," which means February 5, is celebrated as New Year's day, regardless of the year. In Omaha there was not a particularly oyous calebration. The Chinese here all eem to be loyal Americans and adhere

o the American customs mainly. However, in the Chinese grocery store at Twelfth and Dodge streets last night. a joyous party of almond-eyed men was gathered. Food of all kinds oriental iquors of rare variety was offered to the

guests and ancient Chinese stories and raditions were told. In Chinese cafes last night, every person was given extra portions of something and presented with the compliments of the season. At laundries today perhaps the slim little man behind the counter will not be so particular about

your "checkee." There are about sixty-five Chinese in Omaha and about six women, the latter being all American born.

In the Chinese homes today there will be feasting and music and merriment according to the Chinese custom.

Democrats in Senate Break Quorum in **Executive Session**

WARHINGTON, Feb. 5 .- After another neffectual effort today to force action on President Taft's nominations pending in the senate the republicans decided to make no further move for the present. It is probable they will caucus before beginning the fight again. Some republicans predicted that any action by caucus would be negative.

"It has been demonstrated that the to decide to do nothing more."

Today's executive session was brief. The democrats forced an adjournment by demanding a roll call to establish a
