Thompson Belden & Co. 16th and Howard Sts.

ments in a couple of Omaha papers that he introduced a bill to permit the saloon keepers of that city to regulate the hours of closing their places of business. The bill introduced by the senator provides that the council may set the hour for closing and opening such places in the city of Omaha, subject to the old Bloomington law. It relieves Omaha from the restrictions of the 3 o'clock closing law.

REVISION OF THE STATUTES

Measure for New Code Advanced to Third Reading. (From a Staff Correspondent.) LINCOLN, Feb. 7.—(Special.)—When the senate convened this morning house bill No. 1, sent over from the house, was waiting and on motion of Hoagland of Lincoln county was passed to third reading, dispensing with its consideration in committee of the whole. No. 1 is the bill embodying the report of the revision of the statutes committee and was immediately passed. Several petitions were read by the secretary, one covering the employment of female labor in hotels, manufacturing, stores, etc., for more than ten hours a day or sixty hours a week, and protesting against a change in the law; another against the bill licensing stock food vendors, and two or three others against railroad legislation. A message from the governor contained an invitation to the wives of the senators to a reception and tea at the executive mansion Wednesday afternoon at 2 o'clock. The following bills were placed on general file: S. F. 200, by Haarmann of Douglas—Pure limes and flaxseed oil bill. S. F. 196, by Dodge of Douglas—Repeals voting machine law. S. F. 188, by Harting of Otoe—Prohibits misleading advertising of any class of goods. S. F. 222, by Hoagland of Lancaster—Regulates the sale and manufacture of embalming fluids. S. F. 128, by Bushae of Kimball—Prevents fraudulent advertising of merchandise. S. F. 51, by Hoagland of Lancaster, licensing operators of switchboard and motion picture machines, was indefinitely postponed on report of the committee. In committee of the whole, with Macfarland of Douglas in the chair, the senate took up three bills and ordered them engrossed for third reading. S. F. 94, by Plasek of Saunders—Requires that percentage of wool, cotton, linen or silk be stamped on all cloth offered for sale. S. F. 192, by Heasty of Jefferson—Provides that farmers may work out total amount of their poll tax. S. F. 136, by Heasty of Jefferson—Prevents marriage of drunks, habitual criminals, epileptics, idiots, insane persons and persons afflicted with venereal disease. POOR HOUSE AND HOSPITAL Dodge Introduces Bill Providing for Erection. (From a Staff Correspondent.) LINCOLN, Feb. 7.—(Special.)—A bill introduced Wednesday by Senator Dodge of Omaha becomes a law Douglas county will be permitted to acquire land and erect thereon a poor house and county hospital. The county board will have the power to acquire the land needed either by purchase or condemnation proceedings. The land must not be closer than ten miles to the city of Omaha and shall contain not less than 100 acres. The county of Douglas will be empowered to issue bonds in a sum not to exceed \$100,000 at a rate of interest not to exceed 5 per cent issued in the sum necessary only to purchase the land and build and equip the buildings. The judge of every court in the county, police, justice of the peace or other magistrates, shall send offenders punishable with a jail sentence to this institution.

JERRY DONS HIS WAR PAINT

South Omaha's "Next Mayor" Stirr Things Up at State House. (From a Staff Correspondent.) LINCOLN, Feb. 7.—(Special.)—Unless the Commercial club legislative committee keeps its hands off, Jerry Howard, a statesman and self-styled "next mayor of South Omaha," is going to a blow off down here some day and tear up Jack in general. "The next mayor" came down this morning to camp on the trial of his old friends, J. M. Tanner, Attorney General, Jack Watson and some others of the packing house city, who he says are here for no good purpose. Jerry has it in for the Commercial club of Omaha because its legislative committee was instructed to work against the minimum wage scale, a measure in which he has his heart. This bill provides wages of 20 cents an hour and not less than 20 a week for females. WOMAN'S CLUB FOR THE LAW Protests Against Repeal of Sackett, S. O'Leak or Albert Acts. (From a Staff Correspondent.) LINCOLN, Feb. 7.—(Special.)—Members of the legislature have received a resolution adopted by the Omaha Woman's club protesting against any repeal of the 3 o'clock closing law, the Albert or the Sackett laws. The resolution sets forth that such repeal would be a step backward in morality, good citizenship and the influence of the home. It was signed by Mrs. May E. Hayes, president, and Laura B. Loford, recording secretary. ONE MORE PROBING BODY Regan Would Have Investigating Committee Probed. (From a Staff Correspondent.) LINCOLN, Feb. 7.—(Special.)—A resolution which was prepared for introduction yesterday, but which did not reach the speaker's desk was by Regan of Platte. It asked for the appointment of a committee to investigate the investigating committees. About one more of these committees and all the house members will have jobs as investigators. GRAND ARMY COMMITTEES ANNOUNCED BY JUDGE BEERS BRIDGEPORT, Conn., Feb. 7.—Judge Alfred Beers of this city, commander-in-chief of the Grand Army of the Republic, today announced the appointment of Past Commander-in-Chief Louis Wagner, as treasurer of the permanent fund. A list of committee appointments was also issued, the chairman being as follows: Pension, E. S. Burdett, Washington; Veterans in public service, I. G. Kimball, Washington; Rules and ritual, A. G. Weissert, Milwaukee; Bull Run monument, W. J. Wells, Narragansett, Pa.; legislation, Washington Gardner, Alton, Mich.; Lincoln centenary, A. C. Blackwell, New York; proposed "Lincoln way," T. S. Hopkins, Washington. AVERY PLANT IN PEORIA HAS BIG LOSS FROM FIRE PEORIA, Feb. 7.—Fire originating in a defect in the feeding mechanism of an oil furnace did damage estimated at \$300,000 to the plant of the Avery Manufacturing company today. The oil house, grinding house, steel room and blacksmith shop were destroyed.

Princeton Will Say Good-Bye to Wilson On First of March

PRINCETON, N. J., Feb. 7.—Residents of the little town of Princeton—students, members of the faculty, neighbors and townfolk generally—will say good-bye to Woodrow Wilson on the evening of Saturday, March 1, two days before he departs for Washington to assume the presidency. Plans for a big farewell demonstration to the president-elect, who has lived here for more than twenty-seven years, were announced today by Joseph Hoff, a member of the democratic state committee and an intimate friend of the governor. "We want to show Governor Wilson that while we regret to lose him as a neighbor," said Hoff, "we are glad that a resident of the town should be going to the White House." The farewell probably will take the form of a reception at the Wilson bungalow. Citizens will co-operate with the students in making the celebration one of great enthusiasm. A large parade will start from the center of town and march down Cleveland Lane to the Wilson home. The students, who have just organized a brass band to lead them in the inaugural parade, expect to give the band its first tryout on that occasion. The students are also busy with plans for escorting the governor to Washington by special train on March 3. They will travel in a long string of coaches and have engaged for the president-elect and his family the same private car from which the governor made many of his campaign speeches. The president-elect left here at 8:22 a. m. for Philadelphia for another visit to his dentist. GOLF BALLS ARE APT TO EXPLODE NEW YORK, Feb. 7.—Don't open golf balls to see what is inside. So many disgruntled players have given vent to their wrath over a poor strike or satisfied their curiosity by smashing golf balls open, with disastrous results, that the United States Golf association is preparing an official warning to club members throughout the country against such a practice. Several instances have been recorded in the last year where cutting open a ball or squeezing it in a vice has caused it to burst open and the liquid contents have blinded several persons. Acids and eight destroying compounds are used in the manufacture of some golf balls. THREE-POUND BABY HAS MANY ATTENDANTS LOS ANGELES, Feb. 7.—Because she weighs only a trifle more than forty-eight ounces and requires but forty-five drops of a specially prepared food to give her a square meal, Rosanna Elizabeth Johnson, who opened her eyes on this world last Wednesday, has achieved more distinction than any other baby ever cared for at the Los Angeles maternity cottage. She has an allowance from the county board of supervisors. Seven wealthy women, members of the board of managers of the maternity cottage, and a number of physicians are in attendance upon her. She has a specially built "baby incubator" and a retinue of nurses. Gunboat Sent to Guaymas. SAN DIEGO, Cal., Feb. 7.—Under hurried orders from the Navy department the gunboat Annapolis began coaling today and will clear before night for Guaymas to reinforce the cruiser DeWitt and the auxiliary Buffalo in the patrol of the western Mexican coast.

Nevada Assembly Passes Divorce Bill

CARSON CITY, Nev., Feb. 7.—After several hours' struggle the divorce law amendment requiring twelve months' residence in the state instead of six passed the assembly by a vote of 20 to 2. It goes next to the senate, where another hard fight is expected. The Barnes amendment adopted today is to go into effect January 1, 1914. Pro-divorce advocates first attempted to have action on the amendment postponed indefinitely. They became so insistent with their demands that finally they were laughed down. A compromise was attempted, an effort being made to amend the Barnes measure so that it would not go into effect until December 31, 1914, thus giving the pro-divorce an extra year of business. This occasioned the longest struggle and the amendment was finally defeated. The roll call on the Barnes amendment was then called and it carried. Over 300 men and women working for the measure came to the capital from the other parts of the state in a special train this morning. While the assembly is democratic the measure adopted by it carries out in detail the recommendations of Governor Tasker L. Odde, a republican. Heirs of Mrs. Eddy Abandon Contest BOSTON, Feb. 7.—The heirs have abandoned their contest of the will of the late Mrs. Mary Baker G. Eddy, coincident with the adoption by the Massachusetts legislature today of an enabling act permitting the First Church of Christ, Scientist, of Boston to receive the Eddy bequest. UNIVERSITY OF CHICAGO PLANS BIG MEDICAL SCHOOL CHICAGO, Feb. 7.—A vast medical college which would make Chicago the unquestioned center for the study of medical science is ready for launching by the trustees of the University of Chicago. The millions required for its endowment are being sought among Chicago's wealthy men and unutilized land facing the Midway Plaisance will furnish the site for the costly buildings. Announcement of the plan was made today in the annual report of President Harry Pratt Judson submitted to the university trustees. Plans for the new school contemplate the absorption of Rush Medical college and the creation of elaborate facilities for advanced research work in every line of medical and surgical science. DISSOLUTION PLAN LIKELY TO SATISFY WICKERSHAM WASHINGTON, Feb. 7.—Attorney General Wickersham said today that while he would make no official statement about the announced plans for the dissolution of the Union Pacific-Southern Pacific merger until he received the official draft he believed it would meet his approval. "I believe from the news dispatches and my telephone conversations with officials that the plan of dissolution is just what I have been working for for weeks," declared Mr. Wickersham. Only One "Bromo-Quinine" That is LAXATIVE BROMO QUININE. Look for the signature of E. W. GROVE. Cures a Cold in One Day. Cures Grip in Two Days. 25c.—Advertisement.

ORDERS TELEPHONE INQUIRY

Lower House Passes Shipley Resolution Without Debate. ONE AMENDMENT IS ADDED

Alleged Activity of Representatives of the Press as Lobbyists Will Also Be Investigated by the Committee. (From a Staff Correspondent.) LINCOLN, Feb. 7.—(Special.)—Though violations of the anti-lobby law stick out like a sore thumb, the democratic house is still going ahead investigating "rumors" of the activity of lobbyists and still permitting persons seeking special legislation to have a free hand. Even the fact that W. E. Sharpe sought to influence a member of the railway commission investigating committee to head off this investigation caused not a ripple. The Shipley resolution to investigate the telephone combine was adopted without discussion after this paragraph had been attached to it, on motion of Baker of Thomas: Whereas, The rumor is current that certain representatives of the press are violating the privileges of the floor of this house have been actively engaged as lobbyists, not having registered as such as the law requires; and, one of such representatives was in fact the original author of the foregoing resolution; therefore, be it Resolved, That such committee so appointed be empowered and instructed to investigate these rumors and report the facts to the house for further consideration. The rumor referred to is that a Lincoln newspaper man has been conducting a press bureau for the telephone companies, the copy being sent to outside papers. The "rumor" goes on that a representative of another Lincoln sheet brought about the Shipley resolution, and that still another representative of Lincoln had something to do with the Baker amendment. The committee will go into the "rumors."

This is the twenty-second day of the session and still no reports from investigating committees. The Shipley resolution is as follows: Text of Resolution. Whereas, The Nebraska Telephone combine, having headquarters in Omaha and Lincoln and several other places in the state of Nebraska, is vigorously endeavoring to defeat certain proposed bills in the legislature; and, Whereas, This combine is using its long distance telephone lines in the state, through certain of its employees not regularly registered as lobbyists, to bring pressure upon members of the legislature against the bills referred to; and, Whereas, This organization is spending large sums of money for articles in newspapers and publishing literature antagonizing the passage of such bills; therefore, be it Resolved, That a committee of three members of the standing committee on telephone, telephone and electric companies, be appointed by the speaker to investigate carefully any seeming irregularities on the part of lobbyists, so that the house may know of any violations of the anti-lobby law, and thereby be able to punish the offenders. Be it further Resolved, That this committee be clothed with full power to summon witnesses to ascertain how much money is being expended by lobbyists to whom paid, and to search records for the names of stockholders in concerns likely to be influenced by the passing of certain bills. Be it further Resolved, That any extravagant expenditure of money by the said telephone combine for lobby purposes be reported to the State Railroad commission for its guidance in pending rate cases.

SENATE FOR PURE CLOTH (Continued from Page One.) only difference was that you raised the price." Talcott sent up an amendment making all goods on hand January 1, 1914, exempt from the provisions of the law, and the bill went through. Disease Road Bill. Heasty's road bill was discussed at some length. Hoagland of Lincoln tried to amend it by a provision that the county commissioners should have full supervision over the road fund and its expenditure, but was defeated. He thought that the system used out around his home town of North Platte, which put the working of the roads in the hands of a highway commission, was about the thing and it had given them good roads. Hills of Valley objected to the amendment. He said that he had been out to North Platte, which he would admit was a "nice little village," and that their roads were no better than the roads up in Valley county. He wanted the road supervisors and the farmers to have the right to say where the work should be done. Cordell said that he was a farmer, though possibly he didn't look it, and was in favor of the bill and opposed to the amendment. Certificate for Marriage. Probably the most interesting discussion of the day was over 134, Heasty's pure marriage bill. The bill provides that "male" persons intending to marry shall provide themselves with a certificate of health showing that they are physically fit before a license may be granted them. Grossman of Douglas wanted to know why he had used the word "male." "Is not the opposite party to the contract just as liable to disease as man?" said the senator. "If it is required that in the interest of a pure grade of humanity these should be no disease inoculation, why should we not require both parties to show a certificate of good health. In the breeding of our stock we go to any extreme to get pure stock, then why should we not take the same precautions in regard to raising up a purer and better grade of humanity in the future?" The bill was finally amended to include both sexes. The senate adjourned at noon and will not convene again until Tuesday afternoon at 2 o'clock. PRISONER WITH SMALLPOX RETAKEN AT SAC CITY SIOUX CITY, Ia., Feb. 7.—W. B. Hogan, accused of swine, who escaped from the detention hospital here Wednesday night while suffering with a virulent case of smallpox, was caught early today at Sac City, Ia., by Sheriff J. W. Criss of Sac county, Hogan's old home. Hogan arrived in town on a freight train. He was placed in jail, all the prisoners being first removed to an old jail.

American Suffragists Threaten to Adopt Militant Methods

WASHINGTON, Feb. 7.—Shivers of apprehension ran up and down the spines of government officials and members of congress today when it was learned that that American suffragists, whose national headquarters are here, do not look with entire disfavor upon the militant methods employed by her sister suffragettes in England against the officials of the crown and the members of Parliament. Mrs. Clara Colby, one of the prominent suffragist leaders, told a crowded meeting of the Federal Women's Equality association last night that the window-breaking, police-fighting English suffragettes had made possible the suffrage advancement in the United States. "The English women had to adopt their methods and we should not blame them," said Mrs. Colby. "They always stop at the actual taking of life and while I believe in peace and would not advocate the militant methods for the United States, we must admit that the work done in England has had effect in America."

Rev. Olympia Brown of Wisconsin, president of the association, does not hold the same view as Mrs. Colby. She blames the extreme suffragists for the recent defeat of woman's suffrage in Wisconsin. Proposals of marriage are being received in almost every mail by two pretty stenographers at the national headquarters as the result of the publication of a photograph of the two young women showing them clad in the marching costume adopted for use in the parade of March 3. None of the proposals has been answered, the young women declaring they are wedded to "the cause."

Alfalfa Shipper Objects to Rates (From a Staff Correspondent.) WASHINGTON, Feb. 7.—(Special Telegram.)—Accompanied by Representative Kinkaid, F. M. Sands, a large alfalfa raiser of Gering, lodged an informal complaint with the Interstate Commerce commission today against the Union Pacific and Burlington railroads and connecting lines for alleged discrimination in rates on alfalfa to points east of the Missouri river. Later, Mr. Sands will file a formal complaint, as the commission believes that a prima facie case has been established which requires investigation. "We are unable to secure as low a rate per mile on our shipments of alfalfa as given to Colorado points," said Mr. Sands in his statement to the commission. "Shippers of hay and alfalfa at Trinidad, Colo., for instance, have in some instances been quoted rates as much as 60 cents a ton lower than our rates, although they were farther away from the point of consignment. In this way we are shut out from competing with Trinidad shippers. I also know of instances in which Idaho shippers have given rates the same as ours, although they are a much greater distance from the market."

"The discrimination operates more largely against irrigated farms, as they raise much more alfalfa than dry farming communities and therefore do not have so good a home market and are obliged to sell their products at distant points."

Mr. Sands said that the commission had agreed to give consideration to a formal complaint which he will file later. With his formal complaint he expects to file sufficient evidence of the alleged discrimination to warrant an order from the commission correcting the rates complained of.

FINAL! Absolutely the Season's Last!

Your Choice of Any Suit or Overcoat in our stock, that sold up to \$35.00. (Blue Excepted) SATURDAY

\$15 Society Brand and Stern Mayer Clothes Included

Corner 16th and Harney.

HE WAS VERY CARELESS. Never brushed his coat. Carried around a great lot of dandruff with him. One day a friend told him of Hall's Hair Renewer. He talked with his doctor about it. Then used it. Now his scalp is clean and healthy. No dandruff. No falling hair. No danger of staining the hair, either.

AMUSEMENTS.
